CREATEng

GSSM'S STATEWIDE ENGINEERING SUMMER CAMP

Innovate. Design. Create.

CREATEng is GSSM's one-of-a-kind engineering and design thinking day camp for rising 8th and 9th graders.

Working through project-based, hands-on team challenges, students learn what engineering is and what engineers do. With a focus on manufacturing and biomedical engineering, student teams will be challenged to design blades and gears for a wind turbine, solder and build optical heart-rate monitors, and print 3-D prototypes of manufacturing or medical solutions for testing.

CREATEng students will interact with guest speakers and go on a field trip to a local company to see engineering in action.

WHO Rising 8TH & 9TH Graders

WHERE Greenville County
Fisher Middle School
700 Millennium Blvd, Greenville SC 29607

WHEN June 12–15, 2017
8:30am – 4:00pm daily
