INTRODUCTION

The Greenbrier Elementary School Strategic Plan was developed to guide our actions and document the changes and progress our school has made as we have sought to more effectively support student learning. It is our belief that the plan provides a vehicle for developing capacity, self-assessment, communication, and accountability that will lead to substantive school improvement. The plan is organized according to the standards set forth in **Greenville County Schools Strategic Planning/Portfolio Checklist**. It is our firm belief that the philosophies represented by the aforementioned guidelines will support Greenbrier's efforts toward continuous school improvement.

Greenbrier's staff, administrators, and community members worked collaboratively on the research and development of the strategic plan. Much of the narrative content comes from small group discussions conducted throughout the process of evaluating progress in each of the designated categories. During these discussions, team members were asked to contribute "evidence" of our progress, make suggestions for continued improvement, and dialogue regarding current and future school programs and initiatives. Feedback from Administrative meetings, Grade Level and Vertical Team meetings, community-based meetings (SIC, PTA), and whole group discussions was also integrated as we worked to generate a document truly representative of Greenbrier.

Strategic Planning Process/Structure

The Strategic Planning Team

The Strategic Team, made up of the principal and Strategic Planning Facilitators, was established to:

- guide, enforce, and reinforce the school portfolio plan
- ensure the implementation of standards and the vision
- monitor progress and address concerns
- review data and plan for improvement
- encourage and model school wide-expectations
- update and review the school portfolio plan

Action Teams

- PTA
- School Improvement Council (SIC)

A key role of the action teams is to investigate different approaches to achieving our goals. The teams may recommend specific courses of action

that will support the implementation of a high quality instructional program aligned with the state's curriculum standards.

Instructional Teams

- Faculty Council
- Grade Level Teams

Faculty Council

Grade level chairs serve as Faculty Council representatives. As liaisons between the administration and their designated grade levels or teams, council member's responsibilities include:

- facilitating weekly grade level meetings
- coordinating grade level activities
- attending monthly council meetings
- communicating team concerns, successes, and feedback
- participating in the development of budgetary proposals

Grade Level Teams

The purposes of grade-level teams are to maintain unity of curriculum, instruction, assessment, and to implement the standards at each grade level. Therefore, each teacher will:

- participate in meetings with his/her grade level
- coach and support the implementation of the standards
- study and support each other's implementation of *Best Practices*
- support grade level efforts to integrate writing across the curriculum
- plan instruction based on current common assessment data

Process for Communicating the Plan

The Greenbrier Strategic Plan and its components are communicated to all stakeholders via the following:

- plan components are shared with parents and community members at monthly SIC meetings
- plan components with parent, students, teachers, and community members at quarterly PTA meetings
- plan components are shared with teachers and faculty members at weekly faculty meetings as needed
- plan is available for viewing on the school website at

Greenbrier Elementary School, a public school in southern Greenville County, is located on an 8-acre tract of land and was originally built in 1968. During the school's first years, Greenbrier served students in grades 1 through 6. It was only a matter of time before this small community began to grow. Several years later, K5 was added when 6th grade moved to the middle school. About this time, the area around Greenbrier began to change.

With more people moving to the area, school enrollment increased. The community continued to grow and flourish as new businesses and housing developments settled here. As a result, Greenbrier began building renovations in 1999 in order to expand facilities and add a new building to accommodate the increasing student enrollment. A building dedication was held on March 16, 2000. However, with an ever-increasing population, Greenbrier went through another renovation project. An additional wing was added to accommodate 1000 students.

The current facility includes 52 classrooms, two multipurpose/traveling Related Art rooms, media center, art room, music room, gymnasium, Science Lab/Challenge room, computer lab, and video production room.

Greenbrier has heterogeneously grouped classes in kindergarten through grade five. There are two 4K classroom and four self-contained special education classes (one preschool special education classroom, one primary multi-categorical special education class, one intermediate multi-categorical special education class, and one Trainable Mentally Disabled class). The curriculum is standards-based and focuses on skills in language arts, math, science, social studies, and health. Specialists in art, music, physical education, guidance, and library science teach all students.

Greenbrier Elementary envisions our families, staff, and community working together to help our students be successful. We are committed to identifying the specific needs of both our school and our community. We realize that collaborative partnerships not only actively involve our community but also add an essential dimension that enriches our students' education.

PTA hosts student performances, as well as other various events. SIC assists the guidance department in planning college and career focused events for the school. Parent and community volunteers assist in the classroom with projects, chaperoning field trips, and reading to students. Volunteers also assist with book fairs and school clubs and have helped to organize our Leveled Literacy Library. Outreach projects touch the entire community.

Professional Learning Communities (PLCs)

Grade level PLCs meet weekly to share expertise, and works collaboratively to improve teaching skills and the academic performance of students. Every professional in the building, including related arts personnel and support staff, engage with colleagues in the ongoing exploration of the following crucial questions that drive the work of those within a professional learning community:

Balanced Literacy

The Fountas and Pinnell® framework for Balanced Literacy was developed to help teachers support the needs of individual readers. Guided Reading was originally written for K-3 teachers and reading resource teachers. - Guided Reading
- Interactive Read Aloud
- Shared Reading
- Independent Reading
- Writing

It is the adopted Language Arts framework for several Greenville County Schools.

RTI Reading Program

Response to the Intervention integrates assessment and intervention within a multi-level prevention system to maximize student achievement. With RTI, Greenbrier identifies students at risk, in kindergarten through third grade, for poor learning outcomes, monitors student progress, provides evidence-based interventions and adjusts the intensity and nature of those interventions depending on a student's responsiveness, and identifies students with learning disabilities or other disabilities.
