

# eLearning / Inclement Weather Schedule

## 2024-2025

On eLearning/Inclement Weather days, students will follow their grade-level schedule. Students will log-on to **each** teacher's Google Meet at the START of the class period. Your teacher will teach the lesson for the day and will be available to answer questions or to assist with assignments. To be counted present, you must be visible (by camera) at the start of the class period and remain for at least the first 15-20 minutes of class.
