Masters of Arts in Teaching at Clemson University
FOR CAREER CHANGERS

The College of Education offers a 30-hour online Master of Arts in Teaching (MAT) program in middle level and secondary education – geared for individuals with bachelor's degrees in non-education fields who seek to change careers and enter the teaching profession in one of the following areas:

Middle Level Education

- English Language Arts
- Mathematics
- Science
- Social Studies

Secondary Education

- English
- Mathematics
- Science (Biology, Chemistry or Physics)
- Social Studies

After taking four sessions of online classes, you can be employed as a teacher of record in a classroom while completing coursework and student teaching. You emerge from this expedited pathway to education with a master's degree – and a firm foundation for a teaching career.

Benefits

- **Convenience** – Our online classes provide you flexibility to continue working while pursuing your degree.
- **Quality** – You learn from some of the best minds in the education profession, people committed to preparing you for a long and successful career in the classroom.
- **Local Classroom Experience**s – You complete field experiences in classrooms in your local area.
- **Employment** – Using the S.C. Department of Education Internship Certificate Guidelines, you can work as a teacher of record while finishing your degree, lessening the financial burden of tuition and student loans.
- **Salary** – With a master's degree in hand, you can begin your career with a higher salary.
- **Career** – This degree leads to a job that is in demand and makes a difference.
