SECTION ONE: INTRODUCTION

The self-study process at Bryson Middle has been in place since 2002 when the staff first began working with the *School Portfolio Toolkit* materials developed by Dr. Victoria Bernhardt, Ph. D. The leadership team received training during the summer of 2002; the staff was trained during the fall. The first step was to complete an extensive needs assessment; then a year was taken to develop the first school portfolio. Mission, vision, and belief statements were developed that year; the staff continues to examine those statements with implementation of the Professional Learning Community concept. Each year state test scores, discipline data, and the action plan are reviewed and modified. Initially our staff provided input through grade levels, working to consensus.

As part of the Making Middle Grades Work initiative, the staff was divided into focus teams where each teacher serves throughout the year. The focus teams of Data/Technology, Guidance/Transition, Student Engagement, Academic Rigor, Parent/Community Involvement, School Climate/Culture, and School Wellness provide input and work to serve the school. In 2016 with the transition to a STEAM school, the Academic Rigor team was dissolved, and a STEAM team was developed. All focus teams contain representation from all grade levels and are cross-curricular in nature.

With a large staff, focus teams meet to analyze data for each grade level to study the strategies from the action plan and to make recommendations about changes. Chairs for each focus team and department along with administration, the instructional coach, and the media specialist serve on a leadership team that conveys information and feedback school-wide.

SECTION TWO: EXECUTIVE SUMMARY

Summary of Needs Assessment for Student Achievement

In the spring of 2019, SC Ready AND PASS scores show that while the many of Bryson Middle School students are improving their performance, not all are performing at high levels.

In response to data, the following initiatives have been determined:

- Continued implementation of STEAM/PBL to increase student engagement and academic rigor
- Continued use of grade-level, subject-area common major assessments using the district assessment system
- Refinement of inclusion with co-teaching models of instruction
- Academic assistance opportunities through System 44 and Read 180
- Use of differentiation to target instruction and improve student understanding of standards-based instruction
- Analysis of assessment data followed by collaboration and use of data in planning instruction and remediation
- Professional development focused on differentiation and literacy

Summary of Needs Assessment for Teacher and Administrator Quality

Needs assessments indicated that teachers desire and need continued professional development to maximize their growth. Due to the various strengths and needs of teachers, there is a need for a more personalized approach to professional development. A plan of development will offer more choice for teachers and is determined based on school initiatives and staff needs to include inclusive strategies with co-teaching models, literacy strategies, data-driven differentiation, understanding and responding to students' social/emotional needs, connecting with diverse groups, and student engagement in the STEAM/PBL classroom. There is also a need to further increase collegial conversations and peer support.

In response to data, the following initiatives have been determined:

- Continuing to provide more professional development opportunities for teachers to promote choice
- Promoting teacher leadership in facilitating professional development opportunities
- Continuing to develop professional development in response to teacher input
- Promoting more opportunities for professional growth through Professional Learning Communities (PLCs)
- Research and implement methods of personalizing professional development in order to meet specific needs of teachers and promote a growth mindset.

Summary of Needs Assessment for School Climate

Report Card parent and teacher survey results about satisfaction with the learning environment has increased from the previous year; student survey results slightly decreased. There is a decrease in parent and student satisfaction with the social and physical environment since the previous year. The rate of teachers and parents satisfied with the home-school relations has increased since the previous year but has rate of students satisfied with home-school relations has decreased. Though improving in this area, this continues to present an opportunity for growth.

In response to data, the following initiatives have been determined:

- Continuing an orientation event for rising sixth graders to orient them to middle school prior to school starting.
- Expanding the current programs of achievement celebration and recognition
- Continuing and enhancing the annual student achievement showcase, Inspiring Excellence Night, initiated in the spring of 2018.
- Collaborating with a local group to provide adult mentors for students
- Expanding the student-to-student mentoring program
- Empowering students to track their progress and provide incentives for growth

Significant Challenges in the Last Three Years

- Strengthening teacher Professional Learning Communities where teachers collaborate, build standards-based common assessments, and analyze data to drive instruction
- Developing an academic assistance program to meet the needs of learners
- Implementation of STEAM/PBL and increasing inquiry and literacy experiences for students
- Transition to a 1:1 devices, managing a Chromebook classroom, and using Chromebooks along with programs, applications, and internet sites effectively for increased student learning opportunities
- Transition to Learning Targets and Implementation of the GCS Instructional and Disciplinary Literacy Protocols

Significant Accomplishments in the Last Three Years

- Increase in Ready ELA scores and SC PASS Social Studies scores
- Establishing opportunities for academic intervention and enrichment
- Junior Scholars
- Duke Tip Program Participants
- National Beta School of Merit
- Winners in State BETA Convention
- PTA Reflections Contest Winners at Local and District Levels
- Multiple Athletic Championships
- All-Region All-County Band Participants
- Superior Rating for Solo and Ensemble
- All County Chorus Participants
- National Six Flags Grand Sweepstakes Champion
- Superior Rating for Orchestra at SCMEA Concert Festival
- All Region All State Orchestra
- Art contest winners at district level
- SC State Archery Tournament; SCFFA Equine Evaluation, Agricultural Mechanics, Dairy Cattle Evaluation Participants, and FFA Creed Public Speaking
- United Way Campaign Award
- Implementation of STEAM/PBL instructional approach
- Donors Choose grant recipients
- iImagine Upstate STEAM festival participant
- STEM Design Challenge partnership with BOSCH/Rexroth

SECTION THREE: SCHOOL PROFILE

Bryson Middle School Community

Demographics

Bryson Middle School students live in one of two communities within Greenville County: Simpsonville or Fountain Inn. The city of Simpsonville has an estimated population of 23,037 (2018) with an average household income of \$67,456 and with 93.2% with high school diplomas and 34.1% with bachelor's degrees or higher. The city of Fountain Inn has a population of 10,019 with an average household income \$62,904 and with 85.7% with high school diplomas and 19.8% with bachelor's degrees or higher. The school is located between these communities and is easily accessible from either location. (Data from US Census Bureau)

Facility

Located in Simpsonville, SC, the facilities at BMS consist of 60 technology-equipped classrooms including seven science lab classrooms, wireless internet access throughout the school, a library/media/research center, a state-of-the-art auditorium and stage, two computer labs, a full gymnasium and cafeteria, and an administrative/guidance office suite.

Leadership

Local civic leadership is provided by Ms. Janice Curtis, mayor of Simpsonville, and Mr. George Patrick McLeer, mayor of Fountain Inn. Bryson Middle School's Principal, Dr. Adrienne Davenport, serves along with two Assistant Principals—Mr. Greg Cooke and Mrs. Tiffany McElveen—and one Administrative Assistant—Mrs. Amanda LeBlanc. School issues and concerns are divided among seven focus teams—STEAM, Student Engagement, Parent/Community Involvement, Guidance/Transition, School Culture/Climate, School Wellness, and Data/Technology. The Leadership Focus Team, composed of chairpersons from focus teams and departments, meets on the first Wednesday of each month to discuss school progress and program development; each focus team and department then meets monthly to develop support for school initiatives. The Administrative Team, consisting of the principal, assistant principals, and instructional coach, meet weekly to support programs and to communicate concerns. Both PTA and SIC groups are actively involved in supporting school programs at BMS.

Bryson Middle School Personnel Data

At Bryson Middle School, there are 53 teachers supported by a principal, 3 assistant principals, 4 guidance counselors, one ESOL support teacher, one media specialist, and an instructional coach. A full-time school nurse and school resource officer handle student needs as well as a counselor from Piedmont Mental Health, four classroom aides, one ISS aide, one secretary, and five clerks. The cafeteria staff of nine and a custodial staff of nine complete the staff. Bus drivers and utility workers also provide services for students. Other support personnel available to assist in meeting the needs of BMS students include the district psychologist, a school resource officer, an itinerant speech therapist, an ESOL district consultant, and a network computer engineer.

The faculty and staff at Bryson Middle School believe that their purpose is not education for its own sake, but rather education to prepare students for future successes in their careers and relationships. Priorities are to increase student achievement as measured by state tests and district benchmark tests, to continue to provide professional development to insure highly qualified personnel in every position, and to improve school climate as measured by survey results from parents and number of discipline referrals.

Academic/Behavioral Features/Programs/Initiatives

STEAM/PBL: The STEAM/Project-Based Learning initiative provides students with challenging, innovative learning while increasing student engagement and academic rigor.

Co-Teaching: Special education students are served primarily through an inclusion model. Special education teachers serve as co-teachers in the academic classroom. There is one educational support per grade level for students who need assistance to be successful in the regular classroom. One self-contained class continues to serve students with emotional disabilities. There is also a multi-categorical self-contained class.

Academic Assistance: Students who have been identified as having a learning disability in the area of reading or a deficit in reading utilize a computerized program for reinforcement in deficit areas. Students who do not receive special education services but who have been identified as having at least a two-year deficit in reading receive a reading course that utilizes a program to target their needs as well.

Positive PAWS: This program, based on the Success for BMS plan, rewards students for good behavior. Teachers give students PAWS tickets when they observe positive choices. Students deposit the tickets in a box in the media center. Each week five names from each grade level are drawn; these students receive an incentive.

Chillin' on the Green: Students making positive behavior choices (no discipline infractions) are rewarded quarterly with a celebration.

Alternatives to Out-of-School Suspension: Students may be assigned to Saturday School for behavior issues. Students come to school for two hours on Saturday and work to improve their academic performance. Students may also be assigned In-School Suspension as another alternative to out-of-school suspension and the loss of instructional time.

Mentoring: In partnership with Mentor Upstate, Bryson Middle School provides mentoring to students who may benefit from additional support and encouragement. Mentors, who may be staff or community members, meet with their student mentees for thirty minutes each week during lunch or flex periods. Mentors receive training from Mentor Upstate.

Character Education: Classroom guidance lessons are based on the *7 Habits of Highly Effective Teens*. Based on the principle, "we are what we do", counselors seek to introduce each habit over the three-year middle school period and to teach practical ways to apply each. Habits, such as being proactive, taking responsibility, and seeking to understand others, all lend themselves well to assisting students in making good choices and maintaining good character. Counselors are using Enrichment groups to reinforce these concepts.

Bulldog Pack/Bryson Buddies: Students, recommended by teachers, are utilized to welcome new student arrivals to our school. These individuals assist with transition into a new learning environment.

Inspiring Excellence Night: This student-led event celebrates the academic and creative excellence of our students. The event includes a visual art project gallery, a showcase of student PBL project presentations, and STEAM activities and demonstrations for the community to enjoy.

Literacy Night: Students and staff prepare a community event celebrating literacy centered on a popular novel or series.

SECTION FOUR: MISSION, VISION, AND BELIEFS

Mission: To educate and inspire excellence in every student.

Vision: Bryson Middle School will be a learning community that inspires and supports academic excellence and social responsibility.

Beliefs:

1. All students can learn and have the responsibility to be active learners.
2. Students are valued individuals with unique intellectual, social, emotional, and physical needs.
3. Students learn best in a safe and secure setting nurtured by competent teachers, administrators, and community members.
4. Curricula and instruction should vary to meet the needs of each student.
5. Education is the shared responsibility of home, school, and community to promote competent, lifelong learners.

SECTION FIVE: DATA ANALYSIS AND NEEDS ASSESSMENT

Student Achievement Needs Assessment

Achievement

For the needs assessment, the graphs below show SC READY and SC PASS by grade from the previous three years. Further, we looked at attendance data for students and staff. Finally, qualitative data was collected from staff, students, and parents.

Analysis/Response

Test Data: SC READY ELA data from 2019 shows an increase in student performance for Meets Expectations and a significant decrease in students scoring Does Not Meet for all grade levels. SC Ready data for math and SC PASS Social Studies changed minimally in 6th and 8th grade, but gains were made in Exceeds for 7th grade math. In SC PASS Science, the passing rate increased slightly in 2019 but with fewer students scoring Exceeds. Grade 8 Science had an increase of percentage of students scoring Exceeds but a slight decrease in those who scored in the Meets Expectations range.

Disaggregated Test Data: SC Ready and SC PASS data from 2019 shows a significant increase in the percentage of African American students who passed the SC Ready in ELA, but this subgroup continues to be an area of focus, particularly those in the 7th grade group who are current 8th graders. The percentage of female students scoring Meets or Exceeds in SC Ready continues to be higher than that of males in both ELA and math. There was an increase in passing rates for 2019 SC Ready of students with disabilities in both ELA and math, but there is still a large discrepancy between the passing rates of students with disabilities compared to those without disabilities. The population of students with Limited English Proficiency (LEP) increased for 6th and 8th grade ELA in 2018 but scored lower than their non-LEP peers. The passing rate of students with LEP were lower than their Non-LEP peers in math except for in grade 8 where the passing rate was higher than for Non-LEP students.

Response: Achievement data reflects a need for targeted interventions for students who are underperforming. The continued implementation of a STEAM/PBL approach to learning that was launched in 2017-2018 will strengthen student engagement and depth of content understanding. A full inclusion model with co-teaching components will be refined to address grade-level standards-based instruction with special education students using appropriate differentiation strategies and accommodations. Systematic intervention including academic assistance and literacy instruction will structure clear expectations and opportunities for the success for all students. A continuation of common planning, common assessments, and collaborative analysis will strengthen classroom instruction. There is a need for professional development and study that targets the needs of these student subgroups.

Response

The professional development plan for 2020-2021 is being developed. Initiatives begun will continue; focus for professional development opportunities will include the following topics:

- Responding to social-emotional needs, trauma-informed practices
- Technology Integration – SAMR and TPACK
- Engagement strategies for Project-Based Learning and STEAM challenges
- Inclusive school practices
- Literacy strategies across content areas
- Data-driven differentiation in response to formative assessment
- Meeting the needs of student subgroups: inclusive practices, cultural awareness
- Designing instruction: Scaffolding, Gradual Release of Responsibility, and Think-Alouds
- Monitoring learning, formative assessments
- Student ownership of progress

School Climate and Needs Assessment

Attendance

Year	Students	Teachers
2014-2015	95.6%	95.0%
2015-2016	95.5%	92.4%
2016-2017	94.7%	91.2%
2017-2018	97.0%	92.5%
2018-2019	94.1%	93.1%

Attendance of both students and teachers is necessary for all students to achieve consistently. In 2018-2019, teacher attendance increased, but student attendance decreased. Both groups must be present for optimal academic achievement.

Response/Next Steps

Report Card parent and teacher survey results about satisfaction with the learning environment has increased from the previous year; student survey results decreased slightly. There is a decrease in student and parent overall satisfaction with the social and physical environment since the previous year. Teachers' satisfaction with the social and physical environment increased slightly. The rate of parents and teachers satisfied with the home-school relations has increased since the previous year, but the student satisfaction has decreased significantly in the satisfaction of home-school relations.

Behavior/Intervention/Mentoring

Additional internal surveys identified a need for further targeted intervention. Last year we implemented OnTrack Intervention meetings along with a mentoring program and a male mentoring group. In addition, we participated in professional learning sessions about the social/emotional needs of our students.

1. Continue use of BMS for Success, Positive PAWS, and Chillin' on the Green events to establish clear expectations and to provide positive incentives for successful students.
2. Continue to refine the OnTrack intervention initiative that began in 2018-2019 to target interventions for individual students.
3. Continue to research ways to meet the needs of targeted subgroups as well as the general student population.

Support/Communication:

1. Expand transition support for 5th to 6th and 8th to 9th grade students—academically, emotionally, and socially.
2. Expand current program of celebration for achievement, particularly academic success.
3. Refine Inspiring Excellence Night, an event launched in 2018 that provides an opportunity for students to demonstrate their PBL projects, art, and achievements and for the community to engage in STEAM activities.
4. Refine targeted academic interventions to increase student-adult interactions, to engage students, and to build opportunities for academic growth.

PERFORMANCE GOAL 1: The percentage of students scoring Meets Expectations and Exceeds Expectations on SC READY ELA will increase from 33.5% in 2016-17 to 45.5% in 2022-23.

Per SBE Regulation 43-261, measurable performance goals, written in five-year increments, shall be developed to address the major areas of discrepancy found in the needs assessment in key areas reported in the district and school report cards.

SMART goal must include WHO will do WHAT, as measured by HOW and WHEN.

INTERIM PERFORMANCE GOAL: The percentage of students scoring Meets Expectations and Exceeds Expectations on SC READY ELA will increase by 2.03% annually.
