SCHOOL INFORMATION AND REQUIRED SIGNATURES

SCHOOL Blue Ridge High

GREENVILLE COUNTY SCHOOL DISTRICT

SCHOOL RENEWAL PLAN FOR YEARS 2013-2014 through 2017-2018 (five years)

SCHOOL RENEWAL ANNUAL UPDATE FOR 2017-2018 (one year)

Assurances

The school renewal plan, or annual update of the school renewal plan, includes elements required by the Early Childhood Development and Academic Assistance Act of 1993 (Act 135) and the Education Accountability Act of 1998 (EAA) (S.C. Code Ann. §59-18-1300 and §59-139-10 *et seq.* (Supp. 2004)). The signatures of the chairperson of the board of trustees, the superintendent, the principal, and the chairperson of the school improvement council are affirmation of active participation of key stakeholders and alignment with Act 135 and EAA requirements.

| 1. PRINCIPAL _____ | Reena Watson |
| 2. TEACHER _____ | Allison Skinner |
| 3. PARENT/GUARDIAN _____ | Marcie Case |
| 4. COMMUNITY MEMBER _____ | Amy Lynn |
| 5. SCHOOL IMPROVEMENT COUNCIL _____ | Ashley Wardlaw |
| 6. Read to Succeed Reading Coach _____ | N/A |
| 7. School Read to Succeed Literacy Leadership Team Lead _____ | Joel Perkin |
| 8. OTHERS* (May include school board members, administrators, School Improvement Council members, students, PTO members, agency representatives, university partners, etc.) | |
- ** Must include the School Read to Succeed Literacy Leadership Team.

<u>POSITION</u>	<u>NAME</u>
Assistant Principal	Catie Lynch-Miner
Assistant Principal	Michael Stone
Read to Succeed Literacy Leadership Team	Eric Wells
Read to Succeed Literacy Leadership Team	Chris Henslee
Read to Succeed Literacy Leadership Team	Steven Eoute
Read to Succeed Literacy Leadership Team	Lane Black
Read to Succeed Literacy Leadership Team	Stephanie Donald
Read to Succeed Literacy Leadership Team	David Beam

***REMINDER:** If state or federal grant applications require representation by other stakeholder groups, it is appropriate to include additional stakeholders to meet those requirements and to ensure that the plans are aligned.

ASSURANCES FOR SCHOOL PLAN

(Mandated Component)

Act 135 Assurances

Assurances, checked by the principal, attest that the school complies with all applicable Act 135 requirements.

_____ **Academic Assistance, PreK–3**

The school makes special efforts to assist children in PreK–3 who demonstrate a need for extra or alternative instructional attention (e.g., after-school homework help centers, individual tutoring, and group remediation).

X **Academic Assistance, Grades 4–12**

The school makes special efforts to assist children in grades 4–12 who demonstrate a need for extra or alternative instructional attention (e.g., after-school homework help centers, individual tutoring, and group remediation).

X **Parent Involvement**

The school encourages and assists parents in becoming more involved in their children’s education. Some examples of parent involvement initiatives include making special efforts to meet with parents at times more convenient for them, providing parents with their child’s individual test results and an interpretation of the results, providing parents with information on the district’s curriculum and assessment program, providing frequent, two way communication between home and school, providing parents an opportunity to participate on decision making groups, designating space in schools for parents to access educational resource materials, including parent involvement expectations as part of the principal’s and superintendent’s evaluations, and providing parents with information pertaining to expectations held for them by the school system, such as ensuring attendance and punctuality of their children.

X **Staff Development**

The school provides staff development training for teachers and administrators in the teaching techniques and strategies needed to implement the school/district plan for the improvement of student academic performance. The staff development program reflects requirements of Act 135, the EAA, and the National Staff Development Council’s revised *Standards for Staff Development*.

X **Technology**

The school integrates technology into professional development, curriculum development, and classroom instruction to improve teaching and learning.

_____ **Innovation**

The school uses innovation funds for innovative activities to improve student learning and accelerate the performance of all students. Provide a good example of the use of innovation funds.

X **Collaboration**

The school (regardless of the grades served) collaborates with health and human services agencies (e.g., county health departments, social services departments, mental health departments, First Steps, and the family court system).

Developmental Screening

The school ensures that the young child receives all services necessary for growth and development. Instruments are used to assess physical, social, emotional, linguistic, and cognitive developmental levels. This program normally is appropriate at primary and elementary schools, although screening efforts could take place at any location.

Half-Day Child Development

The school provides half-day child development programs for **four-year-olds** (some districts fund full-day programs). The programs usually function at primary and elementary schools, although they may be housed at locations with other grade levels or completely separate from schools.

Developmentally Appropriate Curriculum for PreK–3

The school ensures that the scope and sequence of the curriculum for PreK–3 are appropriate for the maturation levels of students. Instructional practices accommodate individual differences in maturation level and take into account the student's social and cultural context.

Parenting and Family Literacy

The school provides a four component program that integrates all of the following activities: interactive literacy activities between parents and their children (Interactive Literacy Activities); training for parents regarding how to be the primary teachers for their children and full partners in the education of their children (parenting skills for adults, parent education); parent literacy training that leads to economic self-sufficiency (adult education); and an age-appropriated education to prepare children for success in school and life experiences (early childhood education). Family Literacy is not grade specific, but generally is most appropriate for parents of children at the primary and elementary school levels and below, and for secondary school students who are parents. Family Literacy program goals are to strengthen parent involvement in the learning process of preschool children ages birth through five years; promote school readiness of preschool children; offer parents special opportunities to improve their literacy skills and education, a chance to recover from dropping out of school; and identify potential developmental delays in preschool children by offering developmental screening.

Recruitment

The school makes special and intensive efforts to **recruit** and give **priority** to serving those parents or guardians of children, ages birth through five years, who are considered at-risk of school failure. “At-risk children are defined as those whose school readiness is jeopardized by any of, but no limited to, the following personal or family situation(s): Educational level of parent below high school graduation, poverty, limited English proficiency, significant developmental delays, instability or inadequate basic capacity within the home and/or family, poor health (physical, mental, emotional) and/or child abuse and neglect.

X Coordination of Act 135 Initiatives with Other Federal, State, and District Programs

The school ensures as much program effectiveness as possible by developing a district-wide/school-wide coordinated effort among all programs and funding. Act 135 initiatives are coordinated with programs such as Head Start, First Steps, Title I, and programs for students with disabilities.

INTRODUCTION

to the Blue Ridge High School Portfolio

The Blue Ridge High School portfolio was developed to document the changes and progress our school has made while working to continuously improve everything we do. The portfolio provides our staff, students, parents, and community with an ongoing means of self-assessment, communication, continuous improvement, and accountability.

This school portfolio is a living document that describes Blue Ridge High School and includes actual evidence of our work. It describes who we are, our vision for the school, goals, plans, progress, and achievements in the context of client demographics and needs, and school partnerships. The portfolio also describes how we build and utilize our overall school plan for the purpose of improving student achievement – our ultimate outcome. It is in this portfolio that one can see an overview of all the progress and changes we have been able to accomplish within each section and throughout our school during this time. It also shows how all of the parts fit together to make our school a positive place for our students.

A team of teachers were involved in developing the narrative for our portfolio based on input from the staff, along with students, parents, and members of the community. Much of the narrative content came from staff discussions in the process of evaluating our work. These discussions and assessments asked staff to contribute “evidence” of our progress.

Please enjoy this comprehensive treasure as it provides the story of who we are and how we work together to continuously improve what we do to prepare our students to become successful citizens and participants in the future world!

EXECUTIVE SUMMARY

Welcome to Blue Ridge High School!

Located at the foothills of the Blue Ridge Mountains, Blue Ridge High School serves over 1,100 students, most of who live in a rural community. Exhibiting southern hospitality at its best, our community prides itself on its open and welcoming atmosphere. As the school's population has continued to grow, so has our cultural and ethnic diversity, thus illustrating our commitment to educate students from all backgrounds.

We have reviewed our mission statement based on a shared vision. We have coordinated our goals, our school plan and our professional development. We have a clearer understanding of state and national learning standards. We are making better instructional decisions based on student achievement data. And our stakeholders are better informed about school processes. In addition, we have been recognized as a school with "Excellent" report card ratings and as a Palmetto Gold and Silver Award Recipient. The EOC scores of our students have increased and the graduation rates have shown steady improvement. In order to better serve the needs of our students, we have begun to analyze data from the school report card and align our portfolio and teachers' student achievement goals with this data.

Blue Ridge High School offers quality electives to enrich the lives of our students. Our Fine Arts program has been the recipient of numerous awards, including a state champion marching band for several years, an award-winning chorus program, along with drama classes, and broadcast journalism. We also offer many other electives for our students.

Although we now have up-to-date computers and labs throughout the school, we face the challenges of keeping the software current and continuing the education of faculty members in the use of educational technology. In addition, we will continue our efforts towards improved parent communication.

The administration collaborates as a unit along with the faculty to ensure our students are learning in an orderly, safe, and pleasant environment.

Student Achievement Results

In accordance with South Carolina Curriculum Standards, Blue Ridge High School (BRHS) gathers and analyzes data on student academic achievement through standardized test results and other student performance sources. Examples of these standardized tests include the American College Test (ACT), and Scholastic Aptitude Test (SAT) as the main indicators of measuring student achievement. The ACT and WorkKeys are given to all 3rd year students. In addition the ACT and SAT are taken voluntarily by any junior or senior. In addition, students who are enrolled in Algebra I, English I, Biology, and US History are assessed using End-of-Course Exams. A summary of BRHS students' scores follows. Finally, BRHS teachers use formative and summative assessments to regularly monitor student progress and modify instruction as needed. These assessments provide a variety of evidence that achievement goals have been met. Throughout each semester, teachers communicate and collaborate with colleagues in order to improve student performance.

For the purpose of this report, Blue Ridge High School's student achievement results have been divided into six categories:

- ACT
- WorkKeys
- SAT
- End of Course Exams
- Advanced Placement Exams
- Graduation Rate

The ACT and SAT are intended to help evaluate the College Preparatory programs specifically. WorkKeys is a career readiness assessment. The EOC Exams are intended as an evaluation of the minimum program. The AP, in turn, is intended to help evaluate the honors and AP program.

ACT and WorkKeys

ACT and WorkKeys are currently designated as South Carolina college and career readiness assessments that were added to accountability measures in 2015.

The composite score for ACT in 2015 and 2016 was 17.9.

In 2015 86.3% of the students who took the WorkKeys assessments received the National Career Readiness Certificate (NCRC). In 2016 there was an increase and 91.6% students received the NCRC.

SAT

Over the past three years Blue Ridge's average composite SAT score has steadily increased. In 2014, BRHS score was 1425. It increased to 1433 in 2015 and rose again in 2016 to 1482.

End of Course Exams

The percentage of students passing the Algebra I EOC has fluctuated in the past three years. In 2014 the passage rate was 77.7%, increased to 86.5% in 2015, and declined to 81.6% in 2016.

The percentage of students passing the English I EOC has fluctuated. In 2014, the passage rate was 73.9%. There was a increase in 2015 to 77.3% and 2016 resulted in a passage rate of 68.0%.

The percentage of students passing the Biology EOC declined from 86.1% in 2014 to 82.7% in 2016.

The percentage of students passing the US History EOC has significantly increased. In 2014 the passage rate was 69.6% and was 83.7% in 2016.

Advanced Placement Exams

Blue Ridge has been fortunate in the last few years to be able to teach a variety of advanced placement courses. Not all classes are taught each year, but the subjects include:

- AP Calculus AB
- AP Calculus BC
- AP Statistics
- AP English Literature
- AP English Language
- AP European History
- AP US History
- AP World History
- AP Human Geography
- AP US Government
- AP Macroeconomics
- AP Latin
- AP Biology
- AP Chemistry
- AP Environmental Science
- AP Physics
- AP Computer Science
- AP Principles in Computer Science

The number of AP classes offered doubled from 8 to 18 from 2010 to 2016. As a result the number of students taking an AP class has almost tripled from 2010 to 2016. The overall passage rate (Score 3-5) is 28% for 2014, which is up from 48% in 2016.

High School Graduation Rate

The on-time graduation rate has remained somewhat consistent from 2014-2016. In 2014 the graduation rate was 84.2%, rose to 89.7% in 2015, and then slightly decreased to 89.1% in 2016.

Teacher and Administrator Quality

In 2015-2016 the faculty was comprised of 44% males and 56% females.

In 2016 there were 87% Caucasian teachers, 12% African American, and 1% Latin American faculty members (teachers, guidance counselors, media specialists, CRT, and administrators).

64% of teachers have advanced degrees. 0.3% of the classes are not taught by HQ teachers due to PACE positions. All certified personnel are required to attend at least 24 hours of professional development each year.

The principal has been in education for twenty-five years with eleven of them as principal of the school. The three assistant principals have an average of ten years of experience as an administrator. All administrators are certified as secondary administrators.

School Climate

Based on surveys given and reported on the SC school report card the following information was obtained:

Teachers ranked the highest for satisfied with the learning environment at 82%. Students (81%) and parents (76%) were behind in that category. Teachers ranked the highest for feeling safe at school and parents and students were close behind with 94% and 93% respectively.

Significant Challenges

BRHS draws from a geographically large and diverse community. Some students who attend BRHS are reared in low socioeconomic environments such as subsidized housing and foster homes. Other students live within a high socio-economic bracket. However, families with blue-collar jobs are more prevalent. Many families live on large plots of land and work in a family business. In many cases the skills needed to work in the family business have been taught and passed down thus making not making education a necessity to continue the business. An emphasis on education is most likely to be seen in families that have moved into the area due to a job relocation or upper middle class and above families, which are not the majority of the student population.

One attitude of the community is a number of parents view vocational skills as being more important than academic skills. A large number of BRHS parents have an education level at or below a High School Diploma. As a result, parents may not set high educational expectations for their own children. For instance, this includes lack of encouragement for them to earn a High School Diploma or to pursue a higher education beyond high

school. To offset this socio-economic gap in achievement, BRHS staff and teachers must strive to instill the value of education through positive role modeling, guest speakers and special events for parents and students.

Significant Awards, Results, and Accomplishments

2016

AJFJROTC continues to provide support to the school and community through extensive training, volunteerism, community service, and fundraising.

Science Teacher Emily Annas earned funding at DonorsChoose.org for a classroom project called "Let's Get Cooking with a Go Sun Solar Stove!".

A student received a laptop scholarship at the 25th Spirit Fest 2016 at Furman University.

A student represented Blue Ridge High School and the State of South Carolina at the Congress of Future Medical Leaders in Boston, Massachusetts, in June and received the Award of Excellence.

Two students were selected by the National Academy of Future Scientists and Technologists Award of Excellence for outstanding academic achievement, leadership potential, and determination to serve humanity in the field of science and technology.

An English teacher received a grant to purchase standing desks for her classroom.

Special education teachers received a grant to receive IPODs and Virtual Reality Head Sets for students to take virtual field trips and gain access to a whole new world of experiences and a grant from the Greater Greer Foundation is for \$1,200.00 for "Cooking in the Classroom" to assist with buying food so that her students can learn to cook fun and easy recipes.

JV and Varsity cheerleaders brought home first place at the Carolina Classic.

Varsity cheerleaders won the region championship. This was the third region championship in a row for the Tigers.

Varsity Cheerleaders qualified for the state championship.

The football team qualified for the State playoffs.

The boys and girls cross country team placed 8th and 3rd respectively at the state meet. Three students placed high enough to be considered All-State.

The varsity volleyball team qualified for the State playoffs.

Girls golf qualified for Upper State.

The Corps of Cadets won its class at the James F. Byrnes Tournament of Bands. The band also took 1st Place in class in Music Performance, Overall Effect, and Guard. Overall, the Corps of Cadets finished in a tie for 3rd Place out of 24 bands who performed and was 2nd on the day in Visual Effect.

The Corps of Cadets finished 3rd out of 20 bands at 3A Upper State Championships. Overall, the band won Music Effect on the day and finished in a tie for first in Overall Effect.

Honors Concert Choir received an invitation for the Honors Concert Choir to perform for the Choral Division at the 2017 conference of the South Carolina Music Educators Association.

BRHS orchestra program was awarded a \$500 grant through the Music Club of Greenville.

Seven students competed in the Palmetto Dramatic Association in February.

2015

Art teacher won 2nd place in in district's Fine Arts Center's show, as well as best in Show Award

Science teacher received funding from five different grant sources for a total of over \$5000 with all funds going directly to projects to enhance students' understanding in environmental science and create projects around the campus

Broadcasting teacher earned funding through DonorsChoose.org and Greater Greer Education Foundation

Math teacher was awarded grant to provide graphing calculators to students who could not afford one through Greater Greer Education Foundation

PTSA awarded top honors for the PTA reflections art contest in the areas of film production, literature, and photography

Air Force Junior ROTC instructors and cadets of Blue Ridge High School in Greer South Carolina earned an overall unit assessment score of "Exceeds Standards"...the highest rating attainable during their rated unit evaluation

The Air Force Association has provided Col. David Rogers' AFJROTC class with an Instructor Grant

The varsity cheerleaders won their second consecutive region 2-AAA cheer championship this year

Congratulations to the girls and guys cross country teams who broke a total of 14 school records during the season and earned 6th place (girls) and 7th place (guys) at state on November 6 & 7

Congratulations to the BRHS Corps of Cadets for winning the SCBDA Upper State Championship. The Corps of Cadets brought home a 2nd place medal for their performance at 3A State Competition.

Five students made Region Orchestra and eight students were selected to attend all state Chorus

Congratulations to the BRHS Concert Choir for their excellent performance with the acclaimed Greenville Chorale in December.

Congratulations to the cast and crew of The Best Christmas Pageant Ever. Their hard work and dedication provided audiences with a wonderfully entertaining production.

2014

Excellent Absolute Rating and Excellent Improvement Rating on School Report Card

6 cadets received awards at 2013 Cadet Leadership School, Converse College, for outstanding performance. A total of 19 cadets attended.

AFJROTC continues to represent the school proudly by participating in and leading many school, district, and community events.

School selected for Adopt A School program by local Walmart

Over \$400 was raised during red Ribbon Week for Greenville Family Partnership and almost \$900 was raised for Cancer Society of Greenville.

Corps of Cadets placed 1st in AAA Upper State and 2nd in state marching band competition.

6 students qualified for region orchestra.

2 teachers received classroom grants.

Head football coach was named Greenville TD Club Coach of the week twice.

4 student athletes signed letters of intent to continue their athletic career at the collegiate level.

Cheerleading, boys cross country, a girls golf player qualified for state championship.

SCHOOL PROFILE

School Community

Blue Ridge High School is located in a rural community situated in the northern portion of Greenville County, South Carolina. It is nestled in the foothills of the Blue Ridge Mountains near the North Carolina border, between the cities of Greer and Travelers Rest. Though the school is not located in a designated town, it is within a close-knit community. Blue Ridge High School is one of 14 traditional high schools in Greenville County.

Blue Ridge High School was first established in 1955. The original building was located on Tyger Bridge Road. The current building was constructed in 1986 and the renovation/expansion project was completed in January 2006. When Blue Ridge High School first opened its doors, there were 339 grades eight through twelve students enrolled. Upon completion of the renovation project, the building capacity is now 1,300 students, grades nine through twelve. There are currently approximately 1117 students and 75 certified personnel.

The Blue Ridge High School attendance area is one of the largest geographical areas in the Greenville County School District. It covers approximately 186 square miles and makes up approximately 23 percent of the entire county. Most families living in the community of Blue Ridge have a long ancestral history, dating back for several generations. However, there is a steady influx of new families with many new subdivisions being built in the area.

The economic status of the region runs the gamut from low to upper income brackets. Due to the rural setting of the school, many workers travel to other locales to work in businesses and industries. This relationship allows Blue Ridge High to foster many contacts within the surrounding business community.

The Blue Ridge area is served by a variety of higher education facilities. North Greenville University, Furman University, and the Greer campus of Greenville Technical College are located in close proximity to Blue Ridge High School. Additional educational opportunities are available in the Greenville area through the University Center of Greenville and various other organizations. The convenience of the higher learning facilities allows easy access and familiarity to the students.

School Personnel

In addition to the 75 certified faculty members; which include teachers, guidance counselors, athletic director, curriculum resource teacher, administrators, and media specialists. The following classified employees serve in support roles for the school:

- Guidance clerk
- Attendance clerk
- Media Center clerk
- School Resource Officer
- Licensed nurse
- Receptionist
- Bookkeeper
- Secretary
- Certified athletic trainer
- In-School Suspension (ISS) facilitator
- Instructional aide
- Special education aide

Student Population

Over time, the student population has fluctuated slightly as shown below.

Student Ethnicity

■ Hispanic ■ African American □ Caucasian □ Other

Approximately 39 percent of Blue Ridge High School students qualify for free and reduced priced meals, and almost 400 students use the school bus system to get to school and/or home each day.

In addition, approximately 14 percent of BRHS students qualify for special education services. We offer special needs students support through academic support classes as well as through self-contained classes. Students qualifying for the self-contained classes work towards an occupational diploma. 33 students have a 504 and receive accommodations. 32 students are limited English Proficient and are provided assistance through an ESOL teacher and receive accommodations. Over the past five years our special needs population has grown at approximately the same rate as our school enrollment.

Number of Students Receiving Special Services

Academic and Behavioral Features/Programs/Initiatives

Blue Ridge High School promotes student involvement in extra-curricular activities and programs. A wide array of offerings is available to students: Beta Club, Student Council, National Honor Society, AFJROTC, Academic Team, Future Farmers of America, German Club, Junior Classical League, Key Club, Fellowship of Christian Athletes, and Journalism. Currently, almost 50 percent our student body is actively involved in our athletic programs, the Blue Ridge High School Corps of Cadets, and our Chorus and Orchestra.

Blue Ridge High School currently uses the 4X4 Block with embedded A/B Scheduling model. Using this model provides teachers with larger blocks of time for instruction that can be more student-centered. With this model, teachers can also better incorporate project-based learning and inquiry learning experiences into the curriculum. The 4X4 Block model also affords teachers better opportunity to address differences in learning styles and intelligence modes. This model encourages students and teachers to work cooperatively as a community of learners who encourage and support each other. We have also implemented the Credit Recovery program before and after school, as well as utilize the school district's virtual school and evening school (Twilight School) programs. With this program in place, graduation rates have increased and overall retention rates have decreased.

At Blue Ridge High School, we have been very successful in our overall approach to educating children. Our daily operations have been established by the administration with input from the faculty and staff. The BRHS administration and faculty is afforded discriminatory privileges with funding and allocations in order to make spending decisions that best suit the needs of the students and overall educational program.

In addition, BRHS has established an academic learning climate in which there is a focus on instructional goals. The decision-making process is collaborative and provides opportunities for meaningful involvement of school stakeholders. Progress in improving student achievement and instructional effectiveness is monitored frequently and is adjusted as necessary. Instruction at Blue Ridge High School is based on a standards and data driven curriculum. Teachers make adjustments to the instructional process based on student learning styles and assessments of student learning. Instruction at BRHS has become more uniform and consistent by focusing on learning standards and implementing strategies for EOC, ACT and SAT preparation. Curriculum at Blue Ridge High School is firmly centered on both state and district learning standards. The curriculum focuses on the diverse needs of all student learners and provides opportunities for acceleration and remediation in language arts, mathematics, science, and social studies.

Also, the development of assessments of student learning is based on the type of achievement to be assessed. Students' understanding is assessed through a variety of measures such as teacher-made tests, standardized tests, projects, etc. Assessment is aligned with standards, curriculum and instruction.

MISSION, VISION, AND BELIEFS

We, the faculty and staff of Blue Ridge High, believe our purpose is to serve the community by preparing the successful adults of tomorrow. This purpose is very important for creating the mission, vision, and beliefs of Blue Ridge High.

During this self-study for SACS, our mission, vision, and beliefs were revisited to determine if any changes were necessary. Blue Ridge High School's vision portrays what the school will be like when the mission is achieved. In our SACS study committee we discussed the beliefs to determine their continuing relevance to us. After minor revisions, the mission, vision, and beliefs were reviewed and agreed upon by the faculty and staff.

Our mission is...

...to offer each student interdisciplinary experiences that develop intellectual, social, physical, creative, and technological potential in a safe environment.

Our vision at Blue Ridge High School is to create a school where:

- Each student will feel that the curriculum has prepared him or her for college and/or the workforce.
- The curriculum will be relevant, challenging and interesting.
- The curriculum will be always expanding, never stagnant, and changing to meet the needs of the student.
- Instruction will value student input.
- Instruction will be enhanced with technology when applicable.
- Instruction will be accurate, well-planned, professional, and effective.
- Each student will be assessed proportionately on content and skills taught in the instructional process.
- Each student will be aware of the expectations that will be assessed.
- A variety of assessment techniques will be used.
- Assessment will be fair, accurate, and will require critical thinking.
- Students, teachers, and administration will feel pride and ownership in Blue Ridge High School.
- Blue Ridge High School will be safe, clean, comfortable, and provide an environment that is conducive to learning.

- Blue Ridge High's environment will reflect student accomplishments.
- Blue Ridge High School will set the standard for all other schools in the Southeast.

We believe that...

- The student is the center of the educational process.
- Every student is a unique individual and that the curriculum should be designed to address a variety of learning styles, assessment techniques, and a broad range of interests.
- Students should expect professionalism and support from all faculty, staff, and support personnel.
- Students should be nurtured and challenged to fully realize their gifts and skills.
- As an essential element of the educational process, each student must accept responsibility to be an active learner and supporter of the learning environment.
- We must offer the students interdisciplinary experiences which will prepare them as cooperative problem solvers and responsible decision-makers in the workplace.
- The academic program should adequately prepare students to meet or exceed established state standards.
- We have an obligation to help each student learn to deal with a technologically advanced 21st century in positive and creative ways.
- We must foster in all students an attitude of understanding and appreciation for cultural, physical, and other differences among people.
- Blue Ridge High School, as a partner with the home and community, should strive to exemplify characteristics of citizenship, self-sufficiency, and strong moral character.
- Blue Ridge High School, as a partner with the home and community, must teach individual responsibility for one's actions and acceptance of consequences appropriate to one's behavior.

DATA ANALYSIS AND NEEDS ASSESSMENT

Student Achievement Needs Assessment

Evidence of Strengths:

- Instruction is aligned with state learning standards, as well as with national, state, and district goals and expectations of student learning.
- Students are actively involved in the learning.
- Science teachers used hands-on laboratory experiences to emphasize standards.
- Various types of grouping strategies are used in the classroom to help students understand instruction and to encourage active participation.
- Advanced Placement courses are offered in English, Math, Science, Social Studies, Foreign Language and Computer Science.
- Learner expectations are clearly stated in district curriculum guides and South Carolina frameworks.
- Technology is used to enhance the learning process (internet research, Power Point presentations, video streaming, Microsoft Word, Inter-write Pads, etc.).
- Advance Placement (AP), Honors, and College Prep levels of courses are offered.
- Career and Technology courses are offered, which include Family and Consumer Sciences, Business Education and Agriculture Education.
- We have built a comprehensive foreign language program, offering four languages: French, German, Latin, and Spanish. In addition, we offer four levels of each language.
- Blue Ridge High has a strong arts program. Our choral students, band members, and visual art students have received numerous honors and awards.
- Special education classes are provided (resource and self-contained).
- Appropriate methods of unbiased assessment are chosen, based on class, district, and state goals.
- Expectations for assignments are conveyed before assessments are taken. Thus, students have a clear understanding of the expectations before beginning an assignment.

Evidence of Need:

- Additional preparation and assistance is needed for students taking SAT and ACT.
- Even though progress has been made in the use of different types of assessments, more variety would be beneficial.
- Continue using USA Test Prep online software to enhance student preparation for EOC.
- Continue using USA Test Prep as a means of creating common assessments to give teachers the opportunity to collaborate with fellow colleagues and identify best practices to help effectively teach content standards.
- Continue working with at-risk students.

Teacher and Administrator Quality

Evidence of Strengths:

- The school collaboratively develops a school wide plan for improvement.
- Teachers analyze student achievement on classroom assessments, common unit assessments, benchmark assessments and standardized tests in order to determine how to best help students succeed.
- The use of POWERTEACHER has aided teachers in keeping accurate records of student attendance.
- The use of POWERTEACHER(grade book software) has aided teachers in keeping accurate records of student progress. The use of this program has also increased parent communication by enabling teachers to send electronic progress reports to parents via email.
- POWERTEACHER training is available as needed.
- District committees and school staff are working to better align instruction with those specific goals and objectives.
- Departmental meetings allow opportunities for sharing ideas and support.
- Teachers use the following types of data to make instructional decisions: school report card, classroom assessments, Individual Education Plans (IEP's), and observations.
- Teachers have access to internet resources, materials in the media center, ETV streamline video, distance learning, content department and instructional leaders and on-site workshops to help improve instruction.

- Teachers work cooperatively on creating common syllabi for courses. Teachers provide syllabi to students and parents. The syllabi are aligned to the state curriculum standards and include classroom expectations, grading policies, and an outline of course content.
- Teachers provide syllabi and outlines of courses on their websites.
- Teachers meet at school, district, and state levels to receive and share knowledge in updating the curriculum.
- Departmental meetings are held bi-monthly to address curriculum related issues and to share ideas.
- Faculty in-services focus on improving student achievement.
- Common unit assessments are used by all teachers teaching a course with other teachers and data analysis meetings are held to review data and instructional strategies.
- Teachers use a variety of assessments: standardized tests, objective tests, essays, daily work, homework, portfolios, projects, rubrics, grading scales, and performance assessments.

Evidence of Need:

- Opportunities for peer observations are needed.
- Vertical Team meetings are needed to allow opportunities for sharing ideas and support.
- Additional departmental planning opportunities are needed in order to continue our focus on refining curriculum foundations.

School Climate Needs Assessment

Evidence of Strengths:

- Student expulsion rate declined almost by half from 2.5% to 1.3%.
- Over 80% of students and teachers and students responded they were satisfied with the learning environment on the latest school report card survey.
- Over 90% of parents, teachers and students responded they feel safe at school on the latest school report card survey.

Evidence of Need:

- Under 80% of parents responded they were satisfied with the learning environment on the latest school report card survey.
- Under 85% of students responded they were satisfied with the social and physical environment on the latest school report card survey.
- Under 85% of parents responded they were satisfied with the school-home relations on the latest school report card survey.
- Student attendance rate declined below 95%.
