October 26, 2012

To the Citizens of The School District of Greenville County

We are pleased to submit to you the comprehensive annual financial report ("CAFR") of The School District of Greenville County ("School District") for the fiscal year ended June 30, 2012. State law requires that all school districts publish within five months of the close of each fiscal year a complete set of basic financial statements presented in conformity with accounting principles generally accepted in the United States of America ("GAAP") and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the School District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of The School District of Greenville County has established a comprehensive internal control framework that is designed both to protect the School District's assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of The School District of Greenville County's basic financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the School District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the basic financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The School District of Greenville County's basic financial statements have been audited by Greene, Finney & Horton, LLP. The goal of the independent audit was to provide reasonable assurance that the basic financial statements of The School District of Greenville County for the fiscal year ended June 30, 2012 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall basic financial statement presentation. The independent auditor concluded that there was a reasonable basis for rendering an unqualified opinion that The School District of Greenville County's basic financial statements for the fiscal year ended June 30, 2012 are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the basic financial statements of The School District of Greenville County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the basic financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the compliance section of this comprehensive annual financial report.

The accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of management's discussion and analysis ("MD&A"). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The School District of Greenville County's MD&A can be found immediately following the report of the independent auditors.

Profile of The School District of Greenville County

Long recognized as a leader in public education, The School District of Greenville County is the largest school district in South Carolina and the 47th largest district in the nation, with approximately 72,073 students. It is a consolidated, unified system formed in 1951 when 82 local school districts merged. Comprised of virtually all of Greenville County and a small portion of Laurens and Spartanburg counties, the School District of Greenville County spans 789 square miles and consists of more than 100 schools and facilities. We offer a large variety of excellent educational programs. The School District of Greenville County recently received international recognition as a high quality school district when we were awarded National Accreditation from AdvancED, providing a distinguished mark of quality for the school district, and its schools, students, teachers, and the community.

A 12-member Board of Trustees governs The School District of Greenville County. Programs and policies are established by this publicly elected Board that serves 4-year terms and meets the fourth Tuesday of each month except July. The day-to-day administration of the School District is the responsibility of the Superintendent, who is appointed by the School Board.

Each day, the School District challenges and inspires young people in grades K-12 to meet the demands of the future. In addition to the 83 elementary, middle, and high schools, and four career centers, the School District has several special centers. These include a fine arts center, International Baccalaureate programs at twelve schools (elementary, middle, and high), Child Development Centers, Roper Mountain Science Center, and Washington Center for the Handicapped. The School District also offers magnet academies (elementary, middle and high) that offer unique educational opportunities in foreign language, communication arts, preengineering international studies, science and technology, fine arts and year-round education.

In addition, Brashier Middle College Charter High School, Greenville Technical Charter High School, Greer Middle College Charter School, Langston Charter Middle School, LEAD Academy Charter School, Legacy Charter School and Meyer Center for Special Children are charter schools under legislation enacted on June 18, 1996. A charter school is considered a public school and these schools are a part of The School District of Greenville County for purposes of state law and state constitution. Because the charter schools are fiscally dependent on the School District, their exclusion would cause the School District's basic financial statements to be incomplete. Therefore, the financial statements of the charter schools are included in those of the School District as discretely presented component units. In addition, Building Equity Sooner for Tomorrow, Inc. ("BEST"), a not-for-profit 501 (c)(3) corporation, is also a component unit of the School District; this entity is treated as a "blended component unit" for financial statement purposes. Detailed information about BEST is described in the School District's MD&A.

Budgetary Control

The School District's annual budget process is developed using, as a foundation, the School District's Mission Statement and The Education Plan as developed by the citizens and personnel of The School District of Greenville County.

School District Mission Statement

We provide educational experiences, in cooperation with the home and community that prepare students for lifelong learning and for ethical, productive participation in a democratic society and the global community.

Education Plan Priorities for Performance

✓ Goal One: Raise the Academic Challenge and Performance of Each Student

✓ Goal Two: Ensure Quality Personnel in All Positions

✓ Goal Three: Provide a School Environment Supportive of Learning

✓ Goal Four: Effectively Manage and Further Develop Necessary Financial Resources

✓ Goal Five: Improve Public Understanding and Support of Public Schools

In the fall of each year, the School District begins its budget process for the fiscal year beginning the following July 1. After the School District's budget committee reviews all requests and allocation requirements and related revenue, it presents a tentative proposed budget to the Superintendent for review and adjustment. The Superintendent presents the resulting proposed budget to the Board of Trustees, which reviews it in a series of workshops and makes any additions or deletions it deems necessary. The final budget is adopted by the Board of Trustees for all funds except certain fiduciary funds, prior to July 1 of each year.

The School District of Greenville County maintains budgetary control. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Trustees. Activities of the General Fund, Capital Projects funds, and Debt Service fund are included in the annual appropriated budget. The legal level of control is at the fund level. To ensure compliance, budgetary controls are established by function and activity within each individual fund. Budgeted dollars cannot be transferred between funds without Board approval. The budgets of the School District may be amended during the year by preparing an update and submitting to the Board of Trustees for approval. The School District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts lapse at year-end.

Factors Affecting Financial Condition

The information presented in the basic financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which The School District of Greenville County operates.

Local Economy

Greenville County has developed into one of the Southeast region's premiere areas for business. It serves as the service, manufacturing, and research and development ("R&D") center for upstate South Carolina. Greenville County cultivates a pro-business environment with a low cost of doing business, low cost of living, skilled worker availability, exceptional quality of life and top notch educational institutions. Over 60 Fortune 500 Companies have a presence in Greenville County. The County has long been recognized as a prime location for international investment and was rated #1 in the nation for both new and expanding international firms by Site Selection Magazine. As a result of a strong business climate and a high quality of life, over 80 international firms are located in Greenville County. Over the last eleven years, 30 international companies have either opened new or expanded current offices in the county representing over \$1 billion in investments and 1,500 new jobs. Greenville County is the location of many major companies, foreign and domestic. Some of the major companies located in Greenville County include Abitibi Bowater, Bausch & Lomb, CSX, Fluor Corporation, General Electric, Hubbell Lighting, Michelin North America, Proterra, Rockwell Automation, TD Bank and W.W. Grainger.

During the past 15 years, strong county economic planning efforts have enabled the manufacturing sector to diversify away from historically concentrated textile employment toward high technology. During the same period, the service and trade sectors have continued to expand. The economic downturn is nothing to underestimate, but Greenville's economic success story continues to be strong with announcements of capital investment. Over the past five years, 2007 – 2011, announced capital investment totaled \$1.09 billion and includes the addition of 8,321 planned new jobs.

Capital investment in Greenville County includes the International Center for Automotive Research ("ICAR") which serves the state's existing automotive industries and helps attract new ones by bringing together a graduate program specializing in systems integration with commercially viable automotive and motor sports R&D, testing laboratories and other support facilities.

Greenville County's location, access to the interstate system, diverse employment base, and educational institutions, favor a continuation of this growth trend toward more economic development and new jobs.

Long-Term Financial Planning

As evidenced by the basic financial statements contained in this report, Capital Projects are one of the main focus areas of the School District's financial planning. Prior to the adoption of the Long Range Facilities Plan, the School District sold general obligation bonds annually with eight-plus year repayment schedules. The School District restructured its debt and shortened the repayment schedule of bonds; thereby reducing interest cost and freeing up additional capacity within the constitutional 8% debt limit.

In March 2001, the School District entered into a contract with Institutional Resources to address pressing facility needs. The contract included a financing component that established a non-profit foundation, referred to as BEST. As of June 2006, the non-profit had issued four series of

bonds for a total of \$1.03 billion in Installment Purchase Revenue Bonds to fund the BEST construction program. These bonds will be matured for the most part with annual general obligation debt issued by the School District, within its 8% debt limitation, and future earnings on investments. These bonds are scheduled to be paid off in the year 2028.

The School District has also planned various capital improvements over the next five years. These capital improvements will be paid for with the proceeds of general obligation bonds issued by the School District. Greenville County Schools has maintained the highest credit ratings for South Carolina school districts based on statements recently released by Standard and Poor's and Moody's rating agencies. A higher credit rating for the school district results in lower interest costs when borrowing money.

The General Fund is the main operating fund for the School District. Planning for the economic downturn began in fiscal year 2008. During fiscal year 2009, The School District received notification that State Fiscal Stabilization Funds ("SFSF") would be available for the fiscal years 2010 and 2011. The School District planned to use the SFSF to fund utility and liability insurance costs, which is normally funded through the General Fund, for both fiscal years. At the same time, the School District instituted procedures to generate additional savings within the General Fund budget to fully fund the utility and liability insurance costs starting in the fiscal year 2012. The procedures put in place at the start of the fiscal year 2010 helped increase the fund balance for the General Fund from \$48,340,093 as of June 30, 2009 to \$79,340,006 as of June 30, 2011. The procedures to generate savings are still in effect in order to provide funds for planned usage in the FY 13 General Fund budget and future years until revenues increase.

Cash Management Policies and Practices

The School District pursues an aggressive cash management program by expediting the receipt of revenues and prudently depositing and investing available cash balances. Cash temporarily idle during the year was invested in the South Carolina Local Government Investment Pool. The amount of interest earned for the General Fund was \$371,738.

At the end of each business day, collected balances in the School District's operating bank accounts are deposited into a SWEEP account. These funds are invested in securities according to state law.

In 1984, the Board of Trustees adopted a policy requiring that any General Fund monies remaining unspent at the end of a fiscal year be placed in a special reserve fund until the amount in the fund equals 5% of budgeted revenues. In June 2007, this policy was revised by the Board of Trustees to require that the amount of the unreserved fund balance equal at least 8.33% of total General Fund expenditures. Funds in this special reserve fund may only be made available by majority vote of the full board, and if so used, must be replaced through budgeting revenues to exceed expenditures by at least 1% until the fund is restored to the 8.33% level.

Risk Management

The School District has a program of risk management supervised by the Director of Payroll & Insurance Services and supported by a Workers' Compensation Coordinator. The School District also utilizes the services of a consulting firm for review, audit and analysis of losses,

safety programs, policy design and coverage premiums as well as advising the School District on general risk issues.

A comprehensive package of employee benefits insurance is administered by the School District on behalf of its' employees. Insurance coverage is provided through the State of South Carolina's program as well as specific carriers selected by the School District. Commercial insurance is carried to cover potential liabilities. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any previous policy years. The School District's Workers' Compensation program is currently "self-insured" with funds budgeted through the General Fund. Funds are available to pay claims, claim reserves and the administrative costs of the program.

Pension/Retirement Plan

Substantially all School District employees are members of a pension plan. The South Carolina Retirement System administers five public pension plans; four are defined contribution plans (optional retirement plans) and one is a defined benefit plan. The Retirement System is a division of the South Carolina State Budget and Control Board. Currently, the majority of district employees are participants in the defined benefit plan.

The Systems' defined benefit plan offers retirement benefits, disability benefits, cost of living adjustments, life insurance and survivor benefits. The plan's provisions are established under Title 9 of the SC Code of Laws. Comprehensive Annual Financial Reports containing financial statements and required supplementary information for the System is issued and publicly available by writing the SC Retirement Systems, P.O. Box 11960, Columbia, SC 29211-1960.

The Optional Retirement Plans are administered by independent companies selected by the South Carolina Retirement Systems.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada ("GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to The School District of Greenville County for its CAFR for the fiscal year ended June 30, 2011. This was the twenty fifth consecutive year that the School District has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the School District was also awarded The Association of School Business Officials International Certificate of Excellence in Financial Reporting for its comprehensive annual financial report for the fiscal year ended June 30, 2011. This award is the highest form of

recognition in school financial reporting issued by the Association of School Business Officials International. The School District is pleased to receive this award and we believe our current report continues to conform to the Program requirements as a Certificate of Excellence is valid for one year only.

When a project of this magnitude is undertaken, many people are deserving of thanks. Even so, sincere appreciation is expressed to the entire staff in the Finance Department who's dedicated and efficient services have made the timely preparation of this report possible. Thanks also to The School District of Greenville County's Board of Trustees for your support of excellence in financial reporting and fiscal integrity.

Respectfully submitted,

leffy S. Koth

Jeffrey S. Knotts

INDEPENDENT AUDITORS' REPORT

The Board of Trustees
The School District of Greenville County
Greenville, South Carolina

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of The School District of Greenville County, South Carolina (the "School District"), as of and for the year ended June 30, 2012, which collectively comprise the School District's basic financial statements as listed in the table of contents. These basic financial statements are the responsibility of the School District's management. Our responsibility is to express opinions on these basic financial statements based on our audit. We did not audit the basic financial statements of the discretely presented component units, which statements reflect total assets and net assets of \$8,937,081 and \$5,237,199, respectively, as of June 30, 2012 and total revenues of \$20,755,530 for the year ended June 30, 2012. Those basic financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the discretely presented component units, is based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the basic financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of The School District of Greenville County, South Carolina, as of June 30, 2012, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 26, 2012 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and the budgetary comparison schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The supplementary information, as listed in the table of contents, and the schedule of expenditures of federal awards, as required by the U. S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations (Circular A-133) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit and the reports of the other auditors, the supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The introductory section and the statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2012

This discussion and analysis of The School District of Greenville County's ("School District") financial performance provides an overview of the School District's financial activities for the fiscal year ended June 30, 2012. The intent of this discussion and analysis is to look at the financial performance of the School District as a whole, with an emphasis on the Primary Government (which excludes the School District's discretely presented charter schools); readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2012 are as follows:

- In the Statement of Net Assets, the assets of the School District exceeded its liabilities at the close of the most recent fiscal year by approximately \$575.0 million. Of this amount, approximately \$555.6 million and \$19.4 million were related to the School District's governmental and business-type activities, respectively. In addition, the School District's unrestricted net assets were approximately \$91.6 million (\$77.1 million for governmental activities and \$14.5 million for business-type activities) which may be used to meet the School District's ongoing obligations to citizens and creditors.
- The School District's total capital assets of approximately \$1.32 billion decreased during the current fiscal year by approximately \$17.75 million, as depreciation expense of approximately \$44.93 million and the net book value of disposals of approximately \$0.06 million exceeded capital asset additions of approximately \$27.24 million.
- The School District's total long term obligations of approximately \$1.06 billion are comprised primarily of the outstanding Building Equity Sooner for Tomorrow, Inc. ("BEST") Installment Purchase Revenue Bonds ("IPRB"). BEST is a nonprofit corporation for which the School District is financially accountable. The key factor in this amount was the School District's aggressive building fund program via the IPRB sold by BEST, to fund the BEST construction program. BEST, although a legally separate entity, is a blended component unit of the School District, and its activities and balances are included in the financial information of the School District.
- The School District's total net assets decreased by approximately \$12.2 million which consisted of a decrease of approximately \$13.4 million for governmental activities and an increase of approximately \$1.2 million in business-type activities. Total revenues were approximately \$649.5 million for 2012 and \$649.6 for 2011.
- As of the close of the current fiscal year, the School District's governmental funds reported combined ending fund balances of approximately \$293.9 million, a decrease of approximately \$17.2 million in comparison with the prior year. This is attributable to activity in several funds. The fund balance for the General Fund increased by approximately \$0.8 million, which reflects the Districts continued effort to reduce expenses and increase revenue where possible. The fund balance for the Debt Service District Fund decreased by approximately \$21.0 million due to the School District recording a fund liability for the short-term general obligation bonds that were issued in March 2012 and matures in March 2013. The Debt Service BEST Fund decreased by approximately \$15.1 million primarily due to using debt service reserve funds, as planned, to make scheduled payments on the BEST Bonds. The fund balance in the Capital Projects District Fund increased by approximately \$18.7 million due to bonds and investment proceeds received. These funds will be used during a multi-year period as the funding source for the Districts Long Range Facilities Plan and Capital Improvement Program. The fund balance of the Capital Projects BEST Fund decreased by approximately \$0.6 million, reflecting the continued activity in the BEST construction program.
- At the end of the current fiscal year, the total fund balance and the unassigned fund balance for the General Fund were approximately \$80.1 million and \$63.2 million, respectively. The unassigned fund balance of approximately \$63.2 million in the General Fund was approximately 14.7% of total General Fund expenditures for 2012.

OVERVIEW OF THE FINANCIAL STATEMENTS

The School District has prepared its comprehensive annual financial report using the reporting model that is a combination of both government-wide basic financial statements and fund basic financial statements.

Government-wide basic financial statements. The basic financial statements include two kinds of statements that present different views of the School District. The first two statements provide a broad overview of the School District's overall financial status, in a manner similar to a private-sector enterprise.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2012

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

The *statement of net assets* presents information on all of the School District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The *statement of activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, for some items, revenues and expenses are reported in this statement that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide basic financial statements distinguish functions of the School District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the School District include instruction, support services, and community services. The business-type activities of the School District include a food service operation.

The government-wide basic financial statements include not only the School District itself (known as the primary government), but also component units. The component units include several legally separate charter schools and BEST. Financial information for the charter schools is reported separately from the financial information presented for the primary government itself; this information is not significant or material to the School District as a whole. BEST is a "blended" component unit, and as such, is included in the governmental activities of the School District. Complete separately issued financial statements for the charter schools may be obtained from the administrative office of each school. See Note I.A. for details about how to obtain a copy of their financial statements. Separate financial statements for BEST are not issued.

Fund basic financial statements. The remaining basic financial statements focus on *individual parts* of the School District, reporting its operations in *more detail* than the government-wide basic financial statements.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. All of the funds of the School District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide basic financial statements. However, unlike the government-wide basic financial statements, governmental fund basic financial statements focus on near-term uses of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide basic financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide basic financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The School District maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Special Revenue Fund, Special Revenue – Education Improvement Act ("EIA") Fund, Debt Service Fund and Capital Projects Fund, all of which are considered to be major funds. The individual fund data for the permanent fund, a non-major fund, is provided in a separate column since it is the only non-major fund. The BEST Capital Projects Fund and the BEST Debt Service Fund are also major funds and therefore shown in separate columns.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2012

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Proprietary Fund. The School District maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide basic financial statements. The School District uses an enterprise fund to account for its food service operation. Proprietary funds provide the same type of information as the government-wide basic financial statements, only in more detail; therefore, the proprietary fund basic financial statements provide more detailed information for the food service operation, which is considered a major fund of the School District.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide basic financial statement because the resources of those funds are not available to support the School District's own programs. The School District is the trustee, or fiduciary, for the pupil activity of the schools and accounts for this activity in an agency fund.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund basic financial statements.

Other information. The combining statements and individual fund financial schedules are included in the supplementary section. The School District adopts annual budgets for its General Fund, Special Revenue Fund, EIA Fund, Capital Projects funds and Debt Service funds. Budgetary comparison schedules have been provided for these funds to demonstrate compliance with their budgets.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Major Features of the School District's Government-Wide and Fund Basic Financial Statements								
	Fund Basic Financial Statements							
	Government-Wide Basic Financial Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds				
Scope	Entire School District (except fiduciary funds) and the School District's discretely presented component units.	The activities of the School District that are not proprietary or fiduciary.	Activities the School District operates similar to private businesses, in the School District's case, the food service operations.	Instances in which the School District is the trustee or agent for someone else's resources, such as the Pupil Activity Fund.				
Required financial statements	Statement of net assets.Statement of activities.	 Balance sheet. Statement of revenues, expenditures, and changes in fund balances. 	 Statement of net assets. Statement of revenues, expenses, and changes in net assets. Statement of cash flows. 	 Statement of fiduciary net assets. 				
Accounting basis and measurement focus	Accrual accounting and economic resources focus.	Modified accrual accounting and current financial resources focus.	Accrual accounting and economic resources focus.	Accrual accounting and economic resources focus.				
Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term.	Only assets expected to be used and liabilities that come due during the year or soon, thereafter; no capital assets included.	All assets and liabilities, both financial and capital, and short-term and long- term.	All assets and liabilities, both short-term and long-term.				
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid.	Revenues for which cash is received during or soon after year end; expenditures when goods or services have been received and payment is due during or soon after year end		All revenues and expenses during year, regardless of when cash is received or paid.				

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2012

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the School District's Primary Government (which excludes discretely presented component units – charter schools), assets exceeded liabilities by approximately \$575.0 million at the close of the most recent fiscal year.

A summary of the School District's net assets for the Primary Government for June 30, 2012 and June 30, 2011 are presented below:

Net Assets

	Governmental Activities		Business-Type	Business-Type Activities		Total	
	2012	2011	2012	2011	2012	2011	
Assets							
Current and Other Assets	\$ 440,684,762	420,689,132	15,194,095	13,476,621	455,878,857	\$ 434,165,753	
Capital Assets	1,311,072,959	1,328,457,263	4,913,335	5,274,884	1,315,986,294	1,333,732,147	
Total assets	\$ 1,751,757,721	1,749,146,395	20,107,430	18,751,505	1,771,865,151	\$ 1,767,897,900	
•							
Liabilities							
Other liabilities	\$ 140,351,514	99,970,216	672,240	531,587	141,023,754	\$ 100,501,803	
Non-Current Liabilities	1,055,855,045	1,080,208,795	-		1,055,855,045	1,080,208,795	
Total Liabilities	1,196,206,559	1,180,179,011	672,240	531,587	1,196,878,799	1,180,710,598	
Net Assets							
Invested in Capital Assets,							
Net of Related Debt	474,927,052	487,718,027	4,913,335	5,274,884	479,840,387	492,992,911	
Restricted	3,570,138	3,288,234	-	-	3,570,138	3,288,234	
Unrestricted	77,053,972	77,961,123	14,521,855	12,945,034	91,575,827	90,906,157	
Total Net Assets	\$ 555,551,162	568,967,384	19,435,190	18,219,918	574,986,352	\$ 587,187,302	

Governmental Activities. Current and Other Assets increased by approximately \$20.0 million primarily due to unspent bond proceeds and the timing of cash receipts and payments. Capital Assets decreased by approximately \$17.4 million as depreciation expense exceeded the School District's building program (reflecting the winding down of the BEST construction program). Other Liabilities increased by approximately \$40.4 million primarily due to the timing of payments, increase in unearned revenues, and a fund liability for a short-term bond of approximately \$22.4 million which was issued in March 2012 and matures in March 2013. Non-Current Liabilities decreased by approximately \$24.4 million primarily due to approximately \$38.3 million in principal payments on outstanding indebtedness, partially offset by the issuance of long-term debt of approximately \$13.9 million. The Net Assets of the School District's governmental activities decreased to approximately \$555.6 million from approximately \$569.0 million in the prior year (a decrease of approximately \$13.4 million or 2%), as current year expenses exceeded revenues which also reflected the use of BEST Debt Service Reserve Funds to make BEST Bond payments (see Changes in Net Assets section for more details). Unrestricted Net Assets, the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements, decreased slightly by approximately \$0.9 million from approximately \$78.0 million at June 30, 2011 to approximately \$77.1 million at June 30, 2012.

Business-Type Activities. The Net Assets of business-type activities increased approximately \$1.2 million (7%) from approximately \$18.2 million at June 30, 2011 to approximately \$19.4 million at June 30, 2012, as revenues (primarily higher reimbursements from the USDA), exceeded expenses.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2012

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

The following table shows the changes in the School District's net assets for the Primary Government for 2012 compared to 2011:

Changes in Net Assets

	Governmental Activities		Business-Type	Business-Type Activities		Total	
	2012	2011	2012	2011	2012	2011	
Revenues							
Program Revenues:							
Charges for Services	\$ 2,433,456	2,221,782	12,470,466	12,129,629	14,903,922	\$ 14,351,411

Total Expenses	630,994,550	596,403,158	30,748,202	28,976,881	661,742,752	625,380,039	
Income (Loss) Before Transfers	(14,833,202)	21,227,063	2,632,252	2,994,530	(12,200,950)	24,221,593	
Transfers (Food Service)	1,416,980	742,705	(1,416,980)	(742,705)	-		
Increase in Net Assets	(13,416,222)	21,969,768	1,215,272	2,251,825	(12,200,950)	24,221,593	
Net Assets, Beginning of Year	568,967,384	546,997,616	18,219,918	15,968,093	587,187,302	562,965,709	
Net Assets, End of Year	\$ 555,551,162	568,967,384	19,435,190	18,219,918	574,986,352	\$ 587,187,302	

Changes in Net Assets. Overall, the School District's net assets decreased in fiscal 2012, as expenses (including depreciation of approximately \$44.9 million) exceeded revenues by approximately \$12.2 million. Total revenue decreased by approximately \$60,000. When comparing FY 12 to FY 11, Program Revenues, which includes Federal and State revenue, decreased by approximately \$5.9 million. This reflects a net decrease in Federal revenue of \$14.3 million which represents a \$23.7 million decrease in the Federal funded America Recovery and Reinvestment Act ("ARRA") program offset by a \$9.4 million increase in Title 1 and IDEA allocations. The net decrease in Federal funds was partially offset by increases in State allocations such as Education Finance Act and Fringe Benefits, plus an increase in Food Service per meal revenue and USDA per meal reimbursement. The net decrease in Program Revenues was offset by increases in Property Tax revenue and other State provided funding.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2012

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

Instruction expenses increased approximately \$13.8 million to approximately \$348.6 million and support services expenses increased approximately \$22.8 million to approximately \$226.9 million. The increase in Instruction expenses reflects the hiring of 108 additional teachers to reduce the Student – Teacher ratio 1.0, allocating \$5.1 million for instructional supplies to the schools (this was cut in FY 11), funding professional development activities for the schools and providing teachers a "step increase" and a partial cost of living increase. The increase in support services reflects an increase in the allocation to Charter Schools, a partial cost of living increase for non-teachers, increase in technology software expense and moving \$13.6 million of the utility expenditures back to the General Fund. These utility expenditures had been funded by the Federal "ARRA – State Fiscal Stabilization Fund" (part of the Special Revenue Fund) during FY 10 and FY 11.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

As noted earlier, the School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The analysis of governmental funds serve the purpose of looking at what resources came into the funds, how they were spent and what is available for future expenditures. Did the government generate enough revenue to pay for current obligations? What is available for spending at the end of the year?

For the year ended June 30, 2012, the School District's governmental funds reported a *combined* fund balance of approximately \$293.9 million, as compared to approximately \$311.1 million for the prior year. This decrease of approximately \$17.2 million is primarily attributable to a decrease in the Debt Service – District Fund of approximately \$21.0 million. The School District issued a short-term bond in March 2012 for approximately \$22.4 million and it is recorded as a fund liability as it matures in March 2013. Also, proceeds received from the issuance of bonds and investment earnings in the District's Capital Project funds and Debt Service funds were offset by construction-related expenditures.

At June 30, 2012, the School District's nonspendable fund balance was approximately \$0.9 million which was primarily related to endowment, prepaids, and inventories. Restricted fund balance for all governmental funds was approximately \$228.5 million, including capital projects of approximately \$101.7 million and debt service of approximately \$126.8 million. The assigned portion of fund balance was approximately \$16.2 million including approximately \$14.8 million that was appropriated in the 2013 Budget and approximately \$1.4 million for new schools. The portion of fund balance that is unassigned may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. The unassigned fund balance was approximately \$48.3 million at June 30, 2012. This includes approximately \$39.0 million which, per Board Policy, requires the School District to have a minimum unassigned fund balance equaling 8.33% of the current year (FY 13) General Fund expenditure budget.

The General Fund is the chief operating fund of the School District. At the end of the current fiscal year, unassigned fund balance of the General Fund was approximately \$63.2 million while the total fund balance for the General Fund was approximately \$80.1 million. The total fund balance increased approximately \$0.8 million, as revenues and other financing sources of approximately \$431.4 million exceeded expenditures and other financing uses of approximately \$430.6 million.

The School District's major governmental funds include the General Fund, as described above, Special Revenue Fund, Special Revenue – EIA Fund, Debt Service – District Fund, Debt Service – BEST Fund, Capital Projects – District Fund, and the Capital Projects – BEST Fund.

The School District's Special Revenue Fund and Special Revenue – EIA Fund are used to account for revenues derived from the state of South Carolina and the federal government. The School District's special revenue funds do not typically have fund balances as revenues should be expended, deferred, or returned to the grantor.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2012

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS (CONTINUED)

Governmental Funds (Continued)

Two debt service funds are shown in the accompanying financial statements of the School District, the Debt Service – District Fund and the Debt Service – BEST Fund. Both debt service funds are used to account for the accumulation of funds for debt retirement. The fund balance of the Debt Service – District Fund at the end of the current fiscal year was approximately (\$14.9) million. The fund balance for the Debt Service – District Fund decreased by approximately \$21.0 million due to the School District's recording a fund liability for a short-term bond that was issued in March 2012 with a maturity date in March 2013. The School District's debt millage rate did not change, remaining at 42.5 mills. The fund balance of the Debt Service – BEST Fund at the end of the current fiscal year was approximately \$126.8 million and accounts for accumulated resources for payment on the BEST Installment Purchase Revenue Bonds sold by the non-profit organization. The fund balance decreased by approximately \$15.1 million during 2012 primarily due to using debt service reserve funds, as planned, to make scheduled payments on the BEST Bonds.

Two capital projects funds are shown in the accompanying financial statements of the School District to segregate BEST expenditures from School District capital project expenditures. The fund balance for the Capital Projects – District Fund increased by approximately \$18.7 million during 2012 to approximately \$94.8 million at June 30, 2012, primarily due to transfers from debt service funds (representing proceeds from short-term and long-term borrowings) and additional investment earnings which were partially offset by construction-related expenditures. The Capital Projects – BEST Fund decreased by approximately \$0.6 million during 2012 to approximately \$6.9 million at June 30, 2012 due to construction-related expenditures. The ending balance is restricted for future capital expenditures on the school building program.

Proprietary Funds

The School District's only Proprietary Fund (Enterprise Fund) is the Food Service Fund. This program had an increase in net assets of approximately \$1.2 million during 2012, which included income before transfers of approximately \$2.6 million, partially offset by transfers of approximately \$1.4 million for indirect costs to the General Fund.

General Fund Budgetary Highlights

The School District's budget is prepared according to South Carolina law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund. The key highlights for 2012 are as follows:

The General Fund expenditure budget for the fiscal year ended June 30, 2012 was approved by the Board of Trustees on June 2, 2011 in the amount of approximately \$442,784,000, which represented an approximately \$33,450,000 increase when compared to the revised General Fund budget for the fiscal year ended June 30, 2011 of \$407,334,000.

The General Fund revenue budget for the fiscal year ended June 30, 2012 of \$426,113,000 included a 4.7 mill increase in the operational millage and an Education Finance Act Base Student Cost ("EFA BSC") allocation of \$1,880, as funded by the final State FY 12 General Fund Budget. The EFA BSC for the fiscal year ended June 30, 2012 was an increase of \$263 when compared to the EFA BSC for the fiscal year ended June 30, 2011 of \$1,617, and resulted in a projected EFA allocation of \$124,127,000 for the fiscal year ended June 30, 2012. This was an increase of approximately \$17,143,000 when compared to the actual EFA allocation of \$106,984,000 for the fiscal year ended June 30, 2011 and also reflected the impact of 515 additional students. The projected State allocation for employer fringe benefits of \$59,520,000 was an increase of approximately \$6,126,000 when compared to the actual allocation of approximately \$53,394,000 for fiscal year ended June 30, 2011. The projected increase in payments from the State as tier three payments under Act 388 equaled \$1,868,000. The revenue budget was used to fund State mandated and locally-required costs.

For fiscal year ended June 30, 2012, State mandated expenditures required an additional \$4,278,000 to cover teacher certificate upgrades, State health insurance premiums increase of 4.5% and payments to charter schools. The local required cost showed an increase of approximately \$35,060,000.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2012

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS (CONTINUED)

General Fund Budgetary Highlights (Continued)

The fiscal year ended June 30, 2012 General Fund Budget's local required cost budget was increased by the following budget adjustments: \$8,930,000 to fund a 1.0 decrease in the student-teacher ratio for grades K – 12 and hire more teachers for the projected additional students; \$5,100,000 to give back to schools the \$75 per student cut made when developing the fiscal year ended June 30, 2011 General Fund Budget; \$6,359,000 to provide teachers a years experience increase and support personnel a 1.64% partial cost of living increase and approximately \$427,000 for teacher professional development that was cut in the fiscal year ended June 30, 2010. The remaining local required increases of \$644,000 pertain to software maintenance agreements and additional days for high school personnel. The School District did not receive a Federal Fiscal Stabilization Fund allocation for fiscal year ended June 30, 2012 and therefore had to increase the General Fund Budget's local required costs budget by \$13,600,000 for the fiscal year ended June 30, 2012 to fully fund the utility and liability insurance budgets within the General Fund.

In order to balance the fiscal year ending June 30, 2012 General Fund Budget and fund the State and local required cost, the School District reduced General Fund expenditures by \$3,489,000 and included the use of approximately \$16,671,000 from the General Fund – Fund Balance. The reduction of \$3,489,000 involved the movement of \$2,189,000 in budgeted expenditures to State funded special revenue programs and a cut of \$1,300,000 in Special Education expenditures due to the reduction in the number of special education students. The procedures put in place at the start of fiscal year 2010, generated the above savings of approximately \$16,671,000 and these procedures are still in effect.

The Board of Trustees' policy requires fund balance for the General Fund to equal 8.33% of the current year General Fund Expenditure Budget. The fund balance for the School District's General Fund met the Board of Trustees' requirement and funded the \$16,671,000 noted above.

The final approved State budget for the fiscal year ended June 30, 2012 reflected a revised EFA BSC for the fiscal year ended June 30, 2012 of \$1,880 which is an increase of \$263 when compared to the EFA BSC for the fiscal year ended June 30, 2011 of \$1,617. However, the revised EFA BSC for the fiscal year ended June 30, 2012 of \$1,880 reduced the School District's projected EFA allocation for the fiscal year ended June 30, 2012 by \$5,018,000 to \$124,127,000. On June 29, 2011, the Board of Trustees approved a revised General Fund Budget for the fiscal year ended June 30, 2012. The revised budget of approximately \$442,784,000 is the same amount approved by the Board of Trustees on June 2, 2011; however, the revised budget included an operational millage increase of 4.7 mills, representing \$5,018,000 in additional property tax revenue to fund the \$5,018,000 decrease in the EFA allocation for the fiscal year ended June 30, 2012.

MANAGEMENT'S DISCUSSION AND ANALYSIS

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2012, the School District had approximately \$1.32 billion invested in capital assets, net of depreciation. The School District's capital assets include land, construction in progress, buildings, improvements, and equipment. The School District's capital assets (net of depreciation) as of June 30, 2012 and 2011 are as follows:

Capital Assets at June 30 (Net of Depreciation)

	Government Activities		Business-Type Activities		Total		
		2012	2011	2012	2011	2012	2011
Land Building, Improvements	\$	48,201,068	45,834,208	-	-	48,201,068	\$ 45,834,208
and Equipment Construction in Progress		1,252,564,837 10,307,054	1,272,814,500 9,808,555	4,913,335	5,274,884	1,257,478,172 10,307,054	1,278,089,384 9,808,555
Construction in Frogress		10,507,051				10,307,034	7,000,555
Totals	\$	1,311,072,959	1,328,457,263	4,913,335	5,274,884	1,315,986,294	\$ 1,333,732,147

Major capital asset events during the current fiscal year included additions of approximately \$27.2 million, offset by depreciation expense of approximately \$44.9 million and net book value of disposals of approximately \$0.06 million. Facility construction is a major component of capital asset additions; following are significant highlights from 2012 (note that a portion of the total costs may have been incurred in prior years):

- Monarch Elementary was completed and occupied for approximately \$13.0 million.
- Land was purchased for new schools for approximately \$2.4 million.
- Vehicles, technology equipment, and communication equipment for approximately \$2.6 million.

Total outstanding commitments at June 30, 2012 were approximately \$6.5 million, including BEST construction projects.

More detailed information about the School District's capital assets is presented in Note III-C in the notes to the basic financial statements.

Debt Administration

As of June 30, 2012, the School District (including its blended component unit BEST) had total outstanding long-term debt of approximately \$1.1 billion. Of this total, approximately \$44.1 million was general obligation debt backed by the full faith and credit of the School District. The School District's total long-term debt as of June 30, 2012 and 2011 is as follows:

Long-Term Debt at June 30 (Excludes Deferred Items)

	Government Activities		Business-Type Activities		Total	
	2012	2011	2012	2011	2012	2011

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2012

CAPITAL ASSET AND DEBT ADMINISTRATION (CONTINUED)

Debt Administration (Continued)

At fiscal year-end, the School District had approximately \$44.1 million and \$22.4 million of long and short term general obligation bonds outstanding. The State limits the amount of general obligation debt that school districts can issue to 8% of the assessed value of all taxable property within the School District's corporate limits. The School District is authorized by state statute to exceed the legal debt margin of 8%, if citizens of the School District approve such additional debt through a district-wide referendum.

During the year ended June 30, 2012, the School District entered into two Acquisition, Use and Security Agreements executed in July 2011 and June 2012, respectively, each of which were deemed as qualified zone academy bonds ("QZAB"). The 2011 QZAB provided funding for the computer re-fresh program and the 2012 QZAB provided funding for HVAC modifications.

BEST (**Building Equity Sooner for Tomorrow**). Pursuant to a Development, Program Management, and Construction Management Agreement dated as of March 15, 2001, by and between the School District, Institutional Resources, LLC, BEST, and the Program Manager, a plan was developed to finance capital projects of the School District through proceeds of BEST IPRB. On March 25, 2002, BEST, a 501(c)(3) non profit corporation, sold \$800 million of IPRB. An additional \$100.8 million was issued in September 2003; \$68.0 million was issued in September 2004 and \$61.6 million was issued in May 2006. The proceeds were used to acquire, construct and equip new school facilities, additions to, renovations of, repairs of, improvements to, and equipment for the School District's existing facilities. The purpose of the BEST capital projects was to relieve the overcrowding of the School District's schools, update many of the School District's existing school facilities, reduce the need for portable classrooms and accelerate the School District's 10-year capital improvement plans, formerly known as the Long Range Facilities Plan.

Key uses of the funding included the following:

- Approximately \$232 million was used to make major additions or renovate 26 existing schools. When completed, these renovations yielded approximately 312 new classrooms.
- Approximately \$734 million of the money was spent to construct 23 new elementary schools, 6 new middle schools, 9 new high schools, a new fine arts center, a new bus center, a new special education center, and 4 new child development centers. When completed, these renovations yielded approximately 1,736 new classrooms.
- Approximately \$7 million was expended to acquire and install instructional and administrative technology improvements.
- The last, major, BEST construction project was A. J. Whittenberg Elementary School which opened in August 2010.

The total outstanding bonded indebtedness for BEST is approximately \$998.8 million at June 30, 2012. The School District will annually sell general obligation bonds to make the installment payments on the BEST debt. Subsequent to June 30, 2012, the School District and BEST issued approximately \$54.8 million in GO bonds and \$49.8 million in Installment Purchase Revenue Refunding Bonds ("IPRRB"). The School District plans on using the proceeds from the GO bonds to make the 2013 BEST IPRB payments and to provide additional funding for capital projects and the proceeds of the IPRRB to refund the 2003 BEST bond issue.

Other long-term obligations include an accrual for vacation pay and sick leave of approximately \$5.7 million and estimated arbitrage payable to the United States Treasury of approximately \$0.5 million. More detailed information about the School District's debt and other long-term obligations is presented in Note III-I in the notes to the basic financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2012

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

Economic Factors

Greenville County has transformed over the past two decades into a center of diversified business activity. By providing a pro-business environment and all the amenities necessary for business growth, the county has grown into a large and diverse metropolitan area and one of the southeast region's premier areas for business. Greenville is known for its high level of technological sophistication and expertise with high-technology manufacturing and engineering industries having a major presence in the area. Since Greenville is situated in a strategic location, along the "I-85 Corridor", it is an extremely attractive environment for business headquarters. There are over 180 companies that base a divisional, regional, national, international or other type of headquarters in Greenville County.

Between 2007 and 2011, Greenville County's population increased by an estimated 7%. Total property tax collections have historically been strong. The 10 largest taxpayers are diverse, accounting for 4.7% of total taxable assessed value. Because of favorable tax rates, market accessibility and the quality and availability of the workforce, companies are drawn to Greenville. The County has been recognized in many publications for the quality of life experience. The downtown revitalization was featured in Southern Living magazine. Kiplinger's "Personal Finance" magazine ranked Greenville 20th in lowest cost of living. Recently, Forbes Magazine named Greenville as one of the top 15 cities for young people and *Where to Retire* selected Greenville as a top retirement location calling it an "urban oasis". In April 2012, CNN Money named Greenville as one of the 10 fastest growing cities in the US.

In 2007, South Carolina enacted Act 388, which was effective for the School District beginning July 1, 2007. Act 388 provides an exemption for one hundred percent of the fair market value of owner occupied residential property, to the extent not already covered by the other property tax relief exemptions, from all property taxes imposed for school operating purposes, but not including millage imposed for the repayment of general obligation debt, for property tax years beginning after January 1, 2007. Act 388 also creates a new Homestead Exemption fund (the "Homestead Exemption Fund") which will be funded from an additional 1 cent sales tax imposed by Act 388.

Act 388 created three tiers of distribution to school districts. Tier one distributions are equal to the amounts that were received by school districts for the fiscal year ended June 30, 2007, relating to an earlier property tax relief provision for owner occupied residential property. In the case of the School District, that amount is approximately \$23,410,000. Tier two distributions are equal to the amounts that were received by school districts for the school operating portion of the homestead exemption for the elderly, disabled and blind. In the case of the School District, that amount is approximately \$5,948,000. Tier one and tier two distributions are fixed amounts and do not change. Tier three distributions are State funded payments to school districts to replace revenues formerly derived from taxation by school districts of owner occupied residential property. For the fiscal year ended June 30, 2008, those distributions were expected to equal, dollar for dollar, the revenue that would have been collected by the school districts from property tax for school operating purposes imposed by the school districts on owner occupied residential property for that fiscal year as if no reimbursed exemptions applied. Beginning with the 2008-2009 fiscal year, the tier three distributions will be the sum of the amount of the fiscal year 2007-2008 tier three distribution plus the tier three reimbursement increases. Act 388 requires the tier three reimbursements to be increased annually by (i) an inflation factor equal to the percentage increase in the previous year of the Consumer Price Index, Southeast Region, as published by the United States Department of Labor, Bureau of Labor Statistics, plus (ii) the percentage increase in the previous year in the population of the State as determined by the Office of Research and Statistics of the State Budget and Control Board. The tier three increases are aggregated for the entire state and the amount going to any particular school district is equal to an amount that is the school district's proportionate share of the aggregate of such funds based on the school district's weighted pupil units as a percentage of the statewide weighted pupil units as determined annually pursuant to the EFA, with an adjustment for certain poverty factors to provide programs for the affected students. There are provisions in the tier three reimbursements that could, in any given year, result in a minimum increase of four percent to the extent funds are available in the Homestead Exemption Fund. There are also provisions that require the total tier three reimbursements to the school districts in a county to be not less than \$2,500,000. If the amount of tier three distributions other than those dependent upon balances in the Homestead Exemption Fund, exceed amounts in the Homestead Exemption Fund, the excess is required to be paid from the general fund of the State.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2012

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET (CONTINUED)

Economic Factors (Continued)

The School District's reimbursement for fiscal 2012 under Act 388 was approximately \$51,491,006. Act 388 requires that, to the extent revenues in the Homestead Exemption Fund are insufficient to pay all required reimbursements to a school district, the State will pay the difference from the State's general fund. However, there can be no assurances that such funds will be appropriated in the event that there is such an insufficiency or that the change in funding sources resulting from Act 388 will not have an adverse effect on the School District's operations. The School District recognizes that Act 388 places increase reliance on state funds to fund the General Fund. This increased reliance at the state level is being funded by the additional penny sales tax, which in the School District's opinion is not as stable as property tax revenue which the penny sales tax replaced.

FY 2013 Budgets

The General Fund expenditure budget for the fiscal year ending June 30, 2013 (the "Fiscal Year 2013 General Fund Budget") was approved by the Board of Trustees on June 5, 2012 in the amount of \$469,613,000. The Fiscal Year 2013 General Fund Budget represents an approximately \$26,829,000 increase when compared to the General Fund budget for the fiscal year ended June 30, 2012 (the "Fiscal Year 2012 General Fund Budget") of approximately \$442,784,000.

The Fiscal Year 2013 General Fund Budget of \$469,613,000 includes an increase in the operational millage of 6.1 mills and is based on an Education Finance Act Base Student Cost ("EFA BSC") allocation of \$2,012, as approved in the State budget for the fiscal year ended June 30, 2013. The EFA BSC of \$2,012 for the fiscal year ending June 30, 2013 is an increase of \$132 when compared to the EFA BSC of \$1,880 for the fiscal year ended June 30, 2012, and results in a projected EFA allocation of \$133,089,000 for the fiscal year ending June 30, 2013. This is an increase of \$8,962,000 when compared to the projected EFA allocation of \$124,127,000 for the fiscal year ended June 30, 2012 and also reflects the impact of a projected 800 additional students. The projected State allocation for employer fringe benefits of \$66,915,000 is an increase of approximately \$2,903,000 when compared to the allocation for the fiscal year ended June 30, 2012. The projected increase in payments from the State as tier three payments under Act 388 equal \$2,796,000. The revenue budget will be used to fund State mandated and locally-required costs.

For the fiscal year ending June 30, 2013, State mandated expenditures will cost an additional \$16,745,000. This reflects the cost of teacher certificate upgrades, a 2% increase in teacher pay, a salary "step" for teachers to reflect an additional year in experience, increase in the employer (School District) contribution to the South Carolina Retirement System from 9.385% to 10.45% (a 11.34% rate increase), State health insurance premiums increases ranging from 1.033% to 7.22% and payments to charter schools.

For the fiscal year ending June 30, 2013, the local required cost shows an increase of approximately \$10,198,000. This represents the hiring of additional school personnel due to projected growth in student population, increase in instructional supply budget due to more students, additional 2% pay raise and salary "step" for non-teachers, opening a new elementary school and an increase in the fuel budget for School District vehicles.

In order to balance the Fiscal Year 2013 General Fund Budget and fund the State and local required costs, the School District reduced General Fund expenditures by \$115,000 and included the planned use of \$13,607,000 from the General Fund – Fund Balance. The FY 12 General Fund Budget included, as a funding source to balance the budget, the planned use of approximately \$16,671,000 from the General Fund – Fund Balance. However, because of the continued use of cost saving procedures, none of the \$16,671,000 was used.

The Board of Trustees' policy requires that the General Fund – Fund Balance equal 8.33% of the current year General Fund Expenditure Budget. For the fiscal year ending June 30, 2013, 8.33% equals approximately \$39,119,000. Using a projected June 30, 2012 Fund Balance of approximately \$79,357,000, planned use of \$14,825,000 for the fiscal year ending June 30, 2013, and approximately \$39,119,000 "set aside" per Board of Trustees policy, the School District would have \$25.4 million of unassigned General Fund – Fund Balance.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET ASSETS

JUNE 30, 2012

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS		\$ 293,876,794
Amounts reported for the governmental activities in the Statement of Net Assets are different because:		
Property taxes receivable will be collected this year but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds.		2,928,874
Accrued arbitrage, which is included in long-term obligations, is not payable from current financial resources and therefore is not reported as a liability in the funds.		(491,000)
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of the assets was \$1,681,992,205 and the accumulated depreciation was \$370,919,246		1,311,072,959
Bond issuance costs are amortized over the lives of the bonds; however, in governmental accounting, bond issuance costs are expenditures the year they are incurred. The bond issuance costs of \$12,025,419 has been shown net of accumulated amortization expense of \$4,085,206.		7,940,213
Accrued interest on outstanding bonds in governmental accounting is not due and payable in the current period and therefore has not been reported as a liability in the funds.		(4,412,633)
Long-term obligations, including deferred items, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term obligations consisted of: Long-Term Debt Long-Term Debt Discount, net of accumulated amortization of \$91,662 Long-Term Debt Premium, net of accumulated amortization of \$17,851,526 Deferred Advance Refunding Charges, net of accumulated amortization of \$19,535,624 Compensated Absences	(1,057,033,542) 43,147 (33,110,815) 40,390,063 (5,652,898)	(1,055,364,045)

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES

YEAR ENDED JUNE 30, 2012

TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$ (17,237,176)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. This amount represents the change in deferred revenues for the year.	(2,752,423)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets	38,274,945
Bond, bond premium, and other long-term debt proceeds provide current financial resources to governmental funds, but issuing debt also increases long-term liabilities in the Statement of Net Assets.	(13,888,652)
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. This amount is the net change in accrued interest for the year.	27,173
Accrued arbitrage is not payable from current financial resources and thus is not reported as a liability in the funds. This amount is the net change in arbitrage payable for the year.	216,000
Bond issuance costs are expenditures the year they are incurred in governmental funds, but are amortized over the lives of the bonds in the Statement of Activities. This amount is the amortization for the current year, net of issuance costs incurred for long-term bonds issued in the current year.	(423,242)
Deferred items (i.e. premiums, discounts, etc.) are revenues and expenses in the year they are received by the governmental funds but are amortized over the lives of the debt in the Statement of Activities. This amount is the amortization for the current year.	(222,175)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.	(26,368)
In the Statement of Activities the gain on the sale of capital assets is reported, whereas in the governmental funds, proceeds from the disposal of capital assets increase financial resources. Thus, the change in net assets differs from the change in fund balance by the net book value of the assets disposed.	(61,900)
Governmental funds report asset additions as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital asset additions of \$26,657,678 did not exceed depreciation expense of \$43,980,082 in the current year.	 (17,322,404)
CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES	\$ (13,416,222)

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. The Reporting Entity

The School District of Greenville County (the "School District"), established in 1951, is the government, which has responsibility for and control over all activities related to public school education in substantially all of Greenville County, as well as small portions of Spartanburg and Laurens Counties. The School District presently operates 50 elementary schools, 19 middle schools, 14 high schools, and 15 special program centers. The School District receives funding from local, state and federal government sources and must comply with the related requirements of these funding source entities. The School District is governed by a twelve member Board of Trustees (the "Board").

As required by accounting principles generally accepted in the United States of America, these basic financial statements present the School District and its component units, entities for which the School District is considered to be financially accountable or for which exclusion of a component unit would render the basic financial statements incomplete or misleading. Blended component units, although legally separate entities, are in substance part of the government's operations; data from these units are combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the basic financial statements to emphasize that they are legally separate from the School District.

Blended Component Units

Building Equity Sooner for Tomorrow, Inc. ("BEST") is a not-for-profit 501(c) (3) organization incorporated for the specific charitable purpose of serving as a "support organization" for capital projects of the School District. BEST board members are appointed by the Board of the School District. Because BEST exclusively benefits the School District, the BEST financial information is blended with that of the School District in these basic financial statements. Separate BEST financial information is included in individual columns throughout the financial statements. Separate financial statements for BEST are not issued.

Discretely Presented Component Units

Greenville Technical Charter High School ("GTCHS"), Meyer Center for Special Children ("MCSC"), Langston Charter Middle School ("Langston"), Legacy Charter School ("Legacy"), which was formerly known as Fuller Normal Advanced Technology Charter School, Brashier Middle College Charter High School ("Brashier"), Greer Middle College Charter School ("GMCCS"), and LEAD Academy ("LEAD") are charter schools under legislation enacted by the South Carolina state legislature on June 18, 1996. A charter school is considered a public school and these schools are a part of The School District of Greenville County for the purposes of state law and state constitution.

Because the charter schools are fiscally dependent on the School District and because the nature and significance of the relationship between the School District and the charter schools is such that exclusion of the charter schools would cause the School District's basic financial statements to be incomplete, the financial statements of the charter schools are included in those of the School District. Complete separately issued financial statements may be obtained from the administrative offices of each school as follows:

Greenville Technical Charter High School, 506 South Pleasantburg Drive, Greenville, SC 29607 Meyer Center for Special Children, 1132 Rutherford Road, Greenville, SC 29609 Langston Charter Middle School, 288 Rocky Creek Road, Greenville, SC 29615 Legacy Charter School, 901 Anderson Road, Greenville, SC 29601 Brashier Middle College Charter High School, 1830 West Georgia Road, Simpsonville, SC 29680 Greer Middle College Charter School, 138 West McElhaney Road, Taylors, SC 29687 LEAD Academy, 80 Byrdland Drive, Greenville, SC 29607

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Measurement Focus, Basis of Accounting and Basis of Presentation

South Carolina State Department of Education ("SDE") regulations require that charter schools be discretely presented in the basic financial statements, but blended with the School District balances in the supplementary schedules. If this presentation format were followed, the amounts reported as revenues, expenditures and changes in fund balances for the General Fund and Special Revenue Funds in the supplementary schedules would not agree to the amounts reported as revenues, expenditures and changes in fund balances for the General Fund and Special Revenue Funds in the basic financial statements. The School District has not prepared the supplemental schedules in accordance with the SDE requirements as the School District does not believe that this presentation is consistent with accounting principles generally accepted in the United States of America ("GAAP").

Combining schedules for the component units have been provided as Schedule G series in the supplementary information to assist in providing this information to the SDE. The information in these schedules was provided to the School District by the charter schools. The School District paid a total of \$15,256,212 to the charter schools during fiscal 2012; these expenditures are included in the Intergovernmental function in the Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds.

The government-wide basic financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the School District (the primary government) and its component units. Interfund services provided and used are not eliminated in the process of consolidation.

Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government (the School District) is reported separately from certain legally separate component units for which the School District is financially accountable.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

The **government-wide basic financial statements** (which exclude fiduciary activities) are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the Proprietary Fund and Fiduciary Fund financial statements. Revenues are recognized and recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide basic financial statements are prepared using a different measurement focus from the manner in which governmental fund basic financial statements are prepared (see further details below). Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the governmental funds statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

Governmental fund basic financial statements are reported using the *current financial resources measurement* focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, arbitrage, and claims and judgments, are recorded only when payment is due.

Property taxes, federal and state grant programs and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Fund financial statements report detailed information about the School District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Fiduciary funds are reported by fund type.

When both restricted and unrestricted resources are available for use, it is the School District's practice to use restricted resources first, then unrestricted resources as they are needed.

The accounts of the government are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. There are a minimum number of funds maintained to keep the accounts consistent with legal and managerial requirements. The following major funds and fund types are used by the School District.

Governmental fund types are those through which most governmental functions of the School District are financed. The School District's expendable financial resources and related assets and liabilities (except for those accounted for in the Proprietary Fund) are accounted for through governmental funds. Governmental funds are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting. The following are the School District's major and nonmajor governmental fund types:

The *General Fund, a major fund* and budgeted fund, is the general operating fund of the School District and accounts for all revenues and expenditures of the School District except those required to be accounted for in other funds. All general tax revenues and other receipts that (a) are not allocated by law or contractual agreement to other funds or (b) that have not been restricted, committed, or assigned to other funds are accounted for in the General Fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund.

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources (that are expected to continue to comprise a substantial portion of the inflows of the fund) that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The School District has the following major Special Revenue Funds:

• The Special Revenue Fund, a major fund and a budgeted fund, is used to account for and report financial resources provided by federal, state and local projects and grants that are restricted, committed or assigned for special programs.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

• The Special Revenue - Education Improvement Act ("EIA") Fund, a major fund and a budgeted fund, is used to account for and report the restricted revenues from the South Carolina Education Improvement Act of 1984 (which is legally required by the state to be accounted for as a specific revenue source) which are restricted for specific programs authorized or mandated by the EIA.

The *Debt Service Fund - District*, *a major fund* and a budgeted fund, is used to account for and report the accumulation of financial resources that are restricted, committed, or assigned for the payment of all long-term debt principal, interest and related costs for the School District.

The *Debt Service Fund - BEST*, a major fund and a budgeted fund, is used to account for and report the accumulation of financial resources that are restricted, committed, or assigned for the payment of all long-term debt principal, interest and related costs for BEST.

The *Capital Projects Fund - District, a major fund* and a budgeted fund, is used to account for and report financial resources that are restricted, committed, or assigned for expenditures of capital outlay related to site acquisitions, construction, equipment, and renovation of all major capital facilities of the School District except for those financed in the Enterprise Fund and the BEST Capital Projects Fund.

The *Capital Projects Fund - BEST*, a major fund and a budgeted fund, is used to account for and report financial resources that are restricted, committed, or assigned for expenditures of capital outlay related to site acquisitions, construction, equipment, and renovation of all major capital facilities of BEST.

The **Permanent Fund**, a **nonmajor fund**, and an unbudgeted fund, is used to account for and report resources that are endowed to the School District in trust, for which only the interest earnings may be used by the School District for various restricted purposes as specified by the private donors. Since it is the only non-major governmental fund, it is shown in a separate column in the fund basic financial statements. The specific sub funds are as follows:

- The Neblett Library Fund was established in 1968. The expendable portion is used for library materials at Greenville High School.
- The three B. Calhoun Hipp Funds were established in 1977 and 1980. The expendable portions are to be used for elementary special education, middle and high school special education and for the education of severely handicapped school children, respectively.
- The Pat Pratt Fund was established in 1986. The expendable portion is used to purchase books for the Wade Hampton High School library.
- The Endel Fund was established in prior years. The expendable portion is used to provide awards to speech students at Greenville High School.

Proprietary Fund types are accounted for based on the flow of economic resources measurement focus and use of the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. The School District applies all applicable Governmental Accounting Standards Board ("GASB") pronouncements, as well as the requirements of Financial Accounting Standards Board ("FASB") Statements and Interpretations, Accounting Principles Board ("APB") Opinions, and Accounting Research Bulletins ("ARBs"), issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements. The School District has elected not to follow the aforementioned guidance issued after November 30, 1989 as allowed by GAAP.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to students and teachers for breakfast, lunch and special sales. Operating expenses for the enterprise fund include the cost of sales, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non operating revenues and expenses. Proprietary Fund types include the following fund:

The *Enterprise Fund*, a major fund and a budgeted fund, is used to account for those operations that are financed and operated in a manner similar to private business enterprises or where the School District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is necessary for management accountability. The Food Service Fund is the School District's only enterprise fund and is used to account for the United States Department of Agriculture's ("USDA") approved school breakfast and lunch programs.

Fiduciary Fund types use the economic resources measurement focus and the accrual basis of accounting; they are used to account for expendable assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds and include agency funds. Fiduciary Fund Types include the following fund:

The *Agency Fund* accounts for the receipt and disbursement of monies to and from student activity organizations. These funds have no equity (assets are equal to liabilities) and do not include revenues and expenditures for general operation of the School District. This accounting reflects the agency relationship of the School District with the student activity organizations. Agency funds do not have a measurement focus.

C. Assets, Liabilities and Equity

1. Cash, Cash Equivalents and Investments

Cash and Cash Equivalents

The School District considers all highly liquid investments (including restricted assets) with original maturities of three months or less when purchased and investments in the South Carolina Pooled Investment Fund to be cash equivalents. Securities with an initial maturity of more than three months (from when initially purchased) that are not purchased from the South Carolina Pooled Investment Fund are reported as investments.

Investments

The School District investment policy is designed to operate within existing statutes (which are identical for all funds, fund types and component units within the State of South Carolina) that authorize the School District to invest in the following:

(a) Obligations of the United States and its agencies, the principal and interest of which is fully guaranteed by the United States;

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities and Equity (Continued)

1. Cash, Cash Equivalents and Investments (Continued)

Investments (Continued)

- (b) Obligations issued by the Federal Financing Bank, Federal Farm Credit Bank, the Bank of Cooperatives, the Federal Intermediate Credit Bank, the Federal Land Banks, the Federal Home Loan Banks, the Federal Home Loan Mortgage Corporation, the Federal National Mortgage Association, the Government National Mortgage Association, the Federal Housing Administration, and the Farmers Home Administration, if, at the time of investment, the obligor has a long-term, unenhanced, unsecured debt rating in one of the top two ratings categories, without regard to a refinement or gradation of rating category by numerical modifier or otherwise, issued by at least two nationally recognized credit rating organizations;
- (c) (i) General obligations of the State of South Carolina or any of its political units; or (ii) revenue obligations of the State of South Carolina or its political units, if at the time of investment, the obligor has a long-term, unenhanced, unsecured debt rating in one of the top two ratings categories, without regard to a refinement or gradation of rating category by numerical modifier or otherwise, issued by at least two nationally recognized credit rating organizations.
- (d) Savings and Loan Associations to the extent that the same are insured by an agency of the Federal Government;
- (e) Certificates of deposit where the certificates are collaterally secured by securities of the type described in (a) and (b) above held by a third party as escrow agent or custodian, of a market value not less than the amount of the certificates of deposit so secured, including interest; provided, however, such collateral shall not be required to the extent the same are insured by an agency of the federal government;
- (f) Repurchase agreements when collateralized by securities as set forth in this section; and
- (g) No load open-end or closed-end management type investment companies or investment trusts registered under the Investment Company Act of 1940, as amended, where the investment is made by a bank or trust company or savings and loan association or other financial institution when acting as trustee or agent for a bond or other debt issue of that local government unit, political subdivision, or county treasurer if the particular portfolio of the investment company or investment trust in which the investment is made (i) is limited to obligations described in items (a), (b), (c), and (f) of this subsection, and (ii) has among its objectives the attempt to maintain a constant net asset value of one dollar a share and to that end, value its assets by the amortized cost method.

The School District's cash investment objectives are preservation of capital, liquidity and yield. The School District reports its cash and investments at fair value, which is normally determined by quoted market prices (except as noted).

Cash and Investments held by the County Treasurer represent property taxes collected by the School
District's fiscal agent that have not been remitted to the School District. The County Treasurer invests
these funds in investments authorized by state statute as outlined above. All interest and other earnings
gained are added back to the fund and are paid out by the County Treasurer to the respective governments
on a periodic basis.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities and Equity (Continued)

1. Cash, Cash Equivalents and Investments (Continued)

Investments (Continued)

The School District has used the following investments in the past year:

- State and Local Government Series ("SLGS") securities investment program, which is available only to state and local governmental entities and municipalities who issue tax exempt debt. SLGS were designed to help these issuers of tax exempt debt to recapture existing negative arbitrage (when monies invested in a fund earn less than the maximum allowable return on investment) and manage continuing rebate compliance through an active investment program. The District is authorized to invest in SLGS pursuant to revised regulations published on June 30, 2005 as 31 CFR Part 344, 70 Fed Reg. 37904 (unless otherwise specifically indicated, the "Regulations"). If not otherwise invested in Treasury Bills or money market funds, the funds are invested in SLGS of various maturities. The strategy does not permit the investment of funds in any securities that are not direct, full faith and credit obligations of the United States, or money market funds that invest in the same.
- Obligations of the United States Government.
- Repurchase agreements are a type of transaction in which a participant acquires immediately available
 funds by selling securities and simultaneously agreeing to repurchase the same or similar securities after a
 specified time at a given price, which typically includes interest at an agreed-upon rate.
- Open ended mutual funds, primarily invested in money market funds which invest in short term obligations of the United States and related agencies.
- South Carolina Pooled Investment Fund ("SC Pool" or "LGIP") investments are invested with the South Carolina State Treasurer's Office, which established the South Carolina Pool pursuant to Section 6-6-10 of the South Carolina Code. The Pool is an investment trust fund, in which public monies in excess of current needs, which are under the custody of any city treasurer or any governing body of a political subdivision of the State, may be deposited. The Pool is a 2a 7-like pool which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but has a policy that it will operate in a manner consistent with the SEC's Rule 2a 7 of the Investment Company Act of 1940. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", investments are carried at fair value determined annually based upon quoted market prices. The total fair value of the Pool is apportioned to the entities with funds invested on an equal basis for each share owned, which are acquired at a cost of \$1.00.

2. Receivables and Payables

Transactions between funds that are representative of reimbursement arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds." These amounts are eliminated in the governmental and business-type activities columns of the Statement of Net Assets, except for the net residual amounts due between governmental and business-type activities, which are presented as "internal balances."

All trade and property taxes receivable are shown net of an allowance for uncollectible amounts and are expected to be collected within one year.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities and Equity (Continued)

3. Inventories and Prepaid Assets

Inventories, materials and supplies are carried in an inventory account at average cost, determined using the first-in, first-out method, and are subsequently charged to expenditures/expenses when consumed rather than when purchased. Inventories include plant maintenance and operating supplies as well as instructional supplies. The Enterprise Fund inventory includes an amount for commodities received from the USDA that are recorded at fair market value at the time of receipt but have not been consumed as of June 30, 2012.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

4. Restricted Assets

The School District established certain accounts for assets restricted for specific purposes, typically by outside parties or legal agreement. Certain bond indentures require the establishment of (i) maximum annual principal and interest payments, unless a surety bond was provided; (ii) the next succeeding principal and accrued interest payment; and (iii) bond proceeds to be used for construction purposes as required in the bond agreement. Also, the principal portion of assets of the Permanent fund is classified as restricted assets because their use is restricted by donors.

5. Capital Assets

General capital assets are those assets not specifically related to activities reported in the Proprietary Fund. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by the Proprietary Fund are reported both in the business-type activities column of the government-wide statement of net assets and in the respective fund financial statements.

All capital assets are recorded at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of \$5,000 for furniture and equipment and vehicles, and \$100,000 for land improvements and buildings and improvements. The School District's infrastructure assets are immaterial and have been reported with the buildings and improvements. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Interest incurred during the construction of capital assets is not capitalized.

All reported capital assets except land and construction in progress are depreciated. Construction projects begin being depreciated once they are complete, at which time the total cost of the project is transferred to the appropriate capital asset category. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Land Improvements	20 years	N/A
Buildings and Improvements	10-40 years	N/A
Furniture and Equipment	5-10 years	12 years
Vehicles	10 years	N/A

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities and Equity (Continued)

6. Compensated Absences

School District employees are granted vacation and sick leave in varying amounts. Upon termination of employment, an employee is reimbursed for accumulated vacation days. Sick leave is generally only reimbursed for valid illness, except that at retirement an employee may have any accumulated sick leave paid out at \$10 per day of accumulated sick leave.

The School District reports compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences." Accumulated vacation days are accrued based on the each employees current pay rate. Sick leave is accrued based on the termination payment method which takes accumulated sick leave at year-end multiplied by \$10 per day with the product being multiplied by an estimated percentage of those who will eventually retire (which is currently estimated at 20%). The entire compensated absence liability and expense is reported in the government-wide basic financial statements. The portion applicable to the Proprietary Fund is also recorded in the Proprietary Fund basic financial statements, if material. The governmental funds will also recognize compensated absences for terminations and retirements (matured liabilities) that occurred prior to year end that are expected to be paid within a short time subsequent to year end, if material.

7. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide basic financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund basic financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund basic financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments (including estimated arbitrage liabilities), compensated absences, contractually required pension contributions and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after year-end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

In the government-wide basic financial statements for the Primary Government, long-term debt and other long-term obligations are reported as liabilities on the Statement of Net Assets. Bond premiums and discounts, as well as bond issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Advance refunding costs are deferred and amortized over the life of the refunding bonds, which has the same maturity as the bonds that were refunded. Amortization of premiums, discounts, bond issuance costs and deferred advance refunding costs are included in interest expense. Bonds payable are reported net of the applicable bond premiums, discount and deferred advance refunding costs. Bond issuance costs are reported as other assets and are amortized over the term of the related debt. Accrued arbitrage payable is also reflected in long-term obligations.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities and Equity (Continued)

8. Fund Balance

In accordance with GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions" ("GASB #54"), the School District classifies its governmental fund balances as follows:

Nonspendable – includes amounts that inherently cannot be spent either because it is not in spendable form (i.e. prepaids, inventories, etc.) or because of legal or contractual requirements (i.e. principal on an endowment, etc.).

Restricted – includes amounts that are constrained by specific purposes which are externally imposed by (a) other governments through laws and regulations, (b) grantors or contributions through agreements, (c) creditors through debt covenants or other contracts, or (d) imposed by law through constitutional provisions or enabling legislation.

Committed – includes amounts that are constrained for specific purposes that are internally imposed by the government through formal action made by the highest level of decision making authority (Board of Trustees) before the end of the reporting period. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. Committed amounts for the School District would consist of amounts approved by resolution by the Board of Trustees of the School District.

Assigned – includes amounts that are intended to be used for specific purposes that are neither considered restricted or committed and that such assignments are made before the report issuance date. Assigned fund balance for the School District consists of (a) motions approved by the Board of Trustees before the report issuance date that are for a specific purposes or (b) appropriations of current fund balance (made in the annual budget process) for the succeeding budget year.

Unassigned – includes amounts that do not qualify to be accounted for and reported in any of the other fund balance categories. This classification represents the amount of fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts of restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

The School District generally uses restricted amounts to be spent first when both restricted and unrestricted (committed, assigned, and unassigned) fund balance is available unless there are legal documents, contracts, or agreements that prohibit doing such. Additionally, the School District generally would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The School District's Board of Trustees has formally adopted a minimum fund balance policy that requires 8.33% of the next year's General Fund appropriations be available as unassigned fund balance. The minimum fund balance amount was approximately \$39,004,000 as of June 30, 2012 which represents approximately 8.33% of the revised budget for the General Fund for fiscal year 2013 that was approved Board of Trustees in August 2012.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities and Equity (Continued)

9. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Outstanding debt, which has not been spent, is included in the same net assets component as the unspent proceeds. Net assets are reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Both the expendable and nonexpendable portion of net assets related to certain endowments are reflected as Restricted Net Assets.

10. Accounting Estimates

The preparation of basic financial statements in accordance with accounting principles generally accepted in the United States of America requires the School District's management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

11. Comparative Data

Comparative data (i.e., presentation of prior year totals by fund type) have not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to read.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

Budgetary Practices - Budgets for the General Fund, the Special Revenue Fund and the Special Revenue – EIA Fund are presented in the required supplementary section. Budgets for the Debt Service funds and the Capital Projects funds are presented in the supplementary information section. Budgets are not presented for the Enterprise Fund, as allowed by GAAP. Each budget is presented on the modified accrual basis of accounting, which is consistent with GAAP.

Each budget is prepared by function and object as dictated by the State of South Carolina adopted Program Oriented Budgeting and Accounting System and for management control purposes. The School District's policies allow funds to be transferred between functions. However, the total budget cannot be increased beyond that level without approval of the Board in supplementary action. The legal level of control is at the fund level. During the year, the Board revised the budget.

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- (1) In the fall of the preceding year, the School District begins its budget process for the next succeeding fiscal year beginning on July 1.
- (2) After the School District's budget committee reviews all requests and allocation requirements and related revenue, it presents a tentative proposed budget to the Superintendent for review and adjustment.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONTINUED)

A. Budgetary Information (Continued)

- (3) The Superintendent then presents a proposed budget to the Board of Trustees, which reviews the proposed budget, in a series of workshops, and makes any additions or deletions as deemed necessary.
- (4) Prior to July 1, the Board legally enacts the budget through passage of a resolution.

The administration has discretionary authority to make transfers between appropriation accounts. The revised budget amounts in the basic financial statements are as amended by the administration. All annual appropriations lapse at fiscal year end.

Encumbrance accounting is employed in governmental funds. Encumbrances outstanding at year end do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year. For budget purposes, encumbrances and unused expenditure appropriations lapse at year end.

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES

A. Deposits and Investments

Deposits

<u>Custodial Credit Risk for Deposits:</u> Custodial credit risk for deposits is the risk that, in the event of a bank failure, the School District's deposits might not be recovered. The School District does not have a deposit policy for custodial credit risk but follows the investment policy statues of the State of South Carolina. As of June 30, 2012, none of the School District's bank balances of approximately \$117,528,000, which had a carrying value of \$114,059,000, were exposed to custodial credit risk.

Investments

As of June 30, 2012, the School District's Primary Government had the following investments:

	Credit	Fair	Investment Maturities in Years			
Investment Type	Rating ^	Value	< 1 yr	1-3 yrs	3-5yrs	> 5 yrs
LGIP	NR	\$ 154,395,813	154,395,813	-	-	\$ -
Treasury MMMF	AAAm, Aaa	67,120,170	67,120,170	-	-	-
Cash and Investments Held by County Treasurer	NR	6,680,636	-	6,680,636	-	-
U.S. Treasury Bills	*	43,949,294	43,949,294	-	-	-
SLGS	*	33,700,000	-	-	-	33,700,000
Total		\$ 305,845,913	265,465,277	6,680,636	-	\$ 33,700,000

^{*} U.S. government securities are not considered to have credit risk. Credit ratings for these investments have not been disclosed.

LGIP - Local Government Investment Pool

MMMF - Money Market Mutual Fund.

SLGS - State and Local Government Series.

NR - Not rated.

[^] If available, credit ratings are for Standard & Poor's and Moody's Investors Service.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

A. Deposits and Investments (Continued)

Investments (Continued)

<u>Interest Rate Risk:</u> The School District does not have a formal policy limiting investment maturities that would help manage its exposure to fair value losses from increasing interest rates.

<u>Credit Risk for Investments</u>: Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The School District does not have an investment policy for credit risk but follows the investment policy statutes of the State of South Carolina.

<u>Custodial Credit Risk for Investments:</u> Custodial credit risk for investments is the risk that, in the event of a bank failure, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District does not have an investment policy for custodial credit risk but follows the investment policy statutes of the State of South Carolina. As of June 30, 2012, approximately \$43,949,000 of the School District's investments are exposed to custodial credit risk because the securities are uninsured, unregistered and are being held by the counterparty's trust department but not in the government's name.

<u>Concentration of Credit Risk for Investments</u>: The School District places no limit on the amount it may invest in any one issuer. Investments issued or explicitly guaranteed by the U.S government and investments in mutual funds and external investment pools are excluded from this disclosure requirement. None of the School District's other security investments exceeded 5% of the total amount invested.

The following table reconciles the carrying amount of deposits and investments to the amounts listed in the Statement of Net Assets for the Primary Government:

Statement of Net Assets		Note	es	
Unrestricted Current Assets:				
Cash and Cash Equivalents on Deposit with Financial		Carrying Amount of		
Institutions for Governmental Activities	\$ 164,988,218	Deposits	\$	114,058,637
Cash and Cash Equivalents on Deposit with Financial				
Institutions for Business-Type Activities	12,833,809	Fair Value of		
Cash and Cash Equivalents on Deposit with Financial		Investments		305,845,913
Institutions for Fiduciary Activities	1,734,547			
Cash and Investments Held by County Treasurer	6,680,636			
Restricted Current Assets:				
Cash and Cash Equivalents on Deposit with Financial				
Institutions for Governmental-Type Activities	141,358,560			
Investments Held by Financial Institutions for				
Governmental Activities	92,308,780			
	\$ 419,904,550		\$	419,904,550

Due to changes in cash flows throughout the year, the School District's deposits and investments were often significantly different than at year end.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

B. Property Taxes and Other Receivables

Greenville, Spartanburg, and Laurens Counties, South Carolina (the "Counties") are responsible for levying and collecting sufficient property taxes to meet funding obligations for the School District. The property taxes are considered both measurable and available for purposes of recognizing revenue and a receivable from the counties at the time they are collected by the Counties.

Property taxes are usually levied and billed by the Counties on real and personal properties (excluding vehicles) on or around October 1 based on an assessed value of approximately \$1,851,881,000 at rates of 120.0 mills and 42.5 mills for the General Fund and Debt Service Fund, respectively. These taxes are due without penalty through January 15. Penalties are added to taxes depending on the date paid as follows:

January 16 through February 1 - 3% of tax
February 2 through March 16 - 10% of tax
After March 16 - 15% of tax

Current year real and personal property taxes become delinquent on March 17. Unpaid property taxes become a lien against the property as of June 1 of the calendar year following the levy date. The levy date for motor vehicles is the first day of the month in which the motor vehicle license expires. These taxes are due by the last day of the same month.

Taxes receivable of approximately \$5,021,000 include an allowance for uncollectible amounts of approximately \$12,741,000 at June 30, 2012. Allowances for uncollectible amounts for the other receivable accounts were not necessary.

Governmental funds report deferred and unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At June 30, 2012, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

Delinquent Property Taxes Receivable (General Fund)	\$ 2,611,579
Delinquent Property Taxes Receivable (Debt Service - District Fund)	317,295
Revenue Collected, but Unearned (General Fund)	597,369
Revenue Collected, but Unearned (Special Revenue Fund)	13,744,738
Revenue Collected, but Unearned (Special Revenue - EIA Fund)	18,301,528
Total Deferred and Unearned Revenue for Governmental Funds	\$ 35,572,509

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

C. Capital Assets

Capital asset activity for the School District's Primary Government for the year ended June 30, 2012, is as follows:

	Beginning	*	D.	TT. C	Ending
Governmental Activities:	Balance	Increases	Decreases	Transfers	Balance
Capital Assets, Not Being Depreciated:					
Land	\$ 45,834,208	_	-	2,366,860	\$ 48,201,068
Construction in Progress	9,808,555	23,975,523	-	(23,477,024)	10,307,054
Total Capital Assets, Not Being Depreciated	55,642,763	23,975,523	-	(21,110,164)	58,508,122
Capital Assets, Being Depreciated:

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

C. Capital Assets (Continued)

Commitments

The School District has several ongoing construction projects as of June 30, 2012, consisting primarily of capital projects. The projects include renovation of existing schools as well as construction of new facilities. Total outstanding commitments at June 30, 2012 were approximately \$6,535,000.

D. Interfund Receivables and Payables

Interfund balances at June 30, 2012 (all of which are expected to be paid or received within one year), consisted of the following individual fund receivables and payables for the primary government:

Fund	I	Receivables	Payables
General Fund	\$	-	\$ 24,020,244
Special Revenue Funds:			
Special Revenue		13,273,427	-
EIA		15,770,729	-
Capital Projects Fund - District		-	4,375,175
Permanent Fund (Non-Major)		2,992	-
Enterprise/Food Service Fund		-	651,729
Totals	\$	29,047,148	\$ 29,047,148

The General Fund payable is a result of amounts due to the EIA Fund and Special Revenue Fund for salaries and other expenses.

The Special Revenue Fund receivable is a result of revenues received and deferred, but recorded as cash in the General Fund. These funds will be expended in the following fiscal year.

The Capital Projects Fund - District payable is a result of reimbursing the General Fund for invoices paid.

The Enterprise/Food Service Fund payable is a result of reimbursing the General Fund for payment of salaries.

E. Transfers From and To Other Funds (Continued)

Interfund transfers include funding allowed for indirect costs, required matches, supplemental funding, state cuts, and accounting practice. Transfers for the year ended June 30, 2012 consisted of the following:

General Fund

Transfers from:

Funds were transferred from the Special Revenue Fund and other funds to the General Fund to cover EIA raise for teachers, indirect costs for federal programs and food services, and the required Medicaid match.

Transfers to:

Funds were transferred to EIA Funds to cover the National Board Certification program.

Special Revenue Fund and EIA Fund

Transfers from:

Funds were transferred from the General Fund to cover the National Board Certification program. Funds were transferred from the EIA Fund to the Special Revenue Fund to cover the K-5 Enhancement program.

Transfers to:

Funds were transferred to the General Fund to cover Medicaid match, indirect cost on federal programs and the EIA raise for teachers.

Debt Service Fund - District

Transfer to:

Funds were transferred to the Capital Projects Fund – District to fund the capital projects programs and funds were transferred to the Debt Service – BEST Fund to make the BEST bond payments.

Debt Service Fund - BEST

Transfer from:

Funds were transferred from the Debt Service Fund – District to fund BEST bond payments.

Capital Projects Fund - District

Transfer from:

Funds were transferred from the Debt Service Fund – District to fund the capital projects program.

Proprietary/Enterprise Fund

Transfers to:

Funds were transferred to the General Fund from the Food Service Fund for indirect costs.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

F. Accounts Payable and Accrued Expenses

The significant components of accounts payable and accrued expenses for governmental activities at June 30, 2012 consisted of the following:

Accounts Payable	\$ 16,450,552
Accrued Payroll, Fringe, Withholdings and Benefits	63,535,480
Retainage Payable	789,847
Total Accounts Payable and Accrued Expenses - Governmental Activities	\$ 80,775,879

G. Short-Term Obligations

Changes in the School District's short-term obligations for governmental activities for the year ended June 30, 2012, were as follows:

	Ве	ginning			Ending
Governmental Activities:	В	alance	Additions	Reductions	 Balance
Series 2011 General Obligation Bonds Series 2012A General Obligation Bonds	\$	-	78,350,000 22,399,000	78,350,000	\$ 22,399,000
Total Short-Term Obligations	\$	-	100,749,000	78,350,000	\$ 22,399,000

The School District issued two short-term general obligation bonds during 2012 totaling \$100,749,000 for the purpose of making payments to BEST for its required debt service and for additional capital improvements. The School District received gross premiums of \$1,063,433 and incurred issuance costs of \$274,386 related to these issuances. The Series 2011 bonds, including interest of \$812,881, were repaid in June 2012 utilizing debt service fund property tax revenues. The Series 2012A bonds of \$22,399,000 are not due until March 1, 2013 with interest of \$414,352. Due to the timing of the issuance and the scheduled maturity of the Series 2012A bonds being less than one year from the date it was issued, the outstanding balance of \$22,399,000 is reflected as a fund liability on the School District's balance sheet for its governmental funds at June 30, 2012. This resulted in the Debt Service Fund – District having a negative fund balance of approximately \$14,875,000 as of June 30, 2012.

The premiums and bond issuance costs related to these short-term bonds have been netted against interest expenditures in the basic financial statements.

H. Food Service

Federal Guidelines

The School District's Food Service Fund administers the lunch programs in accordance with United States Department of Agriculture ("USDA") guidelines. Revenues are provided from USDA reimbursements and cash collections. Within the Food Service Fund, meals served to pupils are classified as regular, reduced or free. The type of meal served determines the amount of reimbursement received from the USDA. Reimbursements may be in the form of cash or commodities. The Food Service expenses are inclusive of approximately \$2,021,000 of commodities consumed during the year ended June 30, 2012.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

I. Long-Term Obligations (Continued)

General Fund resources typically have been used in prior years to liquidate compensated absences payable and the Debt Service Funds have been used to liquidate all other long-term obligations.

Interest paid on the debt issued by the School District is exempt from federal income tax. The School District sometimes temporarily reinvests the proceeds of such tax-exempt debt in materially higher-yielding taxable securities, especially during construction projects. The federal tax code refers to this practice as arbitrage. Excess earnings (the difference between the interest on the debt and the investment earnings received) resulting from arbitrage must be rebated to the federal government on the fifth anniversary of the issuance of the tax-exempt debt and every five years thereafter until the debt has been repaid, in accordance with the arbitrage regulations. During the year ended June 30, 2012, the School District had a net decrease in its arbitrage liability of \$216,000 primarily due to excess earnings received during the year on its 2005 BEST bond proceeds. The arbitrage liability at June 30, 2012 of approximately \$491,000 represents the most recent estimate of the positive arbitrage for the 2003 BEST and 2005 BEST bond issues. The School District does not believe it has any significant positive arbitrage on any of its other indebtedness as of June 30, 2012.

The BEST bonds were issued pursuant to a School Facilities Purchase and Occupancy Agreement (the "Facilities Agreement") and evidence proportionate interests of the owners in certain rental payments to be made by the School District under the terms of a Base Lease Agreement between the School District and BEST dated March 15, 2002. The School District will purchase the Capital Projects from BEST pursuant to the Facilities Agreement, which will obligate the School District to make semiannual installment payments of purchase price to BEST in amounts calculated to be sufficient to enable BEST to pay the principal and interest on the outstanding bonds. The School District's obligations under the Facilities Agreement are from year to year only and do not constitute a mandatory payment obligation of the School District in any fiscal year in which funds are not appropriated by the School District to pay the installment payments of purchase price due in such fiscal year. However, the School District would forfeit possession of the Facilities for the remainder of the term of the Lease.

Details for each debt issue (including those of its blended component unit – BEST) outstanding as of June 30, 2012 are as follows:

- \$800,000,000 BEST Installment Purchase Revenue Bond Series 2002 to finance the costs of acquiring, constructing, renovating and installing educational facilities (the "Capital Projects") to be sold by BEST to the School District pursuant to a School Facilities Purchase and Occupancy Agreement dated March 15, 2002. Bonds are due in annual installments ranging from \$1,010,000 to \$50,035,000 beginning December 2005 through December 2028 with interest ranging from 3% to 6%. They are subject to redemption at BEST's option beginning in 2012. In April 2005, BEST defeased \$192,250,000 of this indebtedness. In March 2007, BEST defeased \$501,370,000 of this indebtedness. In connection with the BEST 2002 Bond Issue, a discount of \$1,192,522 and bond issuance costs of \$6,955,000 were recorded and are being amortized over the life of the bonds. The unamortized discount and bond issuance costs at June 30, 2012, net of the amounts written off attributable to the defeased debt, were \$43,147 and \$251,634, respectively.
- \$100,765,000 BEST Installment Purchase Revenue Bond Series 2003 to finance the costs of acquiring, constructing, renovating and installing educational facilities to be sold by BEST to the School District pursuant to a School Facilities Purchase and Occupancy Agreement dated March 15, 2002, as subsequently supplemented and amended. Bonds are due in annual installments ranging from \$5,595,000 to \$9,655,000 beginning December 2004 through December 2024 with interest ranging from 3% to 5.25%. They are subject to redemption at BEST's option beginning in 2014. In connection with the BEST 2003 Bond Issue, a premium of \$4,174,347 and bond issuance costs of \$1,064,977 were recorded and are being amortized over the life of the bonds. The unamortized premium and bond issuance costs at June 30, 2012 were \$2,455,498 and \$626,457, respectively.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

I. Long-Term Obligations (Continued)

- \$68,000,000 BEST Installment Purchase Revenue Bond Series 2004 to finance the costs of acquiring, constructing, renovating and installing educational facilities to be sold by BEST to the School District pursuant to a School Facilities Purchase and Occupancy Agreement dated March 15, 2002, as subsequently supplemented and amended. Bonds are due in annual installments ranging from \$345,000 to \$25,085,000 beginning December 2008 through December 2028 with interest ranging from 3% to 5.25%. They are subject to redemption at BEST's option beginning in 2014. In connection with the BEST 2004 Bond Issue, a premium of \$588,398 and bond issuance costs of \$784,274 were recorded and are being amortized over the life of the bonds. The unamortized premium and bond issuance costs at June 30, 2012 were \$400,353 and \$533,630, respectively.
- \$216,905,000 BEST Installment Purchase Revenue Refunding Bond Series 2005 to refund \$192,250,000 of the BEST 2002 Series Bonds. Bonds are due in annual installments ranging from \$380,000 to \$46,635,000 beginning December 2015 through December 2021 with interest ranging from 4.5% to 5.5%. They are subject to redemption at BEST's option beginning in 2015. In connection with the BEST 2005 Bond Issue, a premium of \$17,449,123 and bond issuance costs of \$2,162,276 were recorded and are being amortized over the life of the bonds. The unamortized premium and bond issuance costs at June 30, 2012 were \$9,946,150 and \$1,232,516, respectively.
- \$574,790,000 BEST Installment Purchase Revenue Refunding Bond Series 2007 to refund \$501,370,000 of the BEST 2002 Series Bonds. Bonds are due in annual installments ranging from \$1,250,000 to \$71,005,000 beginning December 2010 through December 2028 with interest ranging from 4.25% to 5%. They are subject to redemption at BEST's option beginning in 2016. In connection with the BEST 2007 Bond Issue, a premium of \$24,903,064 and bond issuance costs of \$5,045,702 were recorded and are being amortized over the life of the bonds. The unamortized premium and bond issuance costs at June 30, 2012 were \$18,061,563 and \$3,659,520, respectively.
- \$61,615,000 BEST Installment Purchase Revenue Bond Series 2007 to finance the costs of acquiring, constructing, renovating and installing educational facilities to be sold by BEST to the School District pursuant to a School Facilities Purchase and Occupancy Agreement dated March 15, 2002, as subsequently supplemented and amended. Bonds are due in annual installments ranging from \$2,000,000 to \$5,515,000 beginning December 2007 through December 2028 with interest ranging from 4% to 5%. They are subject to redemption at BEST's option beginning in 2016. In connection with the BEST 2007 Bond Issue, a premium of \$2,437,787 and bond issuance costs of \$1,209,065 were recorded and are being amortized over the life of the bonds. The unamortized premium and bond issuance costs at June 30, 2012 were \$1,778,682 and \$882,170, respectively.
- \$15,795,000 School District General Obligation Bonds, Series 2008B to finance the costs of constructing educational facilities. Bonds are due in annual installments ranging from \$3,145,000 to \$7,560,000 beginning June 2010 through June 2013 with interest ranging from 3% to 5%. In connection with this issue, a premium of \$853,927 and bond issuance costs of \$105,311 were recorded and are being amortized over the life of the bonds. The unamortized premium and bond issuance costs at June 30, 2012 were \$176,796 and \$21,804, respectively.
- \$12,800,000 School District General Obligation Bonds, Series 2009C to finance the costs of constructing educational facilities. Bonds are due in annual installments ranging from \$1,510,000 to \$5,670,000 beginning June 2010 through June 2014 with interest ranging from 2% to 5%. In connection with this issue, a premium of \$431,861 and bond issuance costs of \$72,393 were recorded and are being amortized over the life of the bonds. The unamortized premium and bond issuance costs at June 30, 2012 were \$181,960 and \$30,481, respectively.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

I. Long-Term Obligations (Continued)

- \$15,060,000 Qualified School Construction General Obligation Bonds, Series 2009E to finance the costs of constructing educational facilities. Semi-annual interest only payments at a rate of 1.2% are due beginning December 2009 through December 2024, with the final payment of principal and interest due June 2025. In connection with this issue, bond issuance costs of \$256,505 were recorded and are being amortized over the life of the bonds. The unamortized bond issuance costs at June 30, 2012 were \$212,799.
- \$494,835 payable to the South Carolina Energy Office, representing 25% of the total grant received (\$197,787 and \$297,048 related to 2010 and 2011, respectively) to be paid back from energy savings recognized from the grant award. This obligation is to be repaid with three annual payments of \$164,945 at zero percent interest, with the first payment due November 1, 2011.
- \$14,302,000 Qualified School Construction General Obligation Bonds, Series 2010A to finance the costs of constructing educational facilities. The bonds are due in two installments of \$102,000 on June 1, 2011 and \$14,200,000 on June 1, 2026. Semi-annual interest only payments at a rate of 0.80% on the June 1, 2011 portion of the bonds and 4.87% on the June 1, 2026 portion of the bonds. The American Recovery and Reinvestment Act of 2009 allowed governments to issue taxable bonds to finance capital expenditures and to elect to receive a subsidy payment from the United States Treasury equal to 100% of the amount of each interest payment on such bonds. The available subsidy ("Interest Subsidy") received on these bonds is included as revenue of the Debt Service District Fund. In connection with this issue, a premium of \$123,540 and bond issuance costs of \$286,687 were recorded and are being amortized over the life of the bonds. The unamortized premium and bond issuance costs at June 30, 2012 were \$109,813 and \$254,833, respectively.
- \$10,080,743 Qualified Zone Academy Bond ("QZAB"), Series 2011 provided funding for a computer refresh program. The principal on the bond is due at maturity on June 1, 2022. Semi-annual interest only payments on June 1st and December 1st are due through maturity at an interest rate of 5.17%. Interest on this bond is subject to a refundable interest credit payment from the United States Treasury equal to 100% of the amount of each interest payment on such bond. The available subsidy ("Interest Subsidy") received on this bond is included as revenue of the Debt Service District Fund. In connection with this issue, bond issuance costs of \$176,000 were recorded and are being amortized over the life of the bond. The unamortized bond issuance costs at June 30, 2012 were \$159,036.
- \$3,807,909 Qualified Zone Academy Bond, Series 2012 to finance HVAC modifications. The principal on the bond is due at maturity on December 1, 2022. Semi-annual interest only payments on June 1st and December 1st are due through maturity at an interest rate of 4.16%. Interest on this bond is subject to a refundable interest credit payment from the United States Treasury equal to 100% of the amount of each interest payment on such bond. The available subsidy ("Interest Subsidy") received on this bond is included as revenue of the Debt Service District Fund. In connection with this issue, bond issuance costs of \$76,000 were recorded and are being amortized over the life of the bond. The unamortized bond issuance costs at June 30, 2012 were \$75,333.

The BEST bonds are not an obligation/debt of the School District; however, as BEST is blended with the operations of the School District, the debt of BEST is included with the School District's other obligations as required by GAAP.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

I. Long-Term Obligations (Continued)

Annual debt service requirements to maturity as of June 30, 2012 for BEST and the School District are as follows:

	BES	T	School Dis	strict	
Year Ending June 30	Principal	Interest	Principal	Interest	Totals
2013	\$ 77,380,000	48,636,452	9,284,945	2,100,187	\$ 137,401,584
2014	26,500,000	45,914,365	5,834,945	1,675,387	79,924,697
2015	29,370,000	44,520,395	-	1,547,811	75,438,206
2016	32,410,000	42,978,781	-	1,547,811	76,936,592
2017	35,700,000	41,205,788	-	1,547,811	78,453,599
2018-2022	258,285,000	171,483,033	10,080,743	7,221,914	447,070,690
2023-2027	364,040,000	91,630,758	33,067,909	3,387,525	492,126,192
2028-2029	175,080,000	8,731,000	-	-	183,811,000
Totals	\$ 998,765,000	495,100,572	58,268,542	19,028,446	\$ 1,571,162,560

The School District advanced defeased \$192,250,000 of the BEST 2002 Series in 2005 and an additional \$501,370,000 in 2007, for a total of \$693,620,000, issuing refunding bonds and placing a portion of the proceeds in irrevocable trusts for the purpose of generating resources for all future debt service payments related to these bonds. Accordingly, this portion of the BEST 2002 Series is considered to be defeased and is expected to be redeemed on December 1, 2012 for \$693,620,000. The reacquisition price exceeded the net carrying amount of the old debt by \$59,925,686 (\$19,788,749 and \$40,136,937 related to the 2005 BEST Refunding and 2006 BEST Refunding, respectively); this amount is being amortized over the life of the new debt, which is the same as the life of the old debt.

The School District is subject to a statutory millage limit on the amount of ad valorem taxes it may annually levy to fund operations and does not presently have sufficient unused capacity under its operating millage limit to levy additional ad valorem taxes to fund the installment payments of purchase price due under the Facilities Agreement. The School District is, however, authorized to levy an unlimited ad valorem tax to pay its general obligation debt and has covenanted and agreed in the Facilities Agreement to exercise its best efforts to issue its general obligation debt from time to time to provide funds to make installment payments of purchase price due under the Facilities Agreement as well as base payments.

The School District has continuous authority to issue general obligation bonds each calendar year, subject to a constitutional debt limit equal to 8% of the assessed valuation of property subject to levy by the School District, applicable to debt issued subsequent to November 30, 1982. As of November 30, 1982, the constitutional debt limit was decreased from 20% to 8% of the assessed valuation under the provisions of Section 15, Article X of the South Carolina Constitution. The School District had a total of \$66,449,000 (long and short-term debt) in general obligation debt outstanding at June 30, 2012 that is subject to the 8% limitation.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

IV. OTHER INFORMATION

A. Retirement and Postemployment Benefit Plans

South Carolina Retirement System

Plan Description – The District participates in a retirement plan under authorization of Title 9 of the SC Code of Laws, State of South Carolina which covers a majority of the School District's full-time employees. The South Carolina Retirement System ('SCRS") is a cost-sharing multi-employer defined benefit pension plan administered by the South Carolina Retirement System; a division of the South Carolina State Budget and Control Board. The system offers retirement and disability benefits, cost of living adjustments on an ad-hoc basis, group life ("GL") insurance benefits and survivor benefits. Only the South Carolina State Budget and Control Board has the authority to establish and amend benefits. A Comprehensive Annual Financial Report containing financial statements and required supplementary information for the South Carolina Retirement System is issued and publicly available by writing the South Carolina Retirement System, P.O. Box 11960, Columbia, SC 29211-1960.

Benefits vest after five years of service, and vested members who retire at age sixty-five or with twenty eight years of service at any age, receive an annual benefit, payable monthly for life. The benefit is based on the length of service and on average final compensation, an annualized average of the employee's highest twelve consecutive quarters' compensation. Reduced benefits are payable as early as age sixty.

Funding Policy – Both employees and employers are required to contribute to the Plan under authority of Title 9 of the SC Code of Laws. For the year ended June 30, 2012, employee contributions to the Plan are 6.5% of salary, and employers are required to contribute at the following actuarially determined rates: SCRS State Agencies & Public Schools—9.385%. In addition to the above rates, participating employers of the South Carolina Retirement System contribute 0.15% of payroll to provide a group life insurance benefit for their active participants. All employers contribute at the actuarially required contribution rates. The School District contributed amounts equal to the required contribution to the SCRS for all years presented. Only the South Carolina State Budget and Control Board has the authority to establish and amend funding policy.

Other Retirement Plan

The State of South Carolina also provides an optional retirement plan ("ORP"). It is a governmental plan administered as a qualified plan pursuant to Section 401(a) of the IRC. The State ORP is a defined contribution plan that provides retirement and survivor benefits for certain administrative positions which allows them to participate. As an alternative to the SCRS, employees eligible for the ORP may choose between the two plans.

Employee required contribution rates to the ORP was 6.5% of covered salary for the year ended June 30, 2012. The employer required contribution rate was 9.385% for the years ended June 30, 2012, for which 5.0% of the employer required contribution is remitted to the employees authorized investment providers ("AIP") with the balance being remitted to the South Carolina Retirement System. Because the contribution rates to the ORP are required, they are also actual contributions as well. Thus, the actual contribution rate and amount is 100% of the required contribution rate and amount for the ORP for all years presented.

Postemployment Benefits

In accordance with the South Carolina Code of Laws and the annual Appropriations Act, the State of South Carolina ("State") provides health, dental, and long-term disability benefits ("OPEB Plan") to retired State and school district employees and their covered dependents. The OPEB plans have been determined to be cost-sharing multiple-employer defined benefit plans and are administered by the Employee Insurance Program ("EIP"), a part of the State Budget and Control Board ("SBCB").

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

IV. OTHER INFORMATION (CONTINUED)

A. Retirement and Postemployment Benefit Plans (Continued)

Postemployment Benefits (Continued)

Generally, retirees are eligible for the health and dental benefits if they have established 10 years of retirement service credit. For new hires on or after May 2, 2008, retirees are eligible for benefits if they have established 25 years of service for 100% employer funding and 15 – 24 years of service for 50% employer funding. Benefits become effective when the former employee retirees under a state retirement system (i.e. SCRS, PORS, etc.). Basic long-term disability ("BLTD") benefits are provided to active state, school district and participating local government employees approved for disability. Complete financial statements for the OPEB plans may be obtained by writing to the Employee Insurance Program, SC Budget and Control Board, 1201 Main Street, Suite 360, Columbia, South Carolina 29201.

Code of Laws of the State, as amended, requires these post-employment healthcare and long-term disability benefits be funded through annual appropriation by the General Assembly for active employees to the EIP and participating retirees to the SBCB except for the portion funded through the pension surcharge who are not funded by State General Fund appropriations. Employers participating in the healthcare plan are mandated by State statute to contribute at a rate assessed each year by the Office of the State Budget. The EIP sets the employer contribution rate based on a pay-as-you-go basis. The School District has no liability beyond the payment of monthly contributions. The actual contribution rate and amount is 100% of the required contribution rate and amount for the OPEB Plan for all years presented.

SCRS, ORP, and OPEB Contribution Summary

The School District's wages eligible, the contribution rates, and the required contribution amounts for the past three years were as follows:

		SCRS Rates			ORP Rates	
	2012	2011	2010	2012	2011	2010
Eligible Wages - Active	\$ 296,454,833	289,969,653	305,649,711	41,966,677	39,801,804	\$ 42,762,719

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

IV. OTHER INFORMATION (CONTINUED)

B. Litigation

Various claims and lawsuits are pending against the School District. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the School District's management that resolution of these matters will not have a material adverse effect on the financial condition of the School District.

C. Grants

The School District participates in a number of federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The amount of program expenditures which may be disallowed by the granting agencies cannot be determined at this time although the School District expects such amounts, if any, to be immaterial.

D. Risk Management

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees' and natural disasters. The School District continues to carry commercial insurance for general liability, property and casualty, employee health and dental coverage and is partially self-insured for workers' compensation. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years and there has been no significant reduction in insurance coverage.

As noted above, the School District is partially self-insured related to risks associated with workers compensation. The School District has a \$550,000 per claim deductible with an insurance provider paying claims that are in excess of this amount per claim. The School District has recorded an estimated liability of \$6,733,032 for incurred but unpaid claims at June 30, 2012, which is based on GASB Statement No. 10 which requires that a liability for claims be recorded if information prior to the issuance of the basic financial statements indicate that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. This amount is included in Accounts Payable and Accrued Expenses in the Statement of Net Assets.

Changes in the workers compensation liability are as follows:

Fiscal Year	Beginning of Fiscal Year Liability				_	End of Fiscal Year Liability		
2009 - 2010	\$	4,551,581	3,612,540	2,864,520	\$	5,299,601		
2010 - 2011 2011 - 2012	\$	5,299,601 5,747,222	2,988,955 3,861,917	2,540,834 2,876,107	\$	5,747,722 6,733,032		

E. Contingencies

Impact of Act 388

In 2007, the South Carolina enacted Act 388, which is effective for the School District beginning July 1, 2007. Act 388 provides an exemption for one hundred percent of the fair market value of owner occupied residential property, to the extent not already covered by the other property tax relief exemptions, from all property taxes imposed for school operating purposes but not including millage imposed for the repayment of general obligation debt for property tax years beginning after January 1, 2007. Act 388 also created a new Homestead Exemption fund (the "Homestead Exemption Fund") which will be funded from an additional 1 cent sales tax imposed by Act 388.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

IV. OTHER INFORMATION (CONTINUED)

E. Contingencies (Continued)

Impact of Act 388 (Continued)

Act 388 created three tiers of distribution to school districts. Tier one distributions are equal to the amounts that were received by school districts for the year ended June 30, 2007, relating to an earlier property tax relief provision for owner occupied residential property. In the case of the School District, that amount is \$23,410,334. Tier two distributions are equal to the amounts that were received by school districts for the school operating portion of the homestead exemption for the elderly, disabled and blind. In the case of the School District, that amount is \$5,947,974. Tier one and Tier two distributions are fixed amounts and do not change. Tier three distributions are State funded payments to school districts to replace revenues formerly derived from taxation by school districts of owner occupied residential property. For the year ended June 30, 2008, those distributions were expected to equal the revenue that would have been collected by the school districts from property tax for school operating purposes imposed by the school districts on owner occupied residential property for that fiscal year as if no reimbursed exemptions applied. Beginning in fiscal year 2009, the annual tier three distributions will equal the reimbursement from the previous fiscal year plus the tier three reimbursement increases.

Act 388 requires the annual tier three reimbursements to be increased annually by (i) an inflation factor equal to the percentage increase in the previous year of the Consumer Price Index, Southeast Region, as published by the United States Department of Labor, Bureau of Labor Statistics, plus (ii) the percentage increase in the previous year in the population of the State as determined by the Office of Research and Statistics of the State Budget and Control Board. The tier three increases are aggregated for the entire state and the amount going to any particular school district is equal to an amount that is the school district's proportionate share of the aggregate of such funds based on the school district's weighted pupil units as a percentage of the statewide weighted pupil units as determined annually pursuant to the EFA, with an adjustment for certain poverty factors to provide programs for the affected students. There are provisions in the tier three reimbursement that could, in any given year, result in a minimum increase of four percent to the extent funds are available in the Homestead Exemption Fund. There are also provisions that require the total tier three reimbursements to the school districts in a county to be not less than \$2,500,000. If the amount of tier three distributions, other than those dependent upon balances in the Homestead Exemption Fund, exceeds amounts in the Homestead Exemption Fund, the excess is required to be paid from the general fund of the State.

The School District's tier three reimbursement for fiscal year 2012 under Act 388 is approximately \$51,491,000. Act 388 requires that, to the extent revenues in the Homestead Exemption Fund are insufficient to pay all required reimbursements to a school district, the State will pay the difference from the State's general fund. However, there can be no assurances that such funds will be appropriated in the event that there is such an insufficiency or that the change in funding sources resulting from Act 388 will not have an adverse effect on the School District's operations. The School District recognizes that Act 388 places increased reliance on state funds to fund the General Fund. This increased reliance at the state level is being funded by the additional penny sales tax, which in the School District's opinion is not as stable as property tax revenue which the penny sales tax replaced.

F. Pending Implementation of GASB Statement on Pensions

GASB Statement No. 68, "Accounting and Financial Reporting for Pensions" ("Statement"), was issued by the GASB in June 2012. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local government employers about financial support for pensions that are provided by other entities. In addition, state and local governments who participate in a cost-sharing multiple employer plan will now be required to recognize a liability for its proportionate share of the net pension liability of that plan. It is GASB's intention that this new Statement will provide citizens and other users of the financial statements with a clearer picture of the size and nature of the School District's financial obligations to current and former employees for past services rendered.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2012

IV. OTHER INFORMATION (CONTINUED)

F. Pending Implementation of GASB Statement on Pensions (Continued)

In particular, the School District will be required to report a net pension liability for its participation in the SCRS on financial statements prepared on the economic resources measurement focus and accrual basis of accounting (i.e., the Statement of Net Assets) and present more extensive note disclosures. In general, it should not have a significant impact on the School District's governmental funds.

The effect of implementation of this Statement has not been determined at this time, but it is anticipated that it will materially decrease the School District's unrestricted net assets. This Statement is required to be implemented by the School District no later than the fiscal year ending June 30, 2015.

G. Subsequent Events

In September 2012, the School District issued \$54,775,000 of General Obligation Bonds. The bonds were issued for the purpose of providing funds to pay for a portion of the costs of certain capital improvements of the School District, to pay for a portion of the required fiscal year 2013 BEST debt service payments, and to pay for the costs of issuing the bonds. The bonds carry interest at 2.5% and are due in full in June 2013.

In October 2012, BEST issued \$49,805,000 of Installment Purchase Revenue Refunding Bonds. The bonds were issued for the purpose of providing funds to refund the 2003 BEST bond issue and to pay for the costs of issuing the bonds. The bonds are due in annual installments of \$945,000 - \$9,460,000 from June 2014 through June 2023 with interest payable semi-annually ranging from 2.0% - 5.0%.

FUND BALANCE, End of Year	\$	7,968,473	(14,875,153)	\$	(22,843,626)

Note 1: The School District issued two short-term General Obligation Bonds; one in September 2011 and one in the March 2012 totaling \$100,479,000 to fund the annual BEST debt service and for additional capital projects. As these bonds are short-term in nature, the proceeds received and the related principal payments are not reflected in the financial statements, in accordance with generally accepted accounting principles. The School District received premiums of \$1,063,433, net of issuance costs of \$274,386, upon the issuance of these Bonds. The premiums received have been netted against the interest paid for financial statement presentation. The Bonds issued in the September 2011, including interest of \$812,881, were repaid in June 2012 with the revenues received from property taxes. The Bonds issued in March of 2012 are due in March 2013 and the outstanding balance is reflected as a fund liability on the District's balance sheet.

STATISTICAL SECTION

This part of The School District of Greenville County's ("School District") comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District's overall financial health.

Contents	<u>Page</u>
Financial Trends These schedules contain trend information to help the reader understand how the School District's financial performance and well-being have changed over time.	135
Revenue Capacity These schedules contain information to help the reader assess the School District's most significant local revenue source, the property tax.	141
Debt Capacity These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.	145
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within the School District's financial activities take place.	149
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report related to the services the School District provides and the activities it performs.	151

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

⁽A) Building Equity Sooner for Tomorrow (a blended component unit of the School District) issued \$800 million in installment purchase revenue bonds to begin a facility building and renovation program in 2002. There have been additional issuances totaling \$231 million. These funds have been and are continuing to be expended from 2003 through 2011.

⁽B) The School District implemented GASB #54 "Fund Balance Reporting and Governmental Fund Type Definitions" ("GASB #54") in 2011. GASB #54 established new fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in the governmental funds. The School District has elected to apply GASB #54 prospectively - and thus has provided fund balance information before ("Pre") and after ("Post") its implementation.

⁽C) The negative unassigned fund balance for 2012 was due to the School District issuing a short-term obligation bond for approximately \$22,390,000 in March 2012 that was required to be recorded as a fund liability at June 30, 2012 in accordance with generally accepted accounting principles.

⁽A) Interest payments began on the Building Equity Sooner for Tomorrow (a blended component unit of the School District) installment purchase revenue bonds.
(B) The School District began a new investment program in order to recapture negative arbitrage.
(C) The first full year of expenditures for the facility building and renovation program; this program has continued through 2006.
(D) The School District significantly curtailed its investment program as it had recaptured all of its negative arbitrage.
(E) The State of South Carolina significantly increased its funding under the Education Finance Act.
(E) The School District began reporting GO Bonds as short term obligations when there maturities were less than one-year.
(G) The School District paid arbitrage rebate.

Source: Greenville County Assessor and Auditor Departments.

Note: Property in the county was last reassessed for fiscal year 2008. Tax rates are per \$1,000 of assessed value. Beginning in fiscal year 2003, the state legislature decreased the vehicle tax assessment rate by .75% per year until the rate is lowered to 6% in fiscal year 2008.

Note: Information for Laurens and Spartanburg Counties is not included as the related property taxes applicable to the School District represents 3% of the School District's total taxes.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

YEAR ENDED JUNE 30, 2012

A - General

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") presents the activity of all federal award programs of the School District of Greenville County, South Carolina (the "School District") for the year ended June 30, 2012. All federal awards received directly from the federal agencies, as well as those passed through other government agencies, are included on the Schedule.

B – Basis of Accounting

The accompanying Schedule is presented using the modified accrual basis of accounting.

C – Relationship to Financial Statements

Federal award expenditures are reported in the School District's financial statements as expenditures in the Special Revenue Fund and operating expenses in the Enterprise Fund.

D – Relationship to Federal Financial Reports

Amounts reported in the accompanying Schedule agree with the amounts reported in the related federal financial reports except for timing differences relating to expenditures made subsequent to the filing of the federal financial reports.

E – Sub-recipients

Of the federal expenditures presented in the accompanying schedule, the School District provided federal awards of \$218,728 to the School District's charter schools (sub-recipients) from the Title I cluster, \$439,941 from the IDEA cluster, \$64,427 from the Title II program, and \$60,219 for the Occupational Education program.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF BASIC FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Trustees The School District of Greenville County Greenville, South Carolina

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of The School District of Greenville County, South Carolina (the "School District"), as of and for the year ended June 30, 2012, which collectively comprise the School District's basic financial statements and have issued our report thereon dated October 26, 2012. Our report includes a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the discretely presented component units, as described in our report on the School District's basic financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of Langston Charter Middle School, Inc. and Meyer Center for Special Children, which were audited by other auditors, were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

Management of the School District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined previously.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted a certain matter that we have reported to management of the School District in a separate letter dated October 26, 2012

This report is intended solely for the information and use of management, the Board of Trustees, others within the School District, the South Carolina Department of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

The Board of Trustees
The School District of Greenville County
Greenville, South Carolina

Compliance

We have audited The School District of Greenville County, South Carolina's (the "School District") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the School District's major federal programs for the year ended June 30, 2012. The School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the School District's management. Our responsibility is to express an opinion on the School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the School District's compliance with those requirements.

In our opinion, the School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of the School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the School District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Trustees, others within the School District, the South Carolina Department of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
