

Everyone Can Teach Coding

Save The Date - November 7th, 2017
Lunch Provided

Coding is an essential skill. Learning to code unlocks creativity, develops problem-solving skills, and opens career paths for your students. Everyone should have the opportunity to create something that can change the world.

Join us on Tuesday, November 7th to learn about Swift, a new approach to coding that gives everyone the power to learn, write, and teach code.

Hosted by:

Join us for an exclusive workshop where you will:

- Learn why **Swift** is the best language for teaching and learning coding, as well as for developing apps.
- Discuss how to **integrate coding** into the curriculum.
- Extensively explore **Swift Playgrounds**, an interactive app for iPad that makes getting started with coding fun.
- Get a first look at the **Swift Playground Teacher Guide** designed specifically for middle school and above.
- Hear about **App Development with Swift**, a high school and college curriculum for Mac that shows students how to create apps from start to finish.

Who Should Attend?
