East North Street Academy
2023-2024

Our mission is to create a culture of excellence where our students exceed state standards through an engaging, proven curriculum and individualized instruction from excellent teachers in collaboration with home and community partnerships.

South Carolina Statute (Act 135 of 1993) requires each of the state's School Improvement Councils to publish and distribute an annual Report to the Parents highlighting the progress the school is making in achieving the goals and objectives of the school's strategic plan. The report is developed by the School Improvement Council to share the challenges and successes of the school, students, parents and teachers for the current school year.

Our School Improvement Council meets the second Tuesday of each month. We met a total of seven times for the 2023-2024 school year. We averaged 12 members in attendance at each meeting. The council is very proud of our school, teachers and students who have shown continued growth in collaboration, tenacity and academic achievement.

The council voted to focus on playground improvement, a support group for "new to the country" families, and better communication with our after school community centers which supports our families here at ENSA. Our PTA is making progress in raising funds to refurbish and add to our existing playgrounds. Our Parent Involvement Coordinator is communicating with families to connect them to new families with our community and our community centers will be able to receive parent newsletters via our SEESAW communcation application.

Our community partners and Overbrook Church have worked tirelessly to support families with food, clothing, and school supplies.
