

Action Plan

2013-2014 through 2017-2018

Hughes Academy of Science and Technology

Principal: Dr. Andrew Hooker

Greenville County Schools

Superintendent: Burke Royster

SCHOOL RENEWAL PLAN COVER PAGE
SCHOOL INFORMATION AND REQUIRED SIGNATURES

SCHOOL

GREENVILLE COUNTY SCHOOL DISTRICT

SCHOOL RENEWAL PLAN FOR YEARS 2013-2014 through 2017-2018 (*five years*)

SCHOOL RENEWAL ANNUAL UPDATE FOR 2017-2018 (*one year*)

Assurances

The school renewal plan, or annual update of the school renewal plan, includes elements required by the Early Childhood Development and Academic Assistance Act of 1993 (Act 135) and the Education Accountability Act of 1998 (EAA) (S.C. Code Ann. §59-18-1300 and §59-139-10 *et seq.* (Supp. 2004)). The signatures of the chairperson of the board of trustees, the superintendent, the principal, and the chairperson of the school improvement council are affirmation of active participation of key stakeholders and alignment with Act 135 and EAA requirements.

STAKEHOLDER INVOLVEMENT FOR SCHOOL PLAN

(Mandated Component)

List the name of persons who were involved in the development of the school renewal plan. A participant for each numbered category is required.

- | <u>POSITION</u> | <u>NAME</u> |
|---|------------------------------------|
| 1. PRINCIPAL _____ | Andrew B. Hooker _____ |
| 2. TEACHER _____ | Sallisha Dendy-Jones _____ |
| 3. PARENT/GUARDIAN _____ | Rachel Balck _____ |
| 4. COMMUNITY MEMBER _____ | Thom Sample _____ |
| 5. SCHOOL IMPROVEMENT COUNCIL _____ | Lauren Price _____ |
| 6. Read to Succeed Reading Coach _____ | Yvonne Allison _____ |
| 7. School Read to Succeed Literacy Leadership Team Lead _____ | Caroline McCuen-Bohnenberger _____ |
| 8. OTHERS* (May include school board members, administrators, School Improvement Council members, students, PTO members, agency representatives, university partners, etc.) | |
- ** Must include the School Read to Succeed Literacy Leadership Team.

<u>POSITION</u>	<u>NAME</u>
School Counselor	Carrie McCain
Teacher	Navneet Singh
Teacher	Tarasha Williams
Teacher	Micheal Coggins
Teacher	Kelly Cattano
Teacher	Stephani Ecklund
Teacher	Michelle Philipp
Magnet Coordinator	Marsha Patry

***REMINDER:** If state or federal grant applications require representation by other stakeholder groups, it is appropriate to include additional stakeholders to meet those requirements and to ensure that the plans are aligned.

ASSURANCES FOR SCHOOL PLAN

(Mandated Component)

Act 135 Assurances

Assurances, checked by the principal, attest that the school complies with all applicable Act 135 requirements.

_____ **Academic Assistance, PreK–3**

The school makes special efforts to assist children in PreK–3 who demonstrate a need for extra or alternative instructional attention (e.g., after-school homework help centers, individual tutoring, and group remediation).

X **Academic Assistance, Grades 4–12**

The school makes special efforts to assist children in grades 4–12 who demonstrate a need for extra or alternative instructional attention (e.g., after-school homework help centers, individual tutoring, and group remediation).

X **Parent Involvement**

The school encourages and assists parents in becoming more involved in their children’s education. Some examples of parent involvement initiatives include making special efforts to meet with parents at times more convenient for them, providing parents with their child’s individual test results and an interpretation of the results, providing parents with information on the district’s curriculum and assessment program, providing frequent, two way communication between home and school, providing parents an opportunity to participate on decision making groups, designating space in schools for parents to access educational resource materials, including parent involvement expectations as part of the principal’s and superintendent’s evaluations, and providing parents with information pertaining to expectations held for them by the school system, such as ensuring attendance and punctuality of their children.

X **Staff Development**

The school provides staff development training for teachers and administrators in the teaching techniques and strategies needed to implement the school/district plan for the improvement of student academic performance. The staff development program reflects requirements of Act 135, the EAA, and the National Staff Development Council’s revised *Standards for Staff Development*.

X **Technology**

The school integrates technology into professional development, curriculum development, and classroom instruction to improve teaching and learning.

_____ **Innovation**

The school uses innovation funds for innovative activities to improve student learning and accelerate the performance of all students. Provide a good example of the use of innovation funds.

X **Collaboration**

The school (regardless of the grades served) collaborates with health and human services agencies (e.g., county health departments, social services departments, mental health departments, First Steps, and the family court system).

Developmental Screening

The school ensures that the young child receives all services necessary for growth and development. Instruments are used to assess physical, social, emotional, linguistic, and cognitive developmental levels. This program normally is appropriate at primary and elementary schools, although screening efforts could take place at any location.

Half-Day Child Development

The school provides half-day child development programs for **four-year-olds** (some districts fund full-day programs). The programs usually function at primary and elementary schools, although they may be housed at locations with other grade levels or completely separate from schools.

Developmentally Appropriate Curriculum for PreK–3

The school ensures that the scope and sequence of the curriculum for PreK–3 are appropriate for the maturation levels of students. Instructional practices accommodate individual differences in maturation level and take into account the student's social and cultural context.

Parenting and Family Literacy

The school provides a four component program that integrates all of the following activities: interactive literacy activities between parents and their children (Interactive Literacy Activities); training for parents regarding how to be the primary teachers for their children and full partners in the education of their children (parenting skills for adults, parent education); parent literacy training that leads to economic self-sufficiency (adult education); and an age-appropriated education to prepare children for success in school and life experiences (early childhood education). Family Literacy is not grade specific, but generally is most appropriate for parents of children at the primary and elementary school levels and below, and for secondary school students who are parents. Family Literacy program goals are to strengthen parent involvement in the learning process of preschool children ages birth through five years; promote school readiness of preschool children; offer parents special opportunities to improve their literacy skills and education, a chance to recover from dropping out of school; and identify potential developmental delays in preschool children by offering developmental screening.

Recruitment

The school makes special and intensive efforts to **recruit** and give **priority** to serving those parents or guardians of children, ages birth through five years, who are considered at-risk of school failure. “At-risk children are defined as those whose school readiness is jeopardized by any of, but no limited to, the following personal or family situation(s): Educational level of parent below high school graduation, poverty, limited English proficiency, significant developmental delays, instability or inadequate basic capacity within the home and/or family, poor health (physical, mental, emotional) and/or child abuse and neglect.

X Coordination of Act 135 Initiatives with Other Federal, State, and District Programs

The school ensures as much program effectiveness as possible by developing a district-wide/school-wide coordinated effort among all programs and funding. Act 135 initiatives are coordinated with programs such as Head Start, First Steps, Title I, and programs for students with disabilities.

HUGHES ACADEMY

Introduction

Hughes Academy used the strategic planning process to include all stakeholders in developing the portfolio. Teachers gave input for our strategic plan. Other stakeholders helped develop strategies for success and provided input regarding our goals for the next five years. Our new leadership team and devoted staff are determined to improve student achievement, to gain and develop resources, and to build stronger relationships with our community. Our greatest stakeholders are our parents, who are the business, religious and political leaders in our community.

EXECUTIVE SUMMARY

Hughes Academy of Science and Technology has been in existence and in the same physical location for 62 years. Our school was named for Charles E. Hughes, a beloved professor and principal in Greenville County. For over half a century, the numerous accomplishments of our school have been made possible through the conscious efforts of our teachers, parents, administrators and community members.

Student Achievement

The community we serve is one of the most culturally diverse in Greenville County. Our school has been through many distinct transitions to meet the changing needs of our community we serve over our years of existence. It is a well-known fact that children from affluent families tend to find higher success rates in school, and while the gap has lessened, there still exists a large gap in achievement between races. The major goal of Hughes Academy of Science and Technology is to provide a solid and well-rounded education for each and every one of our students. We want to bridge the gap of student achievement between our diverse groups of students. Our school is proud to have separate wings for each grade level while housing our grade level counselors and administrators on each hallway. We feel that our resources and time are best spent in close proximity to our students; our first priority. We have also implemented a school wide behavior management program using the acronym ROCK. This program is intended to help support a productive learning environment. We will promote a positive culture by infusing the acronym ROCK into everything we do, say, and how we think. ROCK stands for Respect, Order, Communication, and Kindness.

Respect: Thinking and acting in a positive way about yourself and others.

Order: The arrangement or disposition of people or things in relation to each other according to a particular sequence, pattern, or method that makes your day easier.

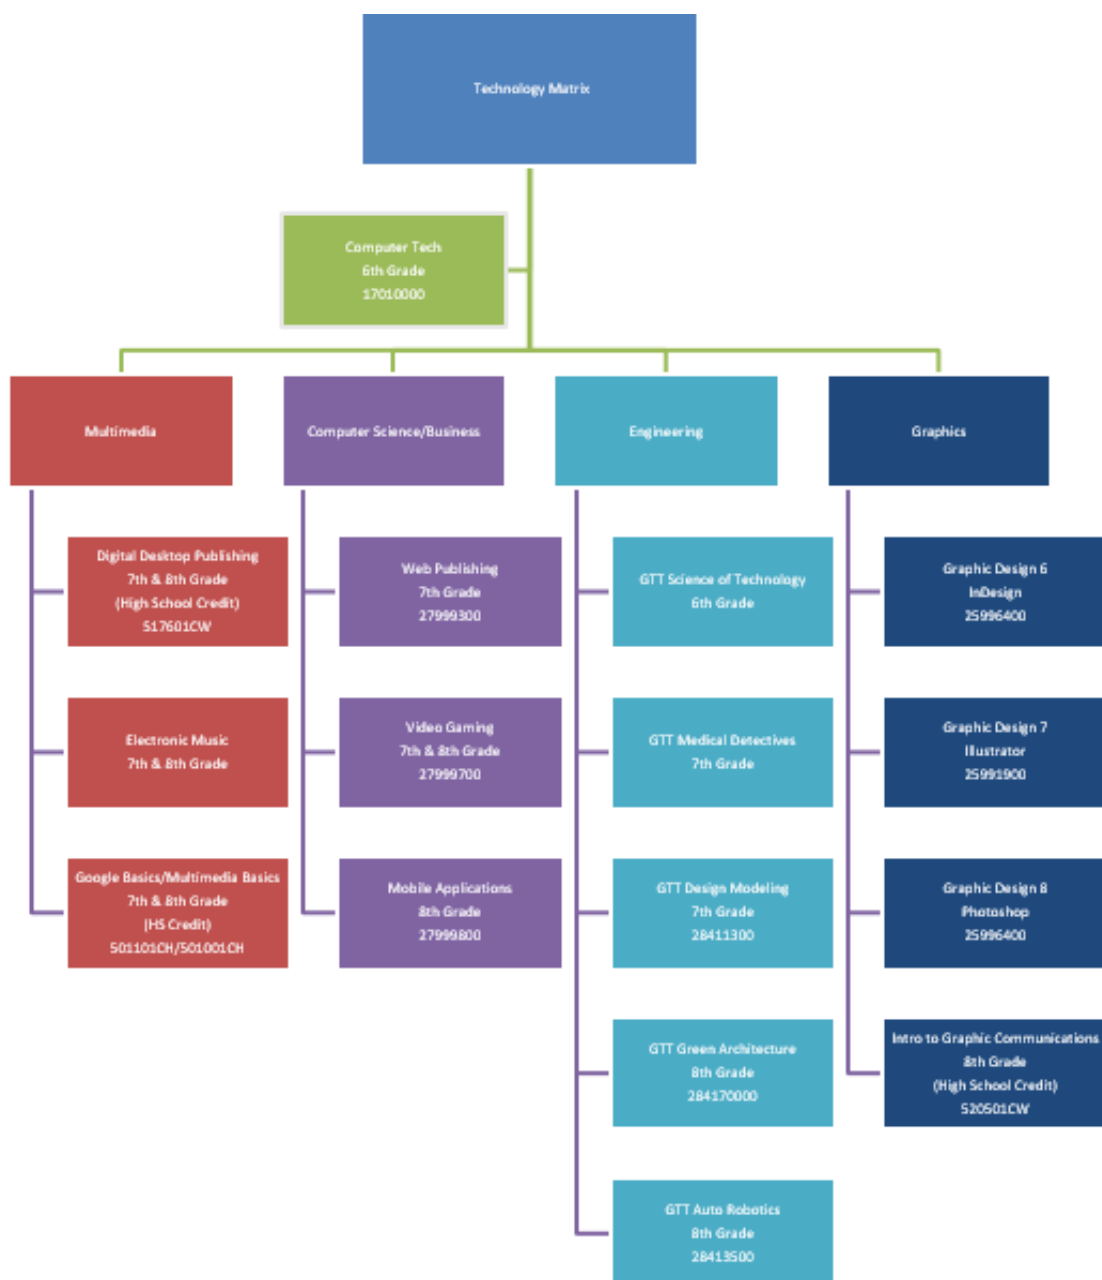

Communication: The way people share their thoughts and feelings which is vital for building and maintaining relationships with friends and family, and for success in school and employment.

Kindness: Showing others they are valuable by how you treat them.

We are a magnet school for Science, Technology, and Partial Spanish Immersion. We offer tracks of study in both technology and Spanish Immersion as part of our magnet program. In addition, we infuse project based learning with a STEAM focus into our curriculum.

In an effort to close another gap between what the corporate world needs in their workforce and how we educate our children, Hughes Academy of Science and Technology has implemented STEAM (Science, Technology, Engineering, Arts, Math). STEAM is a philosophy that provides students a project based learning experience. Students and teachers work together using the South Carolina state standards to incorporate multiple disciplines in providing solutions to real world issues. We are developing our own unique STEAM curriculum for the students of Hughes Academy while moving toward a different vision for teaching students. The STEAM holistic approach to teaching involves breaking the barriers of traditional individualized subject centered classes and creating cross-curricular, real world lessons with a project based core. Through creating integrated units, our teachers facilitate learning environments that are fluid, dynamic, and relevant to solving problems of today and tomorrow. We have partnered with businesses who provide representatives to guide our students through real world applications. This allows our students to work in teams to problem solve which in turn develops 21st century skills. Our strong technology program accents STEAM well as students not only learn, but apply the knowledge they acquire through our wide variety of technology course offerings listed below.

Our Spanish Immersion Program is one of a kind and features rigorous academic curriculum aligned with the Foreign Language Standards Balanced Literacy Framework. Participating students develop second language proficiency in an academic context under the direction of Bilingualism and Bi-Literacy trained teachers. The program features rigorous academic curriculum delivered through hands-on activities and opportunities for active involvement. Students develop the ability to think critically about the language and cultures across a broad range of subjects. The course offerings we have for our students are listed below.

6th Graders will take:	7th Graders will take:	8th Graders will take:
Spanish Language Arts	Spanish Language Arts (Spanish I high school credit)	Spanish Language Arts (Spanish II high school credit)
Social Studies in English	Social Studies in Spanish	Social Studies in Spanish
English GT or Literature Studies	English GT or Literature Studies	English I Honors or English Studies
Science	Science	Science
Math	Math	Math
Elective #1	Elective #1	Elective #1
Elective #2	Elective #2	Elective #2

Teacher/Administrative Quality

Teacher Quality has increased with all teachers having Highly Qualified status. Ten percent of our staff are National Board Certified while three teachers will be going through the National Board process in the fall. Teachers continue to participate in professional development that teaches best practices. Administration Quality has steadily improved with our Principal earning his doctorate and gaining two new school counselors, a new 7th grade administrator, and a new instructional coach.

School Climate (Teachers)

Gathering data through surveys from school employees is a best practice to develop a “climate needs assessment” for each school. Reviewing data collected from teachers, students, and parents over the last few years has given our leadership direction on continuous improvement. In regards to the teacher survey, no data was available from the year preceding Dr. Hooker.

Questions from the 2014-2015 data that drew our attention and had high percentages of “disagree/strongly disagree” in the Social and Physical Environment factor included:

- Students behave well during class (50%)
- Students behave well in lunchrooms, hallways and on school grounds (56.9)
- The rules for behavior are enforced (8.6)

From this data, we started the process to assemble a behavior task force to address issues and implement a school wide behavior policy. The faculty was invited to be a part of the “Behavior Task Force” and this group of teacher leaders and administration developed ROCK and our school implementation plan.

The same questions from 2015-2016 showed a correlation between our collaborative efforts in designing and implementing our new ROCK culture and positive answers in regards to climate on the same survey. The percentage of teachers who mostly disagree/disagree is below:

- Students behave well during class (32.7%)
- Students behave well in lunchrooms, hallways and on school grounds (32.7)

- The rules for behavior are enforced (1.8%)

School Climate (Students)

Upon reviewing the data analysis report/results for our groups of 8th grade students, we found again more data that could direct our leadership team to find solutions to problems.

In the year 2013-2014:

- 35.4% of the students stated that they were not satisfied with the learning environment at their school
- 32.7% of the students stated that they were not satisfied with the Social and Physical Environment at their school
- 17.2% were not satisfied with Home and School Relations.

In the year 2014-2015:

- 40.6% of the students stated that they were not satisfied with the learning environment at their school
- 50.5% of the students stated that they were not satisfied with the Social and Physical Environment at their school
- 18.4% were not satisfied with Home and School Relations

Many changes were set in place for last year addressing this data. Our faculty was optimistic about seeing the impact of project based learning on this data as well as test scores. Also, we hoped to see positive correlations with the creation and implementation of ROCK culture at Hughes Academy and an increase in satisfaction in these areas.

As a result, we did see more positive survey results in two of the three areas. In the year 2015-2016:

- 32.7% of the students stated that they were not satisfied with the learning environment at their school
- 29.7% of the students stated that they were not satisfied with the Social and Physical Environment at their school
- 19.8% were not satisfied with Home and School Relations

With these results, we will continue to implement ROCK while working harder to make our home and school relations more positive for our students. One way we do this is sending out positive notes home weekly. Each teacher sends 3 cards home each week to different students to encourage good behavior.

School Climate (Parents)

For the constituent group of parents, useful data exists in the factors of Learning Environment, Social and Physical Environment and Home and School Relations.

In the year 2014-2015:

- 31.4% of the parents stated that they were not satisfied with the learning environment at their school
- 30% of the parents stated that they were not satisfied with the Social and Physical Environment at their school
- 24.8% were not satisfied with Home and School Relations

Again our work with STEAM and our behavior task force collaborative efforts (ROCK) surfaced from analyzing this data and putting together a strategic plan.

As a result, we saw more positive changes in our survey results for 2015-2016:

- 25% of the parents stated that they were not satisfied with the learning environment at their school
- 28.5% of the parents stated that they were not satisfied with the Social and Physical Environment at their school
- 16.1% were not satisfied with Home and School Relations

We hope to see more positive changes due to more parent involvement in outside events. We will be hosting a parent education night for all parents to better prepare their students for the future.

Challenges and Accomplishments:

Over the past three years, our challenges are specifically tied to a change in leadership and primary instructional paradigm shift for our school. We are moving from a focus on behavior management to now increasing student engagement with a completely different paradigm of teaching. We are currently seeking a balance of behavior management with a heavy weighted purpose of strengthening our teacher's skills in providing a new delivery system for their lessons. Our staff has been trained in STEAM, are implementing STEAM projects this year, and adjusting our awareness of what students need for the 21st century. The professional development provided for our staff has encouraged them to leave their individual classrooms and enter a professional development think tank in order to challenge the preconceived notions on what the classroom looks like, how it is run, and what skills students should leave with. We have encouraged our staff to develop collaboration, creativity, communication and critical thinking skills with one another and are excited to see these lessons passed on to the classroom and our students. These "Four C's" are imperative skills needed for our students to find success in today's classroom and tomorrow's 21st century jobs.

Our current challenge is providing the physical structure of our classrooms that is a critical variable in affecting student morale, collaboration, and learning. Our present learning environments provides little variance in sustaining and promoting multiple modes of students learning, individual and group work. We have little flexibility for providing space and technology for presentation and exploration, interaction and a sense of community, as well as fostering formal and informal learning. Classrooms designed for the 21st century look very different from those of the past. Our learning environments need to blend physical and digital arrangements and reflect a flexibility of space, time, people and technology. Our administration, as well as our teachers are fully aware of the need to change our physical structure of our classrooms. Instructional leaders found a great deal of teacher pushback initially with the inability to see past our physical and technological restraints. We overcame these initial challenges with our staff and have creatively changed the accessibility of technology and the atmosphere of our school.

Our current on-going significant accomplishment for these proposed challenges is our SIC and PTSA's commitment and assistance in setting up Business Partner Events at Hughes Academy of Science and Technology and in the community. We encourage local business and community leaders to come enjoy food and listen to our presentation of the new STEAM centered focus at Hughes Academy. We use these events to educate our community about our vision and mission. Our goal is to also find business partners that will help praise and encourage innovative thinking and challenge teachers/students to push further to refine their most unique ideas to carry our school into 21st century preparedness.

This past year, our magnet program of Science and Technology saw an 18% increase in applications, and our Spanish Immersion program saw a 1% increase. Our magnet enrollment has actually declined due to the home based student enrollment increasing. We recruit heavily among our home based students as well as our magnet students in order to create a greater sense of pride within the school and in the community. The commitment of our SIC, PTSA, magnet coordinator, leadership team and staff in promoting our school's purpose and goals, developing strategic plans based on data analysis, and providing high quality professional development has increased the community interest in attending our school.

SCHOOL PROFILE

School Community Data:

Our school community represents one of the most diverse in Greenville County. Dr. Hooker has continued his goal of “Curing the Culture” and bringing together the diverse communities we serve. Dr. Hooker’s main structural focus in bridging our communities and improving student achievement is creating leaders in our school. Department chairs and grade level leaders were chosen and have begun to take ownership of creating change for our school. Many have attended conferences and shared their programs and STEAM units. Leaders from our school counseling department as well as from our teaching staff are leading the way to place Hughes Academy among the best. Other activities that our staff are organizing includes:

- Our Spanish Immersion faculty host Hispanic Family nights.
- We have a group of ELA and math teachers who are data driven and are planning on providing family meetings focused on educational tips for students scoring below grade level on MAP reading and math tests at the beginning of the next year.
- Our faculty is strongly encouraged to attend sporting and club events of our students at the school and throughout the community.
- Representatives from our school attend monthly community meetings and are working with the Greater Pleasant Valley Community center to build a bridge between local community officials, residents and our students.
- Our 6th Grade Administrator and School Counselor visit our feeder elementary schools monthly to connect with students who will be attending Hughes next year.
- Our Magnet Coordinator serves a vital role in connecting with our feeder schools and encouraging students from surrounding communities to attend Hughes Academy. By visiting elementary schools to announce our new STEAM focus as well as providing the “Hughes Experience” to local schools, we are encouraging community involvement and commitment to excellence in student achievement.
- Our PTSA and SIC committees have been instrumental in helping our school educate parents and students about 21st century skills. They have worked hand in hand with our administration to make connections with local businesses and possible partnerships throughout our community. We will be hosting a parent information night this Spring to raise awareness regarding college and career readiness as well as safety in social settings for middle schoolers.

School Personnel Data:

The faculty at Hughes Academy has a 93.1% attendance rate. Teachers receive professional development throughout the school year. 82.9% (Down from 86.1%) of the teachers returned to Hughes Academy. Our Principal is in his fourth year at Hughes Academy of Science and Technology.

CATEGORY	
Number of Teachers	52
Highly Qualified	100%

Advanced Degree	65.4%
Technology Proficient (based on state criteria)	70%

Hughes Academy has seen the following changes in administration and academics.

Administration:

- Administration continues to pursue our “One Hughes, One Team, One Vision – Excellence in Student Achievement” as the school’s mission.
- A new 7th grade administrator, 6th grade counselor, part time 8th grade counselor, Instructional Coach, and Literacy Specialist were named for the 2016-2017 school year.
- Our Magnet Coordinator leads the school in connecting with elementary schools and families interested in becoming a part of our Magnet school.
- Our Leadership Team continues to seek new partnerships and student exposure to a variety of careers with a new emphasis on STEM careers.
- Our principal, counseling department, special education department, district special education liaison and instructional coach organized and led a vertical teaming professional development with all feeder

elementary schools. We wanted to make all special education teachers at the elementary level were aware of the different transition to middle school and were cognizant of all classes Hughes Academy offers our special education students.

- Administration and School Counselors attend grade level PD sessions. They serve as active participants with our teachers in these lessons.
- Our counseling department and Instructional Coach led a PD series on engaging students across all socioeconomic levels.
- The administration completes two types of evaluations/observations for teachers – twenty minute observations and formal PAS-T observations.
- The counseling department conducts “Classroom Culture” observations and provides feedback sessions with teacher concerning classroom culture on their respective grade levels.
- The magnet coordinator and instructional coach complete twenty-minute teacher observations.
- The instructional coach assists teachers with curriculum, STEAM training, collaborative structured lessons and coaching cycles.
- Administrators were trained and implemented coaching cycles with teachers as well.
- The plant engineer is a part of the administrative team.
- Students have access to a mental health professional.
- Hughes Academy’s faculty has mixed experience levels. Teachers are consistently trained to address deficiencies on standardized tests and to systematically implement instructional changes necessary for the good of the students.
- Ten percent of our staff have received National Board Certification and three will begin the process in the fall.

Academics:

- Students will take the SCPASS test in science and social studies and the SC Ready in writing, reading, and math. Teachers collaborate in departments to plan activities that engage students and will prepare them for the new assessments. Resources are shared that are teacher created and received from district level training.
- Our Magnet Coordinator has organized a Hughes Experience session for local elementary schools. Teachers from our Spanish, GTT, PE, and science classes will provide 30 minute rotational mini lessons in their content area for surrounding elementary students.
- Hughes Academy of Science and Technology continues to operate as one of the district’s magnet schools for Science and Technology and Spanish Immersion. This program has been very successful in recent years leading to a 16% increase in applications for this program for the upcoming school year.
- Teachers are involved in vertical teaming activities within the school, and teachers are required to plan with their grade level subject area and STEAM team. Lesson plans are loaded to teachers’ websites to facilitate communication with parents.
- Every teacher has a web page, facilitating communication with parents and students. All students have access to their own email accounts and home directories. Teachers also use a Homework Hotline to communicate weekly homework to parents.
- Many teachers use the Google platform (Google Classroom) in order to communicate with students and parents in real-time.
- Team structure is used which allows teachers to have a team planning period and a personal planning period. The additional period facilitates interdisciplinary planning.
- Students are heterogeneously grouped in science and social studies.
- Students also participate in a career day where numerous community affiliates participated in shadowing and interviewing.
- Students have access to the services of a counselor from Greenville Mental Health.
- Comprehensive health education and character education programs continue to be offered to all students.

- GHS residents work with our staff to teach interactive health lessons.
- The school now has seven computer labs dedicated to technology classes such as GTT, graphic design, Desktop Publishing, mobile apps, electronic music, video gaming, web publishing, computer tech, and three new classes such as Graphic Communications, Google Basics, and Multimedia Basics.
- Each team of teachers shares two chrome book carts for their students. An ipad cart is available upon checkout as well. All Promethean Board projectors are also updated.
- The school currently has 13 3D printers used in GTT as well as core content classes, a Brother screen-printing machine, and an X-Box 360 lab.

Highlights

- Current Palmetto Gold and Silver School Recipient
- TechFit (“Teaching Engineering Concepts to Harness Future Innovators and Technologists”)
 - Grand Champions at College of Charleston state competition
- Superior ratings for all string students at the SC State Orchestra Performance
- Student artwork selected for Greenville County Drug Awareness Calendar
- Student State officers elected at the SC Youth in Government Conference
- Battle of the Brains Champions and headed to the National Competition in New Orleans
- Special Olympic Gold, Silver, and Bronze Athletes
- Math Counts 5th place in Upper State Regional Competition
- Two ACE (Advocates for Character and Education) student awards
- iImagine Upstate Festival in downtown Greenville showcased our GTT students STEAM unit of creating Prosthetic hands for children in need. As a STEAM school, we were also invited to develop STEAM related questions for a game show that will be held in the Gunter Theater during the festival.
- Hughes students again were again invited to participate in an Engineering Day field trip with engineers at the GE plant.
- Xbox fitness labs available to PE classes and teacher use during professional development days.
- Mobile Applications and Gaming classes
- Continued high school credit for Algebra I Honors, Geometry Honors, English I Honors, Spanish I, Spanish II, Desktop Publishing, Introduction to Graphic Design, Google Basics, and Multimedia Basics.
- ProTeam Class was taught by our leadership team to help build leaders in our student population and will also include at risk students. This class is sponsored by the South Carolina Center for Educator Recruitment, Retention and Advancement.
- A Service Learning class was offered where students will assist the special education teacher by preparing materials for students, assisting students as a peer tutor, and modeling acceptable social behavior for the students in our self-contained class.
- Teacher and leadership team presenters at National and State level conferences.
- Students in our Spanish Partial Immersion program are involved with many cultural events during the year. Some of these events include: a Pen Pal Intercambio with Spain, dancing lessons with Salsa of Greenville, a play at Blythe Academy of Languages, Spanish Club meetings, Venezuelan cuisine lessons, and a trip to Madrid, Spain in 2017.

- Summer camp programs that spotlight technology instruction
- Move from a computer, module-based science curriculum and to a hands-on learning approach with focus on a STEAM model and project based learning
- Mailing of good news cards to recognize positive behavior.
- Indoor beautification of building and facilities including school mascot and logos painted throughout the building
- Outdoor beautification after receiving a grant and donations from the community to upgrade our school courtyard and add a “Friendship Bench” built through a STEAM unit between the GTT classes and Art classes.
- Premier Mentoring Program with 100 trained mentors.
- New Pre-Engineering related arts GTT courses that focus on green architecture and medical detectives
- Duke Tip Program identifies Hughes Academy students to take the SAT/ACT
- Junior Scholars identified to take the PSAT
- National Qualifier for Beta Club Leadership Summit

Student Clubs

- Science Clubs for 6th, 7th and 8th grade students
- Summer Computer Camp for rising 8th and 9th graders sponsored by the Governor’s School for Science and Math (Tracks for Creating Mobile Apps, Creating Computer Games and Creating Cyber-Security)
- 7th and 8th grade Junior Beta Clubs
- Robotics Club
- Spanish Club
- Drama Club
- Chess Club
- Heart and Sole Running Club
- Yearbook
- Minecraft Club
- Model United Nations Club
- Youth in Government Club
- MathCounts Team
- Battle of the Brains academic competition team
- Participation in National Math Competitions
- Morning News Show produced, directed and broadcast by students
- School website produced and directed by students
- Band, strings, chorus and art classes
- Dance Team
- Hughes participates in the district-wide, interscholastic sports program. Sports such as basketball, baseball and soccer for boys and volleyball, basketball and softball for girls.

Student Support Systems

Based on test results we recognize that some students need support beyond that available in the classroom. Hughes Academy has worked with the district to provide a variety of special services.

Mentoring Program:

We have partnered with Mentor Upstate to develop and implement a mentoring program to better reach our at risk population. We believe that it is imperative that our students learn what it means to be a leader and that these skills will help to ensure success in life. This year, we continued to focus on positive behavior interventions such as reward times, cougar cards, and tangible rewards donated by area businesses. We have also developed the HAK PAK program, which provides weekend meals for our students in need.

These mentored students will be served at school during breakfast, lunch, or other times during the day. Our mentor coordinator, funded by a business partner, is responsible for identifying students, matching them up with the mentor, and introducing them to one another. The mentor is responsible for communicating with the student and fulfilling his or her requirements as a mentor. Mentor Upstate trains all mentors before they begin the mentoring process.

Additionally:

- We have 5 full-time resource teachers to work with students with learning disabilities. These teachers work primarily in collaboration with students and other teachers during a fifty minute period. We also have one self-contained special education class.
- When a teacher believes that a student has special needs that require attention, the student is referred to the A- Team. The purpose of the team is assessing the student's needs and to try to match student needs with resources that are available through the school, district, or community.
- We have one mental health counselor on site. Any adult who recognizes a potential need may make referrals for consideration.
- A part time ESOL teacher is available to meet the needs of the increasingly diverse student population.
- We also are afforded seven staff members who speak Spanish fluently and aide in communicating with our Hispanic families.

MISSION, VISION, VALUES, AND BELIEFS

Hughes Academy of Science and Technology defines its mission and vision by creating safe and open forums for teachers, administrators, and support staff to discuss, debate, and reach consensus on these issues. The staff was asked to brainstorm independently before we produced our core beliefs about instruction, curriculum, assessment, and environment needed to increase our students' learning.

WE BELIEVE...

- Faculty and staff interaction should be a positive model for our children.
- Students should have the right to a safe, supportive environment.
- The curriculum should be standards-based, challenging, and relevant.
- The curriculum should be integrated across disciplines with a STEAM driven focus
- Instruction should be student centered using differentiated strategies to address diverse learning styles.
- Creative teaching methods should ensure students are taught in the least restrictive environment.
- Student knowledge should be measured through a variety of authentic assessments.

PURPOSE

The purpose statement is a direct reflection of our core values and beliefs about Hughes Academy.

The purpose of Hughes Academy is to encourage our students as they transition to adulthood, to empower them to make good choices, and to enable them to be contributing members of society.

MISSION

The mission statement of Hughes reflects the need to encourage and develop a group of young adolescents who can think critically, solve problems and meet the daily challenges that our society presents.

One Hughes...One Team...One Vision – Excellence in Student Achievement

SHARED VISION

We as a faculty have a vision. We will have achieved this vision when

- Our developmentally appropriate, cohesive, school-wide curriculum is fully aligned to state and national standards, and faculty members are consistent and diligent in planning interdisciplinary connections and a STEAM PBL driven focus during their team planning. This curriculum draws heavily on service-learning, STEAM based practices, the Four C's for learners of the 21st century (Communication, Collaboration, Creativity and Critical Thinking) and is mapped both vertically and horizontally.
- Teachers use a variety of assessment methods, utilizing informal and authentic assessment strategies. Students utilize rubrics in planning and reflecting on their projects, many of which are completed in class.
- Vibrant instruction draws on students' prior knowledge and motivates them for academic success. This instruction adheres to sound instructional processes and reflects the teacher's personality while utilizing technology and involving students in hands-on learning experiences.

Students, faculty, staff, and parents agree that an exciting, positive learning environment exists at Hughes and effective communication is the norm among these groups. Teachers and administrators implement and support effective classroom management strategies. As a community, we celebrate success and all areas of giftedness while facilitating the transition to and from the middle school years.

We are at the point where our work is quite focused and teachers and staff support our vision. Our goal is to implement the vision throughout the school and in every classroom. To accomplish this, next year we plan to —

- * purposefully examine student assessment data regularly, as a whole faculty and in grade-level teams to drive instruction
- * utilize related arts teachers more effectively to help enhance the core curriculum and STEAM driven curriculum
- * educate students on the use of test data to help them understand their own progress
- * become involved in action research in our individual classrooms
- * develop a non-threatening process for peer coaching
- * share our work, so that every child in the school can benefit from each teacher's talents through peer observations and teacher led PD
- * collect authentic assessment data so we can use it for action research
- * develop a better data collection system so that we can use data for decision making in order to improve student achievement
- * track the success of our students after they leave Hughes through communication with 9th grade academies

Grade Level Meeting Times - Tuesday

6th Grade7th period

7th Grade3rd period

8th Grade.....2nd period

Related Arts... 5th period

Special Ed/Specials.....during available planning

Action Steps and Strategies Implemented this Year:

1. SLO Training and Goal Setting for all teachers
 - a. Teachers met with the principal, assistant administrator, and instructional coach to discuss data and developed SLO.
2. Data Analysis for MAP and SCPASS.
 - a. The instructional coach, literacy specialist, and administrator will provide MAP, SCPASS and SC Ready test training to teachers prior to the testing windows.
 - b. The instructional coach and literacy specialist provided additional training in data analysis to improve instruction based on test data received.
 - c. Teachers will use data in the classroom to make instructional decisions based on students' needs.
3. Data Analysis for Special Education students and implementation of Co-teaching models for SPED and ESOL
 - a. SPED teachers, support staff, administration and guidance implemented an academic tracking system to ensure student success
 - b. SPED teachers also meet with regular education teachers to discuss student progress
4. STEAM professional training and support for teachers and staff
 - a. All teachers, administration and guidance department attended grade level training to review and improve STEAM units.
 - b. Grade level and teams met quarterly to enhance STEAM practices across content areas.
5. Professional development focused on building relationships and improving learner engagement of all students.
 - a. The counseling department and instructional coach presented Ruby Payne inspired activities focusing on our students living in poverty.
 - b. Student engagement activities in the classroom were provided by the instructional coach
 - c. Jed Dearybury engaged teachers in creative classroom opportunities to improve on classroom engagement.
 - d. Principal and several teachers attended Ron Clark Academy where they learned different engagement strategies.
 - e. The literacy specialist and instructional coach provided text dependent analysis and Webb's DOK training to incorporate across content area and improve engagement.
6. Continue to Increase technology training and usage to enhance classroom instruction
 - a. Continue use of Promethean Boards and other technology in the building to engage students.
 - b. Teacher led 3D printer training modeling for teacher's how to incorporate 3D printers into classrooms in all content.
7. Teachers volunteered to lead and share their expertise during professional development sessions

School Climate Needs Assessment

SCHOOL RENEWAL PLAN FOR 2013-14 through 2017-18

☒ Student Achievement ☐ Teacher/Administrator Quality ☐ School Climate ☐ Other Priority

GOAL AREA 1: Raise the academic challenge and performance of each student.

PERFORMANCE STATEMENT: Meet the state and federal accountability objectives for all students and subgroups in ELA each year.

FIVE YEAR PERFORMANCE GOAL: Meet or exceed the standard in ELA as measured by SC READY.

ANNUAL OBJECTIVE: Annually meet or exceed the standard in ELA as measured by SC READY.

DATA SOURCE(S): ESSA Federal Accountability and SDE School Report Card

	Baseline 2015-16	2016-17	2017-18
School Projected	X	44.3	47.3
School Actual	41.3		
District Projected	X	49	52
District Actual (MS only)	46		

Baseline data to be established in 2015-16.

EOCEP % ENGLISH I

☒ Student Achievement ☐ Teacher/Administrator Quality ☐ School Climate ☐ Other Priority

FIVE YEAR PERFORMANCE GOAL: Increase the percentage of students who meet standard (test score of 70 or higher) on the state-mandated End of Course test in English I from 98.9% in 2012 to 100% in 2018.

ANNUAL OBJECTIVE: Increase by 2 percentage points annually students who meet standard (test score of 70 or higher) on the state-mandated End of Course test in English I.

DATA SOURCE(S): SDE School Report Card and SDE EOCEP data file used for accountability calculations

	Baseline 2011-12	Planning Year 2012-13	2013-14	2014-15	2015-16	2016-17	2017-18
School Projected	X	X	99.9	100	100	100	100
School Actual	98.9	99	97.5	93.6	91.7		
District Projected (MS and HS)	X	X	77.3	78.3	79.3	80.3	81.3
District Actual (MS only)	98.9	98.9	98.5	79.7 (MS & HS)	82.8 (MS & HS)		

End of Course data for MS only includes EOCEP scores for 7th and 8th graders at GCS traditional middle schools and charter middle schools.

☒ Student Achievement ☐ Teacher/Administrator Quality ☐ School Climate ☐ Other Priority

PERFORMANCE STATEMENT: Meet the state and federal accountability objectives for all students and subgroups in mathematics each year.

FIVE YEAR PERFORMANCE GOAL: Meet or exceed the standard in mathematics as measured by SC READY.

ANNUAL OBJECTIVE: Meet or exceed the standard in mathematics as measured by SC READY.

DATA SOURCE(S): ESSA Federal Accountability and SDE School Report Card

	Baseline 2015-16	2016-17	2017-18
School Projected	X	40.7	43.7
School Actual	37.7		
District Projected	X	44	47
District Actual (MS only)	41		

Baseline data to be established in 2015-16.

EOCEP % ALGEBRA I

☒ Student Achievement ☐ Teacher/Administrator Quality ☐ School Climate ☐ Other Priority

FIVE YEAR PERFORMANCE GOAL: Increase the percentage of students who meet standard (test score of 70 or higher) on the state-mandated End of Course test in Algebra I from 99.1% in 2012 to 100% in 2018.

ANNUAL OBJECTIVE: Increase by 1 percentage point(s) annually students who meet standard (test score of 70 or higher) on the state-mandated End of Course test in Algebra I.

DATA SOURCE(S): SDE School Report Card

	Baseline 2011-12	Planning Year 2012-13	2013-14	2014-15	2015-16	2016-17	2017-18

Strategies/Actions Goal Area 1:

STRATEGY	<u>Timeline</u>	<u>Person Responsible</u>	<u>Estimated Cost</u>	<u>Funding Sources</u> (act 135, academic assistance, categorical funding, Title II, etc.)	<u>Indicators of Implementation</u>
1. School-Wide focus on STEAM implementation	14-18	All Staff	None	None	Collaborative Unit Plans
2. Engagement across Socioeconomic levels	16-17	Classroom teachers and Leadership Team	None	None	Classroom Culture Observations Conducted By Counselors
3. Best Practices for Inclusion and Multi-Tiered Support System	Ongoing	Classroom teachers Instructional Coach	None	None	Records of inservice attended; evidence in lesson plans for co-teaching model; Observations; Student achievement data
4. ESOL Inclusion Model	Ongoing	Classroom Teachers Instructional Coach	None	None	Records of inservice attended; evidence in lesson plans for co-teaching model; Observations; Student achievement data
5. Teacher Technology training (Pro-Board Advanced training; Google docs; iPad use; Chrome book use; etc.)	Ongoing	All teachers	None	None	Records of in-service and evidence in lesson plans that technology has been integrated

PROFESSIONAL DEVELOPMENT

☐ Student Achievement ☒ Teacher/Administrator Quality ☐ School Climate ☐ Other Priority

GOAL AREA 2: Teachers will align STEAM units more closely to standards.

FIVE YEAR PERFORMANCE GOAL: Teachers in our school will maintain 100% attendance rates for our STEAM training and PD as evidenced by sign in sheets and implementation of units.

ANNUAL OBJECTIVE: Teachers in our school will maintain 100% attendance rates for our STEAM training as evidenced by sign in sheets and implementation of units at least one STEAM unit each nine weeks

DATA SOURCE(S): Professional development sign in sheets and STEAM unit implementation success

	Baseline 2015-16	2016-17	2017-18
Projected	100	100	100
Actual	100	100	

<u>STRATEGY</u> <u>Activity</u>	<u>Timeline</u>	<u>Person Responsible</u>	<u>Estimated Cost</u>	<u>Funding Sources</u>	<u>Indicators of Implementation</u>
1. Develop Professional Development based on the needs assessment findings.	Ongoing	Principal and IC	0	N/A	Professional development surveys.
2. Assist teachers with finding professional development within the district and state that fits their needs.	Ongoing	Instruction Coach	0	N/A	Professional Development portal printout
3. Develop STEAM units closely aligned to standards.	Ongoing	Instructional Coach	0	N/A	STEAM unit plans
4. Encourage leadership team to lead periodic PD based on best practices.	Ongoing	Leadership Team	None	None	Professional Development portal printout
5. Assist teachers in enrollment in National Board Certification	Ongoing	Instructional Coach	None	None	Copies of correspondence with teachers
6. Provide a quality Mentoring program to help new teachers increase effectiveness in the classroom	Ongoing	Instructional Coach; trained teacher leaders/coaches and	None	None	Professional development packets

STUDENT ATTENDANCE

☐ Student Achievement ☐ Teacher/Administrator Quality ☒ School Climate ☐ Other Priority

GOAL AREA 3: Provide a school environment supportive of learning.

FIVE YEAR PERFORMANCE GOAL: Achieve an annual student attendance rate of 95%.

ANNUAL OBJECTIVE: Maintain an annual student attendance rate of 95% or higher.

DATA SOURCE(S): SDE School Report Card

	Baseline 2011-12	Planning Year 2012-13	2013-14	2014-15	2015-16	2016-17	2017-18
