

## WHAT IS UNIQUE ABOUT THE MEADOWS?

### RESEARCH-BASED CARE

CONTINUOUS ACTIVITY increases the time that residents are involved in meaningful activities which decreases the use of psychotropic drugs, improves their nutritional state, and increases the families' satisfaction.

THE BEST FRIENDS™ approach allows us to empathize with residents and place ourselves in **their reality** in order to establish a meaningful conversation in which the resident can engage.

### STAFFING

High staffing ratios allow for a better level of care for our residents. **All** staff members are trained in Alzheimer's care.

### PERSON-CENTERED CARE

We welcome new residents by learning about their families, professions, hobbies, interests, travels, and more.

Getting to know residents' life stories helps us plan individual and group activities that will capture their attention and focus on their unique abilities, strengths, and interests in order to fulfill their social, psychological, and physical needs.

### THE RESIDENCE

The Meadows recognizes that given the choice, everyone would prefer to live at home. We also know that

home is not always the best option for those dealing with diminished physical or cognitive abilities. In light of this, The Meadows has built a community to look and feel like home, and at the same time, it enables us to optimize the care of your loved one. The Meadows creates a home that provides not only the necessary assistance, safety, and security, but also a comfortable and reassuring environment that is filled with love and care.

### OWNERSHIP

The Meadows is locally owned and operated.

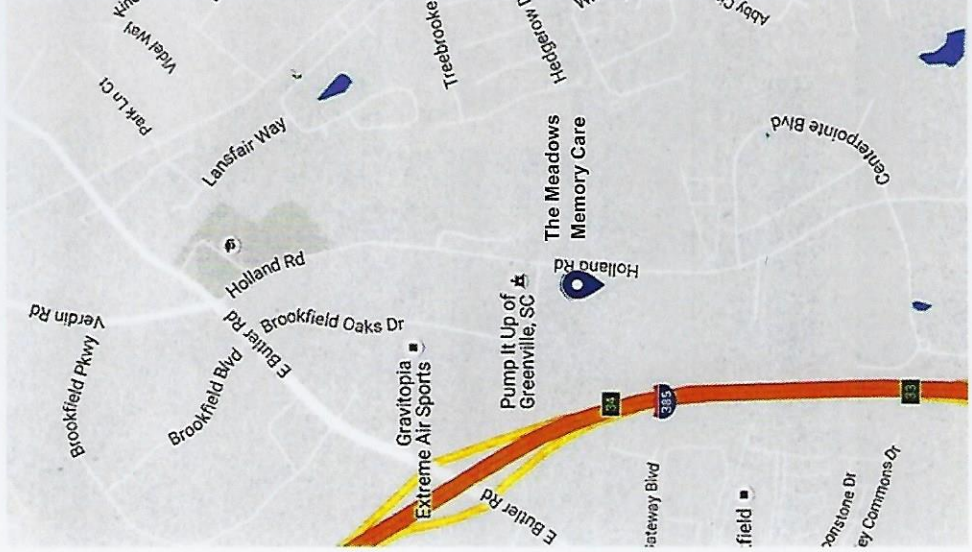

**SERVICE**  
*with Dignity and Integrity*

Our commitment to our residents and their families is to inspire confidence and to enrich every aspect of our residents' well-being through dignified personal care.

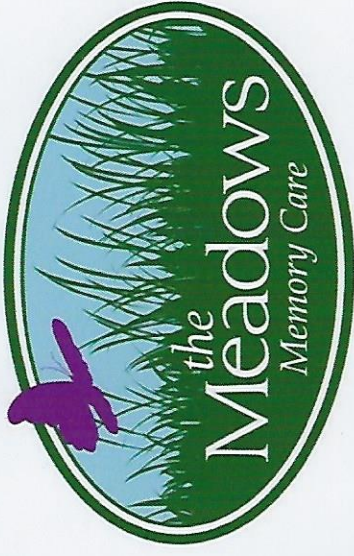

The Meadows is dedicated to providing the best life possible for seniors dealing with diminished cognitive abilities so that they can continue to live each day with dignity and independence.

We invite you to stop in for a visit or give us a call to learn more about what we offer your loved one with Alzheimer's disease.
