November 25, 2024

Dear Parent or Guardian,

Your child is scheduled to take the MAP Growth assessments in reading and math. **Grade 2:** Assessment results help guide teachers' reading and math instruction by better understanding what students know and are able to do, where students need support, and what students are ready to learn next. Additionally, student test results may be used as one factor in the gifted and talented identification process. **Grades 3-8:** Student test results will be used as one factor in the gifted and talented identification process.

Parents and students can learn more about the test, complete practice items, and practice using tools available on the test by accessing the MAP Growth Student Resources website:

<https://studentresources.nwea.org/> (select the Grades 2+ option).

All student testing is conducted on-site at the school. Your student has been scheduled to take the reading test on Tuesday, December 3rd and the math test on Wednesday, December 4th. Students should bring their charged, district-issued Chromebook to each testing session. During test sessions, students may not be in possession of or use any electronic devices (e.g., cell phones, smart watches) other than the device used for testing.

If you have questions, please contact Darlene Currier, School Test Coordinator, at [dcurrier@greenville.k12.sc.us](mailto:dcurrier@greenville.k12.sc.us) or 355-6846.

Sincerely,

Jennifer Gibson, Principal
